

Obsah

Sekcia I: Aplikovaná biológia/Applied Biology

- Behulová, T., Vešelényiová, D., Krajčovič, J.**
Study of the effect of antibacterial chemotherapeutic agent ofloxacin on residual plastomes of stable white mutants of the flagellate *Euglena gracilis* 5
- Blažíčková, M., Vešelényiová, D., Krajčovič, J.**
Induction of non-green mutants in originally phototrophic flagellate *Euglena gracilis* and assessment of the degradation degree of their plastid genomes 7
- Fojtíková, N., Jamrichová, D., Jarábková, V.**
Cell wall binding domain of bacteriophage endolysins infecting *Streptococcus agalactiae* and *Staphylococcus aureus* 9
- Gandičová, M., Šramková, Z., Tišáková, L.**
Design, expression and production of receptor binding protein encoded by phage infecting *Staphylococcus* strain 11
- Hribová, K., Peterková, D., Šramková, Z.**
Characterization of predicted peptidoglycan hydrolase of bacteriophage Φ C31 13
- Kabelíková, S., Chrenková, M., Rafay, J.**
The effect of Roundup Ready® maize feeding on animal biological traits 15
- Králiková, L., Oravkinová, M., Godány, A.**
Analysis of the function of the surface proteins encoded in the genome of *Streptococcus pneumoniae* for identifying suitable candidates for vaccine development 17
- Kürtösy, E., Vešelényiová, D., Krajčovič, J.**
What makes us human at the molecular level?! 19
- Panáčková, O., Ůrgeová, E., Kukurová, K., Siekel, P.**
Application of okara in foodstuffs 21
- Papánková, B., Kukurová, K., Ciesarová, Z., Jelemenská, V., Ůrgeová, E., Siekel, P.**
Characterization of new cereal sea buckthorn products 23
- Purgíňa, F., Janeček, Š.**
In silico analysis of a new enzyme group related to archaeal α -galactosidases in the α -amylase family GH57 25
- Reháková, R., Vešelényiová, D., Krajčovič, J.**
The influence of new fluoroquinolone derivatives on the chloroplasts of the flagellate *Euglena gracilis* 27

Semanová, A., Raabová, L. Identification of filamentous cyanobacteria isolated from selected habitats of Alaska	29
Šimek, L., Godány, A. Identification prophages sequences in bacteria genus <i>Streptomyces</i> with targeting to tail proteins	31
Špaková, B., Seman, M. Identification and characterization of aeromonads isolated from clinical sources	33
Šťastná, L., Šramková, Z. Peptidoglycan-hydrolases of bacteriophages infecting pseudomonads	35
Vaneková, M., Üргеová, E. Comparison of antimicrobial effects of sage extracts grown hydroponically and <i>in vivo</i>	37
Vrbová, K., Císarová, M. Inhibition of growth and mycotoxin production of the genus <i>Aspergillus</i> by essential oils in <i>in vitro</i> condition	39

Sekcia II: Biotechnológia

Čarná, A., Vešelényiová, D., Krajčovič, J., Horník, M. Metals binding by microalgae biomass of genus <i>Euglena</i> from aqueous solutions	43
Gregorová, M., Bardáčová, M., Matušíková, I. Characterization of selected wheat varieties in terms of the intake and accumulation of cadmium ions	45
Kalafutová, A., Marček Chorvátová, A., Čunderlíková, B. Aminolevulinic acid-based photoinactivation of tumour cells	47
Karas, M., Moravčíková, J. Isolation of LEA gene from <i>Querus robur</i> L. for biotechnological purposes	49
Kissová, L., Benešová, B., Lipcseyová, D., Viskupičová, J. Isolation and functional analysis of calcium ATPase (SERCA1 isoform) from skeletal muscle of diabetic rats	51
Kročianová, D., Chmelová, D., Ondrejovič, M. Antibacterial compounds of spruce bark	53
Kubicová, G., Matušíková, I. Glucanases and chitinases in the parasitic dodder (<i>Cuscuta europaea</i>)	55
Kunstová, J., Chmelová, D., Ondrejovič, M. Production of laccases by the white-rot fungus <i>Pleurotus ostreatus</i>	57

Ondrová, K., Vešelényiová, D., Krajčovič, J., Marček Chorvátová, A.	59
Testing possibilities in immobilisation of <i>Euglena</i> algae	

Sekcia III: Chémia/Chemistry

Forintová, Z., Belvončíková, P., Pastorek, J., Sokol, J.	63
The role of human serum carnosinase in cancer and neurodegenerative diseases	

Gubrická, L., Grossmannová, K., Baráthová, M., Maliarová, M., Pastorek, J.	65
Natural products for tumor therapy	

Krylov, R., Boča, R.	67
Magnetic deposits of iron oxides in the human organism	

Pápešová, Z., Sokol, J.	69
Determination of polyamines in clinical samples	

Zaputilová, I., Maliarová, M.	71
Physico-chemical and analytical properties of selected polyphenol derivatives and their biological activity
