

Contents

- 1. Introduction 5
- 2. Methods and results 7
 - 2.1. Limitations of single-parameter fracture mechanics 7
 - 2.2. Fracture mechanics of V-notch and bi-material notch 7
 - Criteria of crack initiation direction and stability criteria 10
 - 2.3. Fracture mechanics of sharp material inclusion 14
 - Criteria of crack initiation direction and stability criteria 15
 - Developing a complete description of crack initiation and propagation near the sharp material inclusion 25
- 3. Conclusions 27
- 4. Selected references of the dissertation 28
- 5. Author's CV 31
- 6. Abstract 32
