Preface	vi
Credits	vii
A Dictionary of Electronics and Electrical Engineering	1
Appendices	682
Table 1 Graphical Symbols	683
Table 2 Colour Codes	690
Table 3 Properties of Important Semiconductors	692
Table 4 Electric and Magnetic Quantities	692
Table 5 Fundamental Constants	694
Table 6 Base SI Units	694
Table 7 Derived SI Units with Special Names	694
Table 8 Dimensionless SI Units with Special Names	695
Table 9 Prefixes used with SI Units	695
Table 10 Electromagnetic Spectrum	696
Table 11 Periodic Table of the Elements	697
Table 12 Electron Arrangement in Atomic Shells	698
Table 13 Electrochemical Series	699
Table 14 Major Discoveries and Inventions in Electricity and Electronics	700
Table 15 The Greek Alphabet	702
Table 16 Abbreviations and Acronyms	703
