Introduction: Development of EU Energy Law and Policy	1
Energy and the Early Development of the EU	1
European Energy Law and Policy	3
1. The Vertical Division of Competences between the European Union and Its Member States in the Energy Sector	7
1.1 The Principles Governing the Distribution of Competence	7
1.2 Categories of Competence	8
1.3 The EU's Competence to Enter into International Agreements	10
1.4 Competence in the Energy Sector	11
Further Reading	14
2. Sector-Specific Regulation of the Energy Market: Background and General Overview	15
2.1 Introduction	15
2.2 Third-Party Access to Electricity and Natural-Gas Networks	19
2.3 Unbundling of Energy Companies	24
2.4. Public-Service Obligations in EU Energy Markets	29
2.4.1 Public-service obligation	29
2.5 Investment in Trans-European Networks	32
2.5.1 Investments in cross-border infrastructure by transmission system operators	33
2.5.2 Private infrastructure investment	37
2.6 Energy Trading	42
2.7 National and EU Energy Market Authorities	48
2.7.1 National energy market authorities	48
2.7.2 The Agency for the Coordination of Energy Regulators (ACER)	52

2.8 Conclusion	54
Further Reading	55
3. Applying EU Competition Law to the Energy Markets	57
3.1 Introduction	57
3.2 Article 101 TFEU and Prohibited Cooperation between Undertakings	58
3.3 Article 102 TFEU and Abuse of a Dominant Position	62
3.3.1 Evaluating a dominant position	63
3.3.2 Evaluating abuse of a dominant position	65
3.4 Energy Infrastructures and EU Competition Law	68
3.4.1 Essential facilities and the energy markets	69
3.4.2 Natural-gas pipelines and electricity networks as essential facilities: an overview of the recent case law in Europe	71
3.4.3 Evaluation of the cases: which commodities constitute essential facilities?	75
3.4.4 Evaluation of the cases: which activities constitute abuse of essential facilities?	76
3.5 Energy Contracts and EU Competition Law	76
3.5.1 Long-term contracts in the energy markets	78
3.5.2 Territorial restrictions in natural-gas contracts	82
3.6 Conclusion	84
Further Reading	85
4. Treaty Freedoms and EU Energy Markets	87
4.1 Introduction	87
4.2 Free Movement of Goods under EU Law	88
4.3 Free Movement of Goods and Energy	90
4.4 Free Movement of Capital and Energy	100
4.5 Conclusion	102
Further Reading	103
5. State Aid in the Energy Sector	105
5.1 Introduction	105
5.2 State Aid under EU Law: The Four Cumulative Criteria	106
5.3 State Aid in the Energy Industry	110

5.4 Conclusion	116
Further Reading	117
6. Sustainable Development and EU Energy Law	119
6.1 Introduction	119
6.2 Renewable Energy in Electricity Production	122
6.2.1 Energy regulation at EU level	122
6.2.2 National support schemes for the use of renewable energy in electricity production	124
6.2.3 Biofuels for transport	126
6.3 Energy Efficiency	127
6.3.1 The Energy Efficiency Directive	129
6.3.2 The energy performance of buildings	130
6.3.3 Provision of information on the energy consumption of energy-related products	131
6.4 Emission Reduction and Control in the EU	132
6.4.1 Energy taxation	133
6.4.2 The Industrial Emissions Directive	134
6.4.3 The emission trading scheme	136
6.5 Conclusion	137
Further Reading	138
7. External Elements of EU Energy Law	141
7.1 Introduction	141
7.2 The Energy Community	143
7.3 Energy Investments and the Energy Charter Treaty	145
7.3.1 The Energy Charter Treaty and investment: scope	147
7.3.2 The Energy Charter Treaty: material provisions on investment	148
7.3.3 Energy disputes under the Energy Charter Treaty	149
7.4 Conclusion	153
Further Reading	153
8. Cross-Cutting Issues: Examples of Areas Where Energy Law and Policy Interact with Other EU Policies	155
8.1 Introduction	155
8.2 Waste-to-Energy: At the Crossroads of EU Energy and Waste Policy	156
8.2.1 EU waste and energy law and policy	158
8.2.2 Waste-based fuels and the EU's waste hierarchy	159
