

LIST OF CONTENT

- 1 *Emad Alsuwat, Marco Valtorta, Csilla Farkas*
How to Generate the Network you Want with the PC Learning Algorithm
- 13 *Vladislav Bína*
An Efficient Way to Compose Distributions from Exponential Families
- 25 *Giulia Buonomori, Andrea Capotorti*
Behavior of L_1 -based probabilistic correction applied to statistical matching with misclassification information
- 37 *Giulianella Coletti, Linda C. van der Gaag, Davide Petturiti*
Detecting Correlation Between Extreme Probability Events
- 49 *Giulianella Coletti, Davide Petturiti, Barbara Vantaggi*
Decisions on generalized Anscombe-Aumann acts under possibly “unexpected” scenarios
- 61 *Milan Daniel, Václav Kratochvíl*
About Two Consonant Conflicts of Belief Functions
- 75 *Masahiro Inuiguchi*
Ranking Alternatives with Tolerance and Reduction in the Setting of Interval AHP
- 87 *Radim Jiroušek, Václav Kratochvíl*
Comparison of Shenoy’s Expectation Operator with Probabilistic Transforms and Perez’ Barycenter
- 97 *Aleš A. Kuběna*
P-Hacking & Exchange of Scientific Information: A Game-Theoretic Approach
- 105 *Carlotta Langer, Nihat Ay*
Comparison and Connection between the joint and the conditional Generalized Iterative Scaling Algorithm
- 117 *Shinji Mochida*
Proposal of probability risk Evaluation for System Development Project Based on Requirements Analysis and Bayesian estimation
- 133 *Guido Montúfar, Johannes Rauh, Nihat Ay*
Uncertainty and Stochasticity of Optimal Policies
- 141 *Niki Pfeifer, Christian G. Fermüller*
Probabilistic interpretations of argumentative attacks: logical and experimental foundations
- 153 *Martin Plajner, Jiří Vomlel*
Gradient Descent Parameter Learning of Bayesian Networks under Monotonicity Restrictions
- 165 *Prakash P. Shenoy*
An Expectation Operator for Belief Functions in the Dempster-Shafer Theory
- 177 *Milan Studený, Tomáš Kroupa, Václav Kratochvíl*
On attempts to characterize facet-defining inequalities of the cone of exact games

- 189 *Jan Švorc, Jiří Vomlel*
Employing Bayesian Networks for Subjective Well-being Prediction
- 205 *Jiří Vomlel, Václav Kratochvíl*
Dynamic Bayesian Networks for the Classification of Sleep Stages
- 217 *Michal Vrabec, Petr Berka*
Stochastic Models of Wage Distributions: Empirical Comparison
- 225 **List of Authors**
