<i>Preface</i>	page xi
<i>List of Abbreviations</i>	xv
<b>1 Introduction to Research on Expertise</b>	<b>1</b>
1.1 Introduction	1
1.2 Definition of Expertise and Its Domains	2
1.3 Cognitive Mechanisms in Expertise	5
1.3.1 Perceptual and Cognitive Expertise	7
1.3.2 Motor Expertise	13
1.4 How the Brain Accommodates Expertise	15
1.4.1 Neuroimaging Techniques	15
1.4.2 Organism Adaptability	16
1.4.3 Functional and Structural Reorganization	19
1.4.4 Neural Implementation of Perceptual and Cognitive Expertise	21
1.4.5 Neural Implementation of Motor Expertise	24
1.5 Expertise as a Research Vehicle in Cognitive Neuroscience	27
1.6 Conclusion	30
<b>2 Perceptual Expertise</b>	<b>34</b>
2.1 Introduction	34
2.2 Anatomy of the Perceptual System	35
2.2.1 Visual System	37
2.2.2 Auditory System	39
2.2.3 Tactile System	41
2.2.4 Gustatory and Olfactory Systems	41
2.3 Adaptability of the Perceptual System	42
2.4 Visual Expertise	45
2.4.1 Face Perception	45
2.4.1.1 Holistic Processing in Face Perception	46
2.4.1.2 Individual Differences in Face Perception	49
2.4.1.3 Neural Implementation of Face Perception	51
2.4.1.4 Are Faces Unique?	56
2.4.1.5 The Fusiform Face Area (FFA) as a Brain Module	57

2.4.2	Radiological Expertise	58
2.4.2.1	Cognitive Mechanisms in Radiological Expertise	62
2.4.2.2	Neural Implementation of Radiological Expertise	65
2.4.3	Fingerprint Expertise	71
2.4.4	Musical Notation	74
2.5	Auditory Expertise	77
2.5.1	Absolute Pitch (AP) and Its Neuronal Implementation	77
2.5.2	Anatomy of AP	80
2.5.3	Complex Musical Aspects and Their Neural Implementation	82
2.6	Tactile Expertise	83
2.7	Gustative Expertise	85
2.8	Olfactory Expertise	91
2.9	Conclusion	95
<b>3</b>	<b>Cognitive Expertise</b>	<b>100</b>
3.1	Introduction	100
3.2	Memory Systems and Their Neural Basis	102
3.3	Memory Expertise (Superior Memory)	105
3.3.1	Natural Memorizers	106
3.3.2	Strategic Memorizers	107
3.3.3	Memory Training	109
3.3.4	Skilled Memory and Long-Term Working Memory	111
3.3.5	Neural Basis of Expert Memorizers	114
3.3.5.1	Expert Memorizers – Functional Implementation	114
3.3.5.2	Expert Memorizers – Structural Characteristics	117
3.3.5.3	Expert Memorizers – Training Studies	118
3.4	Calculation Expertise	120
3.4.1	Mental Calculators	122
3.4.2	Abacus Calculators	126
3.4.3	Summary	135
3.5	Expertise in Board Games	136
3.5.1	The Beginning of the Scientific Study of Expertise	136
3.5.2	Knowledge Structures in Expertise	139

3.5.3	Memory and Problem Solving in Expertise	141
3.5.4	Theories of Expertise	144
3.5.5	Neural Implementation of (Board) Expertise	145
3.5.5.1	Skilled Object Recognition	146
3.5.5.2	Pattern Recognition	149
3.5.5.3	Problem Solving	154
3.5.5.4	Anatomical Changes	158
3.6	Spatial Expertise	160
3.6.1	Cognitive Mechanisms in Spatial Expertise	161
3.6.2	Neural Implementation and Anatomical Changes in Spatial Expertise	162
3.7	Conclusion	165
<b>4</b>	<b>Motor Expertise</b>	<b>170</b>
4.1	Introduction	170
4.2	Anatomy of the Motor System	171
4.2.1	Cortical Motor System	172
4.2.2	Subcortical Motor System	175
4.3	Adaptability of the Motor System	177
4.4	Simple Motor Tasks (Skill Acquisition)	178
4.4.1	Structural Changes in the Motor System During Skill Acquisition	178
4.4.2	Functional Changes in the Motor System During Skill Acquisition	183
4.5	Motor Expertise	186
4.5.1	Structural Changes in Motor System in Expertise	186
4.6	Music (Motor) Expertise	188
4.6.1	Cross-Sectional Studies	189
4.7	Cognitive Component in Motor Expertise	192
4.7.1	Early Investigations on Motor Expertise	193
4.7.2	The Role of Memory in Motor Expertise	195
4.7.3	Decision Making in Motor Expertise	197
4.7.4	Occlusion Paradigm	201
4.8	Neural Implementation of Motor Expertise	204
4.8.1	Mirror Neurons in Motor Expertise	207
4.8.2	Action Observation Network (AON) in Sports	212
4.8.3	Temporal Occlusion and AON in Motor Expertise	215
4.8.4	Deception and the AON in Motor Expertise	217
4.9	Conclusion	220

<b>5 The Road to Expertise</b>	<b>223</b>
5.1 Introduction	223
5.2 Different Experts, Same Cognitive and Neural Mechanisms	225
5.2.1 Double Take of Expertise	227
5.3 Different Approaches in Expertise Research	228
5.3.1 Expertise, Training and Aging	229
5.3.2 Functional Changes Related to Expertise and Aging	231
5.3.3 Structural Changes Related to Expertise and Aging	232
5.4 The Road to Expertise	234
5.4.1 Practice and Individual Differences	234
5.5 Nature Versus Nurture in Neuroscience	238
5.5.1 Tactile Ability	238
5.5.2 Spatial Navigation – Taxi Driving	240
5.5.3 Music Ability	241
5.6 Deliberate Practice	243
5.6.1 Deliberate Practice Versus Talent	247
5.7 Conclusion	248
<i>Key Terms</i>	252
<i>References</i>	264
<i>Index</i>	289
