PART I BACTERIOLOGY

Patrick R. Murray

- 1 Classification of Microorganisms, 3
- 2 Bacterial Metabolism, 10
- 3 Bacterial Genetics, 30
- 4 Chemotherapy of Bacterial Infections, 37
- 5 *Staphylococcus*, 47
- 6 Streptococcaceae, 65
- 7 Neisseriaceae, 85
- 8 Miscellaneous Cocci, 99
- 9 Enterobacteriaceae, 103
- 10 Pseudomonadaceae, 119
- 11 Vibrionaceae and *Campylobacter*, 127
- 12 Pasteurellaceae, 139
- 13 *Bordetella*, *Francisella*, and *Brucella*, 149
- 14 Legionellaceae, 159
- 15 Bacteroidaceae, 167
- 16 Miscellaneous Gram-Negative Bacilli, 175
- 17 *Bacillus*, 180
- 18 *Clostridium*, 185

- 19 *Corynebacterium* and *Propionibacterium*, 199
- 20 Miscellaneous Gram-Positive Bacilli, 205
- 21 *Actinomyces* and *Nocardia*, 211
- 22 *Mycobacterium*, 218
- 23 *Treponema*, *Borrelia*, and *Leptospira*, 231
- 24 *Mycoplasma* and *Ureaplasma*, 249
- 25 Rickettsia, 255
- 26 Chlamydiae, 267
- 27 Oral Microbiology, 279

PART II MYCOLOGY

George S. Kobayashi

- 28 Introduction to the Mycoses, 297
- 29 Superficial, Cutaneous, and Subcutaneous Mycoses, 307
- 30 Systemic Mycoses, 323
- 31 Opportunistic Mycoses, 341

PART III PARASITOLOGY

John H. Thompson, Jr.

- 32 Introduction to Medical Parasitology, 349
- 33 Intestinal and Urogenital Protozoa, 354
- 34 Blood and Tissue Protozoa, 369
- 35 Nematodes, 390
- 36 Trematodes, 411
- 37 Cestodes, 423

PART IV VIROLOGY

W. Lawrence Drew

- 38 General Medical Virology and Pathogenesis, 439
- 39 Viral Diagnosis, 471
- 40 Antiviral Vaccines and Chemotherapy, 481
- 41 Adenoviruses, 491
- 42 Herpesviruses, 499

- 43 Poxviruses, 531
- 44 Papovaviruses, 539
- 45 Hepatitis Viruses, 547
- 46 Parvoviruses, 567
- 47 Orthomyxoviruses, 573
- 48 Paramyxoviruses, 582
- 49 Coronaviruses, 597
- 50 Picornaviruses, 601
- 51 Reoviruses, 615
- 52 Togaviruses and Flaviviruses, 628
- 53 Bunyaviridae, 643
- 54 Rhabdoviruses, 648
- 55 Miscellaneous Viruses, 657
- 56 Retroviruses, 663
- 57 Slow Viruses, 681
