

Content

Preface	V
Content	VII
Detailed Content	XI
List of Symbols and Abbreviations	XVII
Chapter 1 Introduction	1
Chapter 2 Origin, History and Definition of Sustainable Development	5
2.1 History of the Concept of Sustainable Development	5
2.2 Deeper Concerns about the Concept of Sustainable Development	40
2.3 Approaches to the Definition of Sustainable Development Following the Previous Discourse	53
2.4 Origin, History and Definition of Sustainable Development – Summary and Conclusions	53
Chapter 3 Concepts of Sustainability	55
3.1 Basic Description of Concepts of Sustainability and Sustainable Development	55
3.2 Very Weak Sustainability (Solow-Sustainability)	61
3.3 Weak Sustainability (Modified Solow-Sustainability)	63
3.4 Strong Sustainability (Ecological Economics Approach)	63
3.5 Very Strong Sustainability (Stationary State Sustainability)	65
3.6 Deeper Consideration of Weak and Strong Sustainability Ideas about Substitutability	65
3.7 Other Forms of Sustainability	67
3.8 Sustainability vs. Efficiency	68
3.9 Sustainability Deficiencies, Criticism and Further Challenges	68
3.10 Concepts of Sustainability – Summary and Conclusions	70
Chapter 4 The Measurement of Sustainable Development	71
4.1 Background and Fundamental Aspects of the Measurement of Sustainable Development	71
4.2 Basic Reflection on Sustainability Assessment Methodologies	73
4.3 Conceptual and Practical Aspects of the Measurement of Sustainable Development	74
4.4 Methodological Aspects of the Measurement of Sustainable Development Using Composite Indicators	76

<i>VIII</i>		<i>Content</i>
4.5	Trends of Development in Indicators Initiatives	77
4.6	Frameworks for the Measurement of Sustainable Development	79
4.7	Recommendation for Complex Sustainability Assessment	86
4.8	Main Aspects of the Environmental/Sustainable Development Policy .	87
4.9	The Measurement of Sustainable Development – Summary and Conclusions	88
Chapter 5 Study of Particular Indicators to Measure Sustainable Development..... 91		
5.1	Generalized Classification of the Sustainable Development Indicators	91
5.2	Life Cycle Assessment and the Product-based Sustainability Indices...	96
5.3	Development Indices	97
5.4	Market- and Economy-based Indices	104
5.5	Ecosystem-based Indices	108
5.6	Footprint Indices.....	109
5.7	Environmental Indices for Policies, Nations and Regions.....	116
5.8	Environment Indices for Industries.....	123
5.9	Social and Quality of Life-based Indices.....	125
5.10	The FEEM Sustainability Index: an Integrated Tool for Sustainability Assessment	137
5.11	Beyond GDP Initiative	139
5.12	Indicators for the Measurement of Sustainable Development – Summary and Conclusions	144
Chapter 6 The Measurement of Decoupling..... 147		
6.1	Definition and Indicators for the Measurement of Decoupling	147
6.2	Decoupling Indicators Used in the EU	149
6.3	Approaches to the Measurement of Decoupling.....	151
6.4	Decomposition Analysis Applied to the Measurement of Decoupling	152
6.5	The Measurement of Decoupling – Summary and Conclusions.....	159
Chapter 7 The Approach of the European Union to Sustainable Development..... 161		
7.1	Introduction to the Environmental Policy of the European Union	161
7.2	Foundation and Path to the EU Sustainable Development Strategy	173
7.3	The Europe 2020 Strategy	184
7.4	Other Strategies and Activities Working towards Sustainable Development.....	190
7.5	The Approach of the European Union to Sustainable Development – Summary and Conclusions	194
Chapter 8 Analysis of the Selected Aspects of Sustainable Development in the European Union..... 197		
8.1	Human Development Approach	197
8.2	Analysis Based on Happy Planet Index	210
8.3	Analysis Based on Adjusted Net Savings.....	215
8.4	Analysis Based on Environmental Performance Index.....	229
8.5	Analysis Based on Environmental Vulnerability Index.....	230
8.6	Analysis Based on Wellbeing Index.....	232

<i>Content</i>	<i>IX</i>
8.7 Analysis Based on Sustainable Society Index	237
8.8 Assessment of the Indicators Included in the SSI Combined with the Sustainable Development Indicators Used by the EU	244
8.9 Clustering of the Countries according to the Selected Indicators Used in the Former Analysis	295
8.10 Discussion of Results, Recommendations and Conclusions	300
Chapter 9 Analysis of Decoupling in the European Union	307
9.1 Resource Productivity and Decoupling Analysis of Domestic Material Consumption	307
9.2 Climate Change and Decoupling Analysis of GHG Emissions	317
9.3 Discussion of Results, Recommendations and Conclusions	326
Chapter 10 Conclusions	329
Annex	337
References	351
List of Figures	383
List of Tables	387
Index	387
Summary	393

Detailed Content

Preface	V
Content	VII
Detailed Content	XI
List of Symbols and Abbreviations	XVII
Chapter 1 Introduction	1
Chapter 2 Origin, History and Definition of Sustainable Development	5
2.1 History of the Concept of Sustainable Development.....	5
2.1.1 Emergence and Earlier Evolution of the Ideas behind the Concept of SD/Sustainability	5
2.1.2 Twentieth Century Ideas about Growth and Development	7
2.1.3 Raising Awareness of the Limits to Growth	15
2.1.4 Sustainable Development as a Solution to Growth Problems (Reflection on the Previous Findings)	19
2.1.5 Ideas behind Sustainable Development in the 1980s	21
2.1.6 Ideas behind Sustainable Development in the 1990s	27
2.1.7 Ideas behind Sustainable Development in the 2000s	32
2.2 Deeper Concerns about the Concept of Sustainable Development.....	40
2.2.1 Deeper Analysis of the Concept of Sustainable Development Related to its History, the WCED Report and Intergenerational Aspects	40
2.2.2 Sophisticated Considerations about Sustainable Development.....	43
2.2.3 Practical Consideration about Sustainable Development.....	45
2.2.4 Human Development Approach.....	51
2.3 Approaches to the Definition of Sustainable Development Following the Previous Discourse	53
2.4 Origin, History and Definition of Sustainable Development – Summary and Conclusions.....	53
Chapter 3 Concepts of Sustainability.....	55
3.1 Basic Description of Concepts of Sustainability and Sustainable Development.....	55
3.1.1 Fundamental Conceptions Used in the Concepts of Sustainability.....	55
3.1.2 Rationale behind Differences between the Concepts of Sustainability	57
3.1.3 Basic Characteristics of the Concepts of Sustainability and	

	Comparison with Sustainable Development	58
3.1.4	Basic Differences between the Concepts of Sustainability	59
3.2	Very Weak Sustainability (Solow-Sustainability)	61
3.3	Weak Sustainability (Modified Solow-Sustainability)	63
3.4	Strong Sustainability (Ecological Economics Approach).....	63
3.5	Very Strong Sustainability (Stationary State Sustainability)	65
3.6	Deeper Consideration of Weak and Strong Sustainability Ideas about Substitutability	65
3.7	Other Forms of Sustainability	67
3.8	Sustainability vs. Efficiency	68
3.9	Sustainability Deficiencies, Criticism and Further Challenges.....	68
3.10	Concepts of Sustainability – Summary and Conclusions	70
	Chapter 4 The Measurement of Sustainable Development.....	71
4.1	Background and Fundamental Aspects of the Measurement of Sustainable Development	71
4.2	Basic Reflection on Sustainability Assessment Methodologies	73
4.3	Conceptual and Practical Aspects of the Measurement of Sustainable Development.....	74
4.4	Methodological Aspects of the Measurement of Sustainable Development Using Composite Indicators	76
4.5	Trends of Development in Indicators Initiatives	77
4.6	Frameworks for the Measurement of Sustainable Development	79
4.6.1	Monitoring at National, Regional, and International Levels: PSR – DPSIR	80
4.6.2	Framework Based on Environmental and Sustainable Development Themes.....	85
4.7	Recommendation for Complex Sustainability Assessment	86
4.8	Main Aspects of the Environmental/Sustainable Development Policy .	87
4.9	The Measurement of Sustainable Development – Summary and Conclusions	88
	Chapter 5 Study of Particular Indicators to Measure Sustainable Development.....	91
5.1	Generalized Classification of the Sustainable Development Indicators	91
5.2	Life Cycle Assessment and the Product-based Sustainability Indices...	96
5.3	Development Indices	97
5.3.1	Human Development Index (HDI)	97
5.3.2	Inequality-adjusted Human Development Index (IHDI)	99
5.3.3	Index of Sustainable and Economic Welfare (ISEW).....	100
5.4	Market- and Economy-based Indices	104
5.4.1	Adjusted Net Savings (ANS)/Genuine Savings (GS)	104
5.4.2	Green Net National Product/Environmentally Adjusted Net Domestic Product (EDP).....	108
5.5	Ecosystem-based Indices	108
5.5.1	Sustainable Process Index (SPI)	108
5.5.2	Eco-Index Methodology	108
5.5.3	Living Planet Index (LPI)	109

<i>Detailed Content</i>	<i>XIII</i>
5.6 Footprint Indices.....	109
5.6.1 Ecological Footprint (EF)	110
5.6.2 Other Footprint Indicators (Indices)	115
5.7 Environmental Indices for Policies, Nations and Regions.....	116
5.7.1 Environment Sustainability Index (ESI) and Environmental Performance Index (EPI)	116
5.7.2 Environment Quality Index (EQI)	120
5.7.3 Concern about Environmental Problems	120
5.7.4 Index of Environmental Friendliness	120
5.7.5 Environmental Vulnerability Index (EVI)	121
5.8 Environment Indices for Industries.....	123
5.8.1 Eco-points	123
5.8.2 Eco-compass	123
5.8.3 Eco-indicator 95/99.....	123
5.8.4 Environment Assessment for Cleaner Production Technologies	124
5.8.5 COMPLIMENT – Environment Performance Index for Industries	124
5.9 Social and Quality of Life-based Indices.....	125
5.9.1 Physical Quality of Life Index	125
5.9.2 Wellbeing Assessment (Wellbeing Index –WI).....	125
5.9.3 Sustainable Society Index (SSI).....	130
5.9.4 Global Gender Gap Index (GGI)	132
5.9.5 Happy Planet Index (HPI).....	133
5.10 The FEEM Sustainability Index: an Integrated Tool for Sustainability Assessment	137
5.11 Beyond GDP Initiative	139
5.12 Indicators for the Measurement of Sustainable Development – Summary and Conclusions	144
Chapter 6 The Measurement of Decoupling.....	147
6.1 Definition and Indicators for the Measurement of Decoupling	147
6.2 Decoupling Indicators Used in the EU	149
6.3 Approaches to the Measurement of Decoupling.....	151
6.4 Decomposition Analysis Applied to the Measurement of Decoupling	152
6.4.1 Introduction to Decomposition Analysis and Literature Review	152
6.4.2 Methodological Aspects of Decomposition Analysis with the Focus on Index Decomposition Analysis.....	153
6.4.3 Application of Decomposition Analysis to the Issue of Material Resource Use	156
6.4.4 Application of Decomposition Analysis to the Issue of Climate Change	157
6.5 The Measurement of Decoupling – Summary and Conclusions.....	159
Chapter 7 The Approach of the European Union to Sustainable Development.....	161
7.1 Introduction to the Environmental Policy of the European Union	161
7.1.1 Development of the Community Environmental Policy until the Fifth Environmental Action Programme	162

7.1.2	Revisions of Primary Law in Relation to Sustainable Development and its Consequences	166
7.1.3	Fifth Environmental Action Programme (1993 – 2000)	167
7.1.4	Sixth Environmental Action Programme (2002 – 2012)	170
7.1.5	Seventh Environmental Action Programme (2014 – 2020)	171
7.2	Foundation and Path to the EU Sustainable Development Strategy	173
7.2.1	The Approach of the European Union to Sustainable Development.....	173
7.2.2	The European Union's Path to Sustainable Development Strategy since 1997	174
7.2.3	Adoption and Revision of the EU Sustainable Development Strategy	176
7.2.4	Summary Description of the EU Sustainable Development Strategy	178
7.2.5	Sustainable Development Indicators to Monitor the EU Sustainable Development Strategy and their Followers.....	179
7.3	The Europe 2020 Strategy	184
7.3.1	Introduction into the Europe 2020 Strategy	184
7.3.2	Implementation of the Europe 2020 Strategy in the European Union	187
7.3.3	Assessment of the Importance of the Europe 2020 Strategy	189
7.4	Other Strategies and Activities Working towards Sustainable Development.....	190
7.4.1	Strategies for Resource Efficiency in the European Union.....	190
7.4.2	Circular Economy Strategy of the European Union.....	192
7.4.3	Environmental Tax Reform (ETR) in the EU	193
7.5	The Approach of the European Union to Sustainable Development – Summary and Conclusions	194

Chapter 8 Analysis of the Selected Aspects of Sustainable Development in the European Union

8.1	Human Development Approach	197
8.1.1	Data and Methodological Aspects of the Analysis	198
8.1.2	Basic Assessment of the Relationships between Human Development and Resource Use	199
8.1.3	Deeper Assessment of the Relationships between Human Development and Resource Use	206
8.1.4	Conclusions Resulting from the Analysis	209
8.2	Analysis Based on Happy Planet Index	210
8.3	Analysis Based on Adjusted Net Savings.....	215
8.3.1	Data and Methodology.....	215
8.3.2	Adjusted Net Savings in the European Union and its Countries.....	215
8.3.3	Analysis of the ANS Components	221
8.3.4	Deeper Analysis of Adjusted Net Savings	223
8.3.5	Relationships of the Adjusted Net Savings to the Selected.....	226
8.4	Analysis Based on Environmental Performance Index.....	229
8.5	Analysis Based on Environmental Vulnerability Index.....	230

<i>Detailed Content</i>	<i>XV</i>
8.6 Analysis Based on Wellbeing Index	232
8.7 Analysis Based on Sustainable Society Index	237
8.8 Assessment of the Indicators Included in the SSI Combined with the Sustainable Development Indicators Used by the EU	244
8.8.1 Human Wellbeing	244
8.8.2 Environmental Wellbeing	257
8.8.3 Economic Wellbeing.....	273
8.8.4 Update of the SSI Results and the Creation of the New Index ...	289
8.9 Clustering of the Countries according to the Selected Indicators Used in the Former Analysis	295
8.10 Discussion of Results, Recommendations and Conclusions.....	300
Chapter 9 Analysis of Decoupling in the European Union	307
9.1 Resource Productivity and Decoupling Analysis of Domestic Material Consumption	307
9.1.1 Data and Methodological Aspects of the Resource Productivity Analysis	307
9.1.2 Resource Productivity Analysis	308
9.1.3 Decomposition Analysis of Domestic Material Consumption....	311
9.2 Climate Change and Decoupling Analysis of GHG Emissions	317
9.2.1 Data and Methodological Aspects of GHG Emissions Analysis	317
9.2.2 Development of GHG Emissions in the EU	318
9.2.3 Decomposition Analysis of GHG Emissions in the EU.....	321
9.3 Discussion of Results, Recommendations and Conclusions.....	326
Chapter 10 Conclusions	329
Annex.....	337
References.....	351
