Preface ix

Introduction 1

About Economic Geography 1

Historical Thumbnail Sketch of Economic Geography 2

Institutionalism and Economic Geography 4

Conclusion 17

PART I MARKETS IN PLACE, SPACE, AND TIME

CHAPTER 1 Markets in Place and Space 20

Contemplating Markets 20

Market Exchange 23

Market Coordination 28

Market Governance 37

The Challenges of Sustainable Development 44

Conclusion 49

CHAPTER 2 The (Evolving) Spatial Division of Labour 52

Introducing the Division of Labour 53

Urbanization, Scale Economies, and Cumulative Causation 55

Diseconomies of Scale and Scope 67

Globalization 69

Conclusion 81

CHAPTER 3 Innovation, Evolution, and Inequality 84

Innovation and Markets 84

Innovation as a Social Process 85

Techno-Economic Paradigms 93

The Changing Geography of Innovation 101

Innovation and Global Inequality 110

Conclusion 116

PART II INSTITUTIONAL PILLARS OF MODERN SPACE ECONOMIES

CHAPTER 4 Business 120

Introducing Business 120

Theories of the Firm 123

Business Segmentation 128

Value Chains and Inter-firm Relations	139
Conclusion	146

CHAPTER 5 Labour 148

Labour as Countervailing Power	148
The Nature of Labour Markets	150
Labour Market Segmentation	157
Labour Market Failures and Challenges	165
Conclusion	173

CHAPTER 6 Government 175

The Role of Government	175
The Nature of Government-Economy Relations	177
Government Policy Interventions and Institutions	187
Regional and Local Development Policies	194
International Economic Policies: The Free Trade Agenda	202
The Incomplete Territorialisation of Externalities Governance	205
Conclusion	206

CHAPTER 7 Non-profit Organizations 209

The Role of Non-profit Organizations	209
The Diversity of Non-profits	211
Economic Impacts	215
Global-Local Dynamics of NGO Activism	220
Social Capital and Development	226
Conclusion	229

PART III LOCATION DYNAMICS OF VALUE CHAINS

CHAPTER 8 Cities 234

The Role of Cities	235
Cities are Global and Local	237
Systems of Cities	248
Intra-urban Land-Use Patterns	255
Conclusion	267

CHAPTER 9 Energy and Mineral Resources 270

Contradictions of Resource Exploitation	271
The Lifeblood of the Global Economy	276
Political Governance and Resource Rights	280
Environmental Impacts	284
The Resource Cycle Meets the Value Chain	289
Resource-Based Development	297
Conclusion	301

CHAPTER 10 Agriculture 304

- Geographic Differences in Agriculture 305
- Local and Global Markets: Disparities and Dilemmas 306
- Organization: From Old MacDonald to McDonald's 314
- Regional Renewal and Relocalization 325
- Conclusion 330

CHAPTER 11 Manufacturing 333

- Geographic Differences in Manufacturing 333
- The Shifting Geography of Manufacturing 336
- Locating Manufacturing Facilities 344
- Location, Product Cycle Dynamics, and Value Chains 350
- Environmental Responsibilities: From Value Chains to Value Cycles 356
- Clustering and Congregation 359
- Conclusion 366

CHAPTER 12 Services 369

- The Development of the Service Industry 369
- Defining Services 370
- Consumer Services 376
- Producer Services 390
- Public Services 394
- Conclusion 400

CHAPTER 13 Transportation and Communication Networks 403

- The Role of Transportation and Communication Networks 403
- Networks 405
- Costs, Pricing, and Location 414
- Transportation, Communications, and Scale 417
- Conclusion 426

CHAPTER 14 Consumption 429

- Geographic Differences in Consumption 429
- Demand: Decision-Making by Consumers 432
- Consumption over Space 435
- Consumption of Places and Space 445
- Separation of Production and Consumption: Society and Environment 450
- Conclusion 453

Glossary 455

Index 463

Selected Abbreviations 470
