Preface to the first edition	7
Preface to the second edition	9
I. HISTORY OF EMBRYOLOGY	11
II. PROGENESIS	22
Gametogenesis	22
Oogenesis	23
Ovarian cycle	24
Ovulation	25
Corpus luteum	25
Corpus albicans	26
Spermatogenesis	27
Spermiogenesis	27
Meiosis (reduction division)	28
Fertilization	30
Cleavage	32
Blastogenesis	32
Implantation (nidation)	33
Placentation	35
Gastrulation	37
Third embryonic germ layer and notochord	39
Somitogenesis and formation of the intraembryonic coelom	41
Germ layer derivatives	43
III. NERVOUS SYSTEM	45
Overview	45
Central nervous system	45
Regionalization of the neural tube	47
Histogenesis of the neural tube	50
Comments on CNS evolution	51

Peripheral nervous system	53
Neural crest	54
The cranial neural crest	56
The cardiac neural crest	57
The truncal neural crest	57
The cranial neural placodes	57
Nasal (olfactory) placode	58
Trigeminal placode	58
Otic placode	58
Epibranchial placodes	58
The sense organs	59
The eye	59
The ear	61
The inner ear	61
Malformations of CNS	63
 IV. CARDIOVASCULAR SYSTEM	64
Blood islands	64
The early blood circulation	66
Early venous circulation	67
Unification of bilateral circulation	67
The development of the heart	68
Atrial septation	70
Ventricular septation	71
Arterial (aortic) arches	72
Venous circulation	75
Cardinal veins	75
Umbilical veins	76
Vitelline veins	76
The lymphatic system	77
Fetal circulation	78
Circulatory changes at birth	79
Developmental defects	80
Atrial septal defects	80
Ventricular septal defects	80
Patent ductus arteriosus	82
Coarctation of aorta	82
 V. DIGESTIVE SYSTEM	84
The foregut	84
The primitive pharynx	86

The fate of pharyngeal (branchial) structures	87
Ectodermal pharyngeal clefts	87
The first pharyngeal cleft	87
The distal pharyngeal clefts	88
Endodermal pharyngeal pouches	89
The first pharyngeal pouch	89
The second pharyngeal pouch	90
The third pharyngeal pouch	90
The fourth pharyngeal pouch	91
Pharyngeal arches	91
The skeleton and muscles of the pharyngeal arches	92
The first (mandibular) arch	92
The second (hyoid) arch	93
The distal pharyngeal arches	93
Vascular and nerve supply of the pharyngeal arches	94
Derivatives of the pharyngeal ground	95
The development of the tongue	95
The development of the pharyngeal tonsils – adenoids	97
The development of the thyroid gland	97
The stomodeum as a precursor of the mouth cavity	98
The development of the pituitary gland	99
Development of the teeth	100
Enamel organ	101
Histogenesis of tooth	102
The respiratory system	103
The esophagus, the stomach, and the spleen	105
The spleen	105
The liver	105
The pancreas	106
The intestine	107
 VI. UROGENITAL SYSTEM	 111
Urinary system	111
Pronephros	112
Mesonephros	113
Metanephros (the definitive kidney)	113
The fate of the cloaca and development of the urinary bladder	115
Genital system	115
Indifferent stage	116
Coelomic epithelium	116
Primordial gonocytes	117
Paramesonephric (Müllerian) duct	117

Male gonads and genital ducts	117
Female gonads and genital ducts	119
External genital organs	120
Descent of testes and ovaries	121
VII. SKELETAL SYSTEM	123
The extremities	123
The vertebral column	125
The skull	127
Chondrocranium	128
Desmocranium	128
The face	129
The nose	130
Cleft lip and jaw	131
Cleft palate	132
Figure captions	133
Literature recommended for further study	139
