

CONTENTS

FOREWORD.....	6
1 FORESTS AND FORESTRY	7
1.1 Forests	7
1.2 Forestry as a practical and scientific discipline.....	10
2 CRITERIA AND INDICATORS OF SUSTAINABLE FOREST MANAGEMENT	12
2.1 The origins of sustainable forest management.....	12
2.1.1 Internationally recognized definitions of sustainable forest management	14
2.1.2 Sustainable forest management is a guiding vision versus a measurable standard.....	16
2.1.3 Responsible management of non-native forests.....	17
2.2 Criteria and Indicators in forest management	18
2.2.1 International criteria and indicator processes.....	18
2.2.2 The Role of criteria and indicators in sustainable forest management	21
2.2.3 Summary of criteria and indicators of sustainable forest management	21
3 CERTIFICATION IN FOREST MANAGEMENT.....	24
3.1 Purpose and Principles of Certification.....	24
3.1.1 Forest Management Certification.....	26
3.1.2 Chain of Custody Certification	26
3.2 The FSC's Forest Management Certification	27
3.3 The PEFC's Forest Certification System	30
3.4 Comparison of Forest Certification in Selected European Countries	31
3.4.1 Certification of Forests in the Czech Republic by the FSC and PEFC Systems.....	34

3.4.2 The republic of Finland and the Situation in the FSC and PEFC Forest Certifications	37
3.4.3 The Kingdom of Sweden and the Situation in the FSC and PEFC Forest Certifications	39
3.4.4 Development of the FSC and PEFC Certifications in Austria.....	41
4 FOREST ECONOMICS	43
4.1 Basic economics terms.....	43
Basic terms need for Forest Economics:.....	46
4.2 Forest Economics	47
5 BIOECONOMY, ECOSYSTEM SERVICES AND FOREST FUNCTIONS	51
5.1 Bioeconomy definition.....	51
5.1.15How bioeconomy related to Forestry?	52
5.2 What is a Green economy?	54
5.3 Ecosystem services.....	55
Classification of Ecosystem Services.....	57
5.4 Forest function and sustainable development	57
5.4.1 Forest functions as a base for ecosystem services evaluation.....	58
5.4.2 Another possible division of forest functions	59
6 FOREST POLICY, POLITICAL INSTRUMENTS AND FORESTRY STRATEGY	61
6.1 Forest Policy definition.....	61
6.2 The meaning and principle of using information instruments in forest policy	64
6.3 Informational instruments in Forest Policy	64
6.4 Regulative instruments of Forest policy	66
6.4.1 The importance of forests and forestry for regional development, an example of forest management planning as an informative and regulatory instruments.....	68

6.5 The New EU Forest Strategy and recent Forest Policy Developments	71
6.5.1 EU Forest Strategy	72
7 INTERNATIONAL FORESTRY INSTITUTIONS.....	76
7.1 The importance of associating with international institutions	76
7.2 Significant forestry institutions in Europe	80
7.2.1 Forestry institutions of European Union	83
7.2.2 Others European forestry institutions.....	83
7.3 International Institution of Nature Conservation	84
8 INTERNATIONAL ENVIRONMENTAL AGREEMENTS	90
8.1 Conventions, Arrangements, Agreements.....	90
8.2 EU Regulations	101
8.2.1 Natura 2000	101
8.2.2 EU Timber Regulation and EU FLEGT Action Plan	102
9 NEEDS OF FOREST MANAGEMENT PLANNING FOR FOREST OWNERS	108
9.1 Global trends of forest management planning	108
10 STATE OF FORESTS IN EUROPE	120
11 STATE OF FOREST AND FORESTRY IN THE CZECH REPUBLIC	123
