
CONTENTS

CHAPTER 1

The Development through Life Perspective 3

- Assumptions*** 4
- A Psychosocial Approach*** 4
 - Emphasis on Relationships and Social Capabilities* 9
- The Scientific Process*** 10
- The Life Span*** 12
- Inner Space*** 15
- References*** 17

CHAPTER 2

Psychosocial Theory 21

- What Is a Theory?*** 22
- Psychosocial Theory*** 25
 - Basic Concepts of Psychosocial Theory* 26 *Stages of Development* 26 *Developmental Tasks* 30 *Psychosocial Crisis* 34 *The Central Process for Resolving the Psychosocial Crisis* 40 *Coping Behavior* 44 *Summary* 47
- Organization of the Chapters*** 49
 - Developmental Tasks* 49 *Psychosocial Crises* 52 *Applied Topics* 52
- References*** 52

CHAPTER 3

Theories of Change 55

- Biological Evolution*** 56
 - Natural Selection* 56 *Implications for Human Development* 61

Cultural Differences	62
Implications for Human Development	64
Psychosexual Development	65
Three Structures of Personality	67
Psychosexual Stages	68
Implications for Human Development	71
Cognitive Development	73
Scheme	74
Adaptation	76
Stages of Development	79
Implications for Human Development	80
Learning	83
Classical Conditioning	84
Operant Conditioning	86
Social Learning	89
Cognitive Behaviorism	93
Summary of Learning Theories	95
Social Role Theory	96
Implications for Human Development	99
Chapter Summary	101
References	103

CHAPTER 4

The Period of Pregnancy and Prenatal Development 107

Genetics and Development	108
Genes and Chromosomes as Sources of Genetic Information	108
Genetic Sources of Individuality	114
Normal Fetal Development	121
Fertilization	121
Development in the First Trimester	123
Development in the Second Trimester	126
Development in the Third Trimester	128
The Birth Process	129
Stages of Labor	129
Cesarean Delivery	131
Infant Mortality	132
Reciprocity between Mother and Fetus	133
Impact of the Fetus on the Pregnant Woman	133
Impact of the Pregnant Woman on the Fetus	134
Psychosocial Factors Influencing Pregnancy and Delivery	140
Emotional State of the Mother	141
Knowledge about the Birth Process	143
Cultural Patterns of Pregnancy and Childbirth	144
Applied Topic: Abortion	148
Chapter Summary	151
References	153

CHAPTER 5

Infancy (Birth to 2 Years) 159

Developmental Tasks 160

Maturation of Sensory and Motor Functions 160 Social
Attachment 165 Sensorimotor Intelligence and Primitive
Causality 171 Object Permanence 176 Emotional
Development 177 Summary 180

The Psychosocial Crisis: Trust versus Mistrust 182

The Central Process: Mutuality with the Caregiver 184
Summary 186

Applied Topic: The Role of Parents 186**Chapter Summary** 191**References** 192

CHAPTER 6

Toddlerhood (2 to 4 Years) 197

Developmental Tasks 198

Elaboration of Locomotion 198 Fantasy and Play 200
Language Development 205 Self-Control 212
Summary 218

The Psychosocial Crisis: Autonomy versus Shame and Doubt 219

Toilet Training 221 The Central Process: Imitation 222
Summary 223

Applied Topic: Discipline 224

The Discipline Context 227

Chapter Summary 229**References** 230

CHAPTER 7

Early School Age (4 to 6 Years) 235

Developmental Tasks 236

Sex Role Identification 236 Early Moral Development 245
Self-Esteem 254 Group Play 258 Summary 260

The Psychosocial Crisis: Initiative versus Guilt	261
The Central Process: Identification	265
Summary	267
Applied Topic: The Impact of Television	268
Cognitive Consequences	268
Socioemotional Consequences	269
Chapter Summary	271
References	271

CHAPTER 8

Middle School Age (6 to 12 Years) 279

Developmental Tasks	280
Friendship	280
Self-Evaluation	284
Concrete Operations	289
Skill Learning	295
Team Play	298
Summary	302
The Psychosocial Crisis: Industry versus Inferiority	302
The Central Process: Education	306
Summary	309
Applied Topic: Sex Education	310
Chapter Summary	313
References	313

CHAPTER 9

Early Adolescence (12 to 18 Years) 319

Developmental Tasks	320
Physical Maturation	320
Formal Operations	329
Emotional Development	334
Membership in the Peer Group	337
Heterosexual Relationships	345
Summary	351
The Psychosocial Crisis: Group Identity versus Alienation	352
Sources of Pressure to Join Groups	352
Resolution of the Conflict	355
The Central Process: Peer Pressure	357
Summary	359
Applied Topic: Adolescent Alcohol Use	359
Chapter Summary	363
References	364

CHAPTER 10

Later Adolescence (18 to 22 Years) 371

Developmental Tasks 373

Autonomy from Parents 373 Sex Role Identity 378
Internalized Morality 385 Career Choice 389
Summary 392

The Psychosocial Crisis: Individual Identity versus Identity**Confusion** 393

The Central Process: Role Experimentation 396 Research on
Identity Formation 399 Summary 404

Applied Topic: Career Decision Making 405**Chapter Summary** 409**References** 409

CHAPTER 11

Early Adulthood (22 to 34 Years) 415

Major Concepts in the Study of Adulthood 416

Life Roles 416 Social Clock 416 Life Course 417
Functional Autonomy of Motives 419 Tendencies toward
Growth 419

Developmental Tasks 420

Marriage 421 Childbearing 432 Work 437 Life
Style 442 Summary 445

The Psychosocial Crisis: Intimacy versus Isolation 446

The Central Process: Mutuality among Peers 450
Summary 452

Applied Topic: Divorce 453

Factors Contributing to Divorce 454 Coping with Divorce 456

Chapter Summary 459**References** 459

CHAPTER 12

Middle Adulthood (34 to 60 Years) 467

Developmental Tasks 471

Nurturing the Marriage Relationship 471 Management of the
Household 474 Child Rearing 487 Coping with the

Demands of Parenthood	496	Management of a Career	498
Summary	510		
The Psychosocial Crisis: Generativity versus Stagnation	510		
The Central Process: Person-Environment Interaction and Creativity	513	Summary	517
Applied Topic: Adults and Their Aging Parents	518		
Chapter Summary	521		
References	521		

CHAPTER 13

Later Adulthood (60 to 75 Years) 527

Developmental Tasks	529
Promoting Intellectual Vigor	529
Redirecting Energy to New Roles and Activities	534
Accepting One's Life	539
Developing a Point of View about Death	542
Summary	549
The Psychosocial Crisis: Integrity versus Despair	550
The Central Process: Introspection	552
Summary	554
Applied Topic: Retirement	556
A Look toward the Future of Retirement	558
Chapter Summary	559
References	559

CHAPTER 14

Very Old Age (75 until Death) 565

Developmental Tasks	568
Coping with the Physical Changes of Aging	568
Developing a Psychohistorical Perspective	577
Traveling Uncharted Territory	578
Summary	586
The Psychosocial Crisis: Immortality versus Extinction	587
The Central Process: Social Support	590
Summary	591
Applied Topic: Meeting the Needs of the Frail Elderly	591
Chapter Summary	597
References	597
Appendix	601
Glossary	605
Author Index	i
Subject Index	xv

LIST OF FIGURES

- 1.1 *Examples of Somatic Processes* 5
- 1.2 *Examples of the Ego System* 6
- 1.3 *Examples of the Societal System* 7
- 1.4 *The Interrelationships among the Somatic, Ego, and Societal Systems* 8
- 1.5 *The Scientific Process* 11
- 2.1 *Five Basic Concepts of Psychosocial Theory* 27
- 2.2 *Eleven Stages of the Life Span and Approximate Ages* 29
- 2.3 *Radius of Significant Relationships* 36
- 2.4 *Mechanism for Positive and Negative Psychosocial Development* 49
- 3.1 *Basic Structure of the Brain for Four Vertebrates* 59
- 3.2 *Freud's Model of the Structure of Personality* 67
- 3.3 *The Classical Conditioning Paradigm* 84
- 3.4 *Responses before, during, and after Conditioning* 85
- 3.5 *Continuous versus Intermittent Reinforcement* 88
- 3.6 *Six Cognitive Dimensions that Influence Behavior* 95
- 4.1 *The Shape of the DNA Molecule* 110
- 4.2 *The Human Chromosome Pairs* 111
- 4.3 *Meiosis* 112
- 4.4 *Probability of Producing a Blue-Eyed Offspring from Two Heterozygous Parents* 113
- 4.5 *Sex-Linked Inheritance of Hemophilia* 114
- 4.6 *Hypothetical Reaction Ranges for Intelligence* 118
- 4.7 *Similarity in Intelligence for Four Levels of Relationship* 120
- 4.8 *Critical Periods in Prenatal Development* 125
- 4.9 *Amniocentesis* 127
- 4.10 *The First Two Stages of Labor* 130
- 4.11 *Factors that Influence Prenatal Development* 134
- 5.1 *Sequence of Motor Development and Locomotion in Infants* 164
- 7.1 *The Development of the Gender Concept* 237
- 8.1 *Four Components of Self-Efficacy* 286
- 8.2 *Student's Ability and Effort—Teacher's Reaction* 288
- 8.3 *Three Concepts that Contribute to Conservation* 291
- 8.4 *Changes in the Self-Concept for Ability for Successful and Unsuccessful Students by Grade Level* 309
- 9.1 *Mean Self-Esteem Score as a Function of Age for Each Weight x Sex Group* 324
- 10.1 *Factors Influencing the Transformation of Gender Identity from Childhood to Later Adolescence* 379
- 10.2 *Factors Affecting the Sex-Role Socialization and Career Decision-Making Process* 390

10.3	<i>Relationship among Identity Status, Crisis, and Commitment</i>	400
10.4	<i>Integration of Preconflict Roles into a Personal Identity</i>	405
11.1	<i>Relationships among Age, Life Course, Occupational Career, and Family Career</i>	418
11.2	<i>Never-Married Persons, by Age: March 1977</i>	421
11.3	<i>The Mate Selection Process in the United States</i>	425
11.4	<i>Divorced Person per 1,000 Married Persons with Spouse Present, by Sex: 1970, 1975, and 1980</i>	453
13.1	<i>Mortality Survival Curves for U.S. Females in 1900, 1960, and 1980</i>	528
13.2	<i>Median Annual Income by Marital Status and Age: 1980</i>	557
14.1	<i>Loss of Bodily Functions with Increasing Age</i>	569
14.2	<i>Typical Drawings that Researchers Might Use to Establish Social Norms of the Very Old</i>	579

LIST OF TABLES

1.1	<i>Average Remaining Lifetime at Various Ages: 1900–1978</i>	13
1.2	<i>Projections of Life Expectation at Birth and at Age 65, by Sex: November 1981</i>	14
2.1	<i>Developmental Tasks</i>	33
2.2	<i>Psychosocial Crises of the Life Stages</i>	37
2.3	<i>The Central Process for Resolution of the Psychosocial Crisis</i>	43
2.4	<i>Prime Adaptive Ego Qualities for Each Psychosocial Stage</i>	45
2.5	<i>Core Pathology of Each Life Stage</i>	46
2.6	<i>Applied Topics in Eleven Life Stages</i>	49
2.7	<i>Organization of the Book</i>	50
3.1	<i>Four Learning Processes</i>	96
4.1	<i>Major Developments in Fetal Growth during the Three Trimesters</i>	123
4.2	<i>Significant Events of Five Psychological Stages of Labor</i>	131
4.3	<i>Live Birthrates by Age of Mother, 1960–1983</i>	136
4.4	<i>Percentage of Women Condoning Legal Abortion under Different Circumstances: 1965–1977</i>	150
5.1	<i>Four Sequential Stages in the Development of Social Attachment</i>	167
5.2	<i>Six Phases in the Development of Sensorimotor Causality</i>	174
5.3	<i>Classification of Arousal States</i>	178
5.4	<i>Ontogenesis of Some Basic Human Emotions</i>	179

- 5.5 *Number of Children Using Specific Emotional Expressions in Response to Separation from Mother* 180
- 6.1 *Milestones in Language Development* 207
- 6.2 *Discipline Techniques and Their Consequences for Personality and Moral Development* 227
- 7.1 *Dimensions of Sex Role Identification* 245
- 7.2 *Stages of Moral Judgment* 248
- 7.3 *Contributions to the Study of Moral Development* 254
- 8.1 *Components of Concrete Operational Thought* 295
- 8.2 *Development of Attitudes as a Result of Team Play Experiences* 301
- 9.1 *Percentage of White High School and College Students Reporting Sexual Intercourse at Three Historical Periods* 345
- 9.2 *Percentage of Mothers Having Specific Labor and Delivery Experiences by Maternal Age and Social Class* 350
- 9.3 *Effects Associated with Different Amounts of Alcohol for a 150-Pound Person* 360
- 10.1 *Definitions of Leaving Home* 375
- 10.2 *Changes in Identity Status from 1967–68 to 1974* 402
- 11.1 *New Learning in the Work Setting* 441
- 12.1 *Patterns of Decision Making in the Family* 481
- 12.2 *Phases Involved in Family Goal Setting* 484
- 12.3 *Developmental Stages of the Family* 489
- 12.4 *Conditions Influencing Midlife Career Change* 504
- 12.5 *Conditions that Foster Creativity* 517
- 13.1 *Leisure Activities and Their Psychological Benefits* 538
- 13.2 *Fear of Death* 545
- 14.1 *Changes in Sensory Systems during Adulthood* 571
- 14.2 *Six Types of Group Retirement Housing* 581
- 14.3 *Personal Characteristics as Derived from Responses of Very Old Adults to the Bem Sex Role Inventory* 584
- 14.4 *Five Ways of Attaining a Sense of Immortality* 589
- 14.5 *Neighborhood Service Critical Distance Recommendations* 594

SUBJECT INDEX

- Ability, optimal versus actual, 592
- Abnormal development, 117–21
- Abortion
 - and abnormal fetal development, 117
 - definition, 148–49
 - legalization, 149
 - physical risks, 150
 - public attitudes, 150–51
- Accommodation, 79
- Actual ability, 592
- Adaptation, 58–59
 - Piaget's theory, 76–79
- Adaptive ego qualities, 45–46
- Adolescence; *see* Early adolescence *and* Later adolescence
- Adolescent egocentrism, 331–33
- Adulthood, *see* Early adulthood; Later adulthood; Middle adulthood; *and* Old age
- Age differences, and age changes, 530
- Age-graded expectations, 30
- Age norms, 416–17
- Aggression
 - as psychological motive, 66
 - during toddlerhood, 226
- Aggressors, identification with, 241
- Aging parents, 518–21
- Alcohol; *see also* Drugs
 - in early adolescence, 359–63
 - effect on central nervous system, 360–61
 - impact on fetus, 136
- Alienation, 352–59
- Alleles, 111
 - for hemophilia, 113–14
- Alzheimer's disease, 575
- Amish funeral customs, 547–49
- Amniocentesis, 126
- Amniotic sac, 123
- Anal stage of sexuality, 69
- Androgyny model of sex role, 380
- Anesthetics during delivery, 138–39
- Anger, 216
- Anorexia nervosa during adolescence, 336
- Anticipatory guidance, 548
- Anxious-avoidant attachment, 168
- Anxious-resistant attachment, 168
- Aranda of Australia, 149
- Arapesh of New Guinea, 147
- Arawaks, 145
- Artificial insemination, 121–22
- Artistic skills, 296
- Assimilation process, 78–79
- Austen Riggs Center, 24
- Authority structure in work, 500–501
- Autonomous morality, 247
- Autonomy
 - in college experience, 374–78
 - in later adolescence, 373–78
 - of motives 419
- Avoidance conditioning, 226
- Babies, *see* Infancy; Pregnancy; *and* Reproduction
- Babinski reflex, 125–26
- Beagle, H.M.S., 60
- Behavioral slowing, 570–71
- Behavior of Organisms* (Skinner), 92
- Behavior role models, 90
- Bem Sex Role Inventory, 583
- Bereavement, 546–47
- Beyond Freedom and Dignity* (Skinner), 93
- Biological evolution
 - adaptation, 58–59

- Biological evolution (*cont'd.*)
 - implications, 61–62
 - natural selection, 56–60
 - theoretical assumptions, 56
- Birth
 - cesarean delivery, 131–32
 - cultural patterns, 146–48
 - and effects of malnutrition, 140
 - fetal alcohol syndrome, 136
 - infant mortality, 132–33
 - initiation of labor, 129
 - Lamaze method, 148
 - mother's knowledge about process, 143–44
 - stages of labor, 129–31
 - weight of baby, 160
- Birth defects
 - development of, 117–21
 - Down's syndrome, 119, 135
 - phenylketonuria, 119
- Black families, single-parent, 477
- Boys
 - physical changes in adolescence, 322–23
 - sex role standards, 238–41
- Brain; *see also* Cognition
 - dementia, 575
 - mental retardation, 119
 - size, 59
- Bureau of the Census, 132–33, 349, 427, 477, 487, 528, 537
- Burnout
- Cancer, from estrogen therapy, 492
- Career
 - authority relationships, 500–501
 - burnout, 512
 - changes, 503–4
 - choice in later adolescence, 389–92
 - choice phase, 406
 - clarification phase, 406
 - crystallization phase, 406
 - decision making process, 405–9
 - early adulthood, 437–42
 - exploration phase, 406
 - factors influencing choice, 389–90
 - impact of joblessness, 505–7
 - induction phase, 406
 - integration phase, 406–7
 - interpersonal relationships, 499–500
 - management in middle adulthood, 498–510
- Career (*cont'd.*)
 - occupational status categories, 505
 - options for school dropouts, 391
 - reformation phase, 406
 - retirement, 556–59
 - sex-appropriate, 384
 - and sex role identity, 382–84, 390–91
 - skills, 501–3
 - sources of indecision, 407–8
 - work and family life, 507–10
 - work and well-being, 504–5
 - work clock, 503
- Causal schemes, 173–76
- Censors versus sensors, 336
- Center for Population Research, 135
- Central process, 40–43
- Cesarean delivery, 131–32
- Child-bearing, in early adulthood, 432–37; *see also* Pregnancy
- Childbirth training, 143–44
- Childhood and Society* (Erikson), 24
- Childlessness, 437
- Child-rearing, during middle adulthood, 487–96
- Chromosomes
 - definition, 109
 - and mental retardation, 119
 - X and Y, 113
- Chronic illness, 573–74
- Classical conditioning, 84–96
- Classification skills, 292–93
- Class inclusion reasoning, 293
- Coconut Grove fire, Boston, 546
- Cognition
 - accommodation, 79
 - adaptation, 76–79
 - assimilation, 78–79
 - concrete operational thought, 289–95
 - conservation scheme, 290–92
 - definition, 73–74
 - dimensions of, 94–95
 - diverse theories, 81–83
 - early adolescence, 331–34
 - egocentrism, 331–33
 - implications, 80–83
 - intelligence of infants, 171–76
 - moral, 81
 - and motivation, 83
 - older adults, 529–34
 - Piaget's theory, 73–83
 - preoperational thought, 200–201
 - scheme, 74–76

- Cognition (*cont'd.*)
 social, 83
 stages of development, 79–80
 television's impact, 268–69
Cognitive behaviorism, 93–95
Cognitive competencies, 94
Cognitive developmental theory,
 247–48
Cognitive functioning, age changes,
 530
Cognitive map, 93–94
Cohort, 530, 533, 556
College
 and autonomy, 374–78
 and career decision making, 405–9
 and identity formation, 400–402
 pass/fail courses, 398
 role experimentation, 396, 398–99
Combinational skills, 293–95
Communication, in marriage, 429–31,
 472
Community health agencies, 593
Competition, in team play, 300
Compulsions, 221–22
Concrete operational thought, 79–80,
 289–95
Conditional response, 84
Conditional stimulus, 84
Conflict, creative use of, 472–73
Conformity, 357–58; *see also* Peer
 pressure
Congruence model of sex role, 380
Connectedness, 17
Conscience
 Freud's theory, 249
 male-female differences, 250
 research on, 250
Conservation scheme, 290–92
