FOREWORD	xviii
PREFACE	xix
AMLS—PAST, PRESENT, AND FUTURE	xx
CHAPTER 1	Advanced Medical Life Support Assessment for the Medical Patient 1
	Therapeutic Communication 2
	Effective Verbal and Nonverbal Communication 2
	Communicating in Special Situations 3
	Clinical Reasoning 4
	Scope of Clinical Reasoning 4
	Clinical Decision Making 5
	Pattern Recognition 5
	AMLS Assessment Pathway 5
	Special Populations 39
	Older Adult Patients 39
	Bariatric Patients 40
	Obstetric Patients 41
	Special Transport Considerations 41
	Air Transport 41
	Special Environmental Considerations 43
	Wilderness Conditions 43
	Putting It All Together 44
	Summary 45
CHAPTER 2	Respiratory Disorders 49
	The Respiratory System: Anatomy 50
	The Upper Airway 50
	The Lower Airway 51
	Musculoskeletal Support of Respiration 53
	The Respiratory System: Physiology 55
	Respiration 55
	Ventilation 56
	AMLS Assessment Pathway 57

Initial and Basic Management Techniques	71
Supplemental Oxygen	71
Positive-Pressure Ventilation	72
Invasive Airway Ventilation	72
Intubation	75
Upper Airway Conditions	76
Aspiration	76
Airway and Foreign Body Obstruction	76
Anaphylactic Reactions	77
Pharyngitis and Tonsillitis	78
Peritonsillar Abscess	79
Epiglottitis	80
Ludwig's Angina	80
Bacterial Tracheitis	81
Retropharyngeal and Prevertebral Abscess	81
Angioedema	82
Lower Airway Conditions	83
Asthma	83
Chronic Obstructive Pulmonary Disease	84
Atelectasis	86
Pneumonia	86
Acute Lung Injury/Acute Respiratory Distress Syndrome	88
Severe Acute Respiratory Syndrome	88
Respiratory Syncytial Virus	88
Pneumothorax	89
Pleural Effusion	91
Pulmonary Embolism	92
Pulmonary Artery Hypertension	93
Other Conditions That Affect Respiratory Function	93
CNS Dysfunction	93
Generalized Neurologic Disorders	94
Medication Side Effects	95
Cancer	96
Toxic Inhalations	96
Special Populations	97
Older Adult Patients	97
Obstetric Patients	98
Bariatric Patients	98
Putting It All Together	98
Summary	99
CHAPTER 3 Cardiovascular Disorders	103
Anatomy and Physiology	104
The Heart	104
The Great Vessels	104
The Lungs and Pleurae	104
The Esophagus	106
The Sensation of Chest Pain	106
AMLS Assessment Pathway	107
Initial Life-Threatening Causes of Chest Pain	112
Tension Pneumothorax	112
Pulmonary Embolism	113
Esophageal Rupture	115
Acute Pulmonary Edema/Congestive Heart Failure	116
Cardiac Arrhythmia	117
Aortic Aneurysm and Dissection	118
Pericardial Tamponade	119
Acute Coronary Syndrome	121

Non-Life-Threatening (Emergent) Causes of Chest Pain	126
Coronary Spasm or Prinzmetal's Angina	126
Cocaine Use	127
Pericarditis	127
Myocarditis	128
Simple Pneumothorax	129
Cholecystitis	129
Pancreatitis	129
Esophageal Tear	130
Nonemergent Causes of Chest Pain	130
Thoracic Outlet Syndrome	130
Herpes Zoster	131
Other Pulmonary Causes of Chest Pain	131
Pneumonitis	131
Pleurisy	131
Other Heart-Related Causes of Chest Pain	132
Aortic Stenosis	132
Mitral Valve Prolapse	132
Cardiomyopathy	133
Musculoskeletal Causes of Chest Pain	133
Special Considerations	134
Older Adult Patients	134
Bariatric Patients	134
Obstetric Patients	134
Putting It All Together	134
Summary	135

CHAPTER 4	Shock	139
	Anatomy and Physiology of Perfusion	140
	The Heart	140
	The Vascular System	143
	The Autonomic Nervous System	144
	Pathophysiology of Shock	144
	Metabolic Acidosis	145
	Compensatory Mechanisms	145
	The Progression of Shock	146
	Compensated Shock	147
	Decompensated Shock	147
	Irreversible (Terminal) Shock	148
	AMLS Assessment Pathway	148
	Pathophysiology, Assessment, and Management of Specific Types of Shock	156
	Hypovolemic Shock	156
	Distributive Shock	159
	Cardiogenic Shock	163
	Obstructive Shock	164
	Complications of Shock	165
	Acute Renal Failure	165
	Acute Respiratory Distress Syndrome or Acute Lung Injury	165
	Coagulopathies	165
	Hepatic Dysfunction	166
	Multiple Organ Dysfunction Syndrome	166
	Special Populations	166
	Older Adult Patients	166
	Obstetric Patients	167
	Pediatric Patients	167
	Obese Patients	167
	Putting It All Together	167
	Summary	168

CHAPTER 5	Neurologic Disorders	172
	Anatomy and Physiology	173
	The Brain and Spinal Cord	173
	Protective Anatomic Structures	173
	Blood Supply	174
	Functional Regions of the Brain	175
	AMLS Assessment Pathway	176
	Specific Diagnoses	184
	Stroke	184
	Carotid Artery Dissection	186
	Intracerebral Hemorrhage	189
	Subarachnoid Hemorrhage	190
	Subdural Hematoma	191
	Epidural Hematoma	191
	Tumors	192
	Idiopathic Intracranial Hypertension	193
	Brain Abscess	193
	Encephalitis	194
	Meningitis	195
	Normal-Pressure Hydrocephalus	196
	Cerebral Venous Thrombosis	197
	Hypertensive Encephalopathy and Malignant Hypertension	197
	Wernicke's Encephalopathy and Korsakoff's Syndrome	198
	Migraine Headaches	199
	Temporal Arteritis	200
	Seizures	200
	Bell's Palsy	204
	Cauda Equina Syndrome	204
	Neuromuscular Degenerative Disease	205
	Guillain-Barré Syndrome	206
	Acute Psychosis	206
	Acute Depression/Suicide Attempt	207
	Panic Attack/Hyperventilation Syndrome	208
	Putting It All Together	209
	Summary	209
CHAPTER 6	Abdominal Disorders	214
	Anatomy and Physiology	215
	Upper Gastrointestinal Tract	215
	Lower Gastrointestinal Tract	215
	Functions of the Gastrointestinal System	217
	Pain	217
	Visceral Pain	217
	Somatic (Parietal) Pain	218
	Referred Pain	218
	AMLS Assessment Pathway	221
	Gastrointestinal Causes of Abdominal Disorders	231
	Upper Gastrointestinal or Esophageal Bleeding	231
	Peptic Ulcer Disease	231
	Erosive Gastritis and Esophagitis	232
	Esophageal and Gastric Varices	232
	Mallory-Weiss Syndrome	233
	Perforated Viscus	234
	Boerhaave's Syndrome	234
	Acute Pancreatitis	235
	Gastroparesis	235
	Appendicitis	236
	Mesenteric Ischemia	236

Intestinal Obstruction	237
Abdominal Compartment Syndrome	237
Acute Gastroenteritis	238
Sepsis	238
Abdominal Disorders Associated with Liver Disease	238
Jaundice	238
Hepatitis	238
Abdominal Disorders Associated with Inflammatory Conditions	239
Irritable Bowel Syndrome	239
Diverticular Disease	240
Cholecystitis and Biliary Tract Disorders	240
Ulcerative Colitis	240
Crohn's Disease	241
Neurologic Causes of Abdominal Disorders	241
Intracerebral Bleeding	241
Meningitis	241
Vertigo	241
Cardiopulmonary Causes of Abdominal Disorders	242
Abdominal Aortic Aneurysm	242
Acute Coronary Syndrome	242
Pulmonary Embolism	242
Budd-Chiari Syndrome	243
Lobar Pneumonia	243
Genitourinary Causes of Abdominal Disorders	243
Placenta Abruptio	243
Placenta Previa	243
Preeclampsia/HELLP	244
Ectopic Pregnancy	244
Hyperemesis	245
Pyelonephritis	245
Renal Failure	245
Kidney Stones	247
Endocrine Causes of Abdominal Disorders	247
Diabetic Ketoacidosis	247
Special Considerations	247
Home Medical Devices	247
Older Adult Patients	249
Bariatric Patients	249
Obstetric Patients	249
Putting It All Together	249
Summary	250

CHAPTER 7 Endocrine and Metabolic Disorders **253**

Anatomy and Physiology	254
Glucose Metabolism and Control	256
AMLS Assessment Pathway	256
Parathyroid, Thyroid, and Adrenal Gland Disorders	258
Hypoparathyroidism	258
Hyperthyroidism	259
Hypothyroidism	261
Chronic Adrenal Insufficiency	262
Acute Adrenal Insufficiency	263
Hyperadrenalism	264
Glucose Metabolic Disorders	265
Diabetes Mellitus	265
Hypoglycemia	266
Diabetic Ketoacidosis	267
Hyperosmolar Hyperglycemic Nonketotic Coma	269

CHAPTER 7	Acid–Base Disorders	270
	Acid–Base Balance	270
	Respiratory Acidosis	271
	Respiratory Alkalosis	272
	Metabolic Acidosis	273
	Metabolic Alkalosis	275
	Pathophysiology	275
	Mixed Disorders	275
	Electrolyte Disturbances	275
	Hyponatremia	275
	Hypokalemia	276
	Hyperkalemia	277
	Hypocalcemia	278
	Hypomagnesemia	278
	Rhabdomyolysis	279
	Putting It All Together	280
	Summary	280
CHAPTER 8	Infectious Diseases	284
	Infectious and Communicable Diseases	285
	Infectious Agents	286
	Stages of the Infectious Process	287
	Latent Period	287
	Incubation Period	287
	Communicability Period	287
	Disease Period	287
	Public Health and Safety Regulations	287
	Agencies	288
	U.S.-Specific Requirements	288
	Immunization Schedule	289
	OSHA Bloodborne Pathogens Standard	289
	Needlesticks	289
	Equipment Cleaning	289
	Special Considerations	289
	Infection Control	289
	Standard Precautions	289
	Preventing Sharps Injuries	290
	Responsibilities of Healthcare Providers	290
	Epidemics and Pandemics	290
	AMLS Assessment Pathway	292
	The Chain of Infection	293
	Reservoir/Host	293
	Portal of Exit	293
	Transmission	293
	Portal of Entry	294
	Host Susceptibility	294
	Natural Defenses of the Body	295
	Physiologic Response to Infections by Body System	296
	Respiratory System	296
	Cardiovascular System	297
	Common Infectious Diseases	297
	Meningitis	297
	Tuberculosis	300
	Pneumonia	301
	Respiratory Syncytial Virus	301
	Mononucleosis	302
	Influenza	302
	Blood-Borne Diseases	303
	Human Immunodeficiency Virus Infection and Acquired Immunodeficiency Syndrome	303

Hepatitis B Virus Infection	304
Hepatitis C Virus Infection	305
Hepatitis D Virus Infection	306
Enteric (Intestinal) Diseases	307
Norovirus	307
Hepatitis A Virus Infection	307
Hepatitis E Virus Infection	308
<i>Escherichia coli</i> Infection	308
Shigellosis	309
Sexually Transmitted Diseases	309
Gonorrhea	309
Syphilis	310
Genital Herpes	311
Papillomaviruses	311
Parasites	312
Scabies	312
Pediculosis (Lice)	313
Zoonotic (Animal-Borne) Diseases	313
Rabies	313
Hantavirus	314
Tetanus (Lockjaw)	315
Vector-Borne Diseases	315
Lyme Disease	315
West Nile Virus	316
Rocky Mountain Spotted Fever	317
Infection With Multidrug-Resistant Organisms	318
Methicillin-Resistant <i>Staphylococcus aureus</i>	318
Vancomycin-Resistant Enterococci	318
<i>Clostridium difficile</i> (Pseudomembranous Colitis)	319
Communicable Diseases of Childhood	320
Rubeola (Measles)	320
Rubella	320
Mumps	321
Pertussis (Whooping Cough)	321
Varicella-Zoster Virus Infection (Chickenpox)	322
Pathophysiology	322
Emerging Infectious Diseases	323
Chikungunya	323
Viral Hemorrhagic Fevers	323
Chagas Disease (American Trypanosomiasis)	324
Special Populations	325
Older Adult Patients	325
Bariatric Patients	325
Patients Who Are Technology Dependent	325
Patients in Hospice Care	326
Putting It All Together	326
Summary	326

CHAPTER 9	Environmental-Related Disorders	331
	Anatomy and Physiology	332
	Temperature Regulation and Related Disorders	332
	AMLS Assessment Pathway	333
	Cold-Related Illness and Injury	335
	Frostbite	335
	Immersion Foot	336
	Systemic Hypothermia	336
	Heat-Related Illness	339
	Heat Cramps	339
	Heat Exhaustion	341

Exercise-Associated Hyponatremia	341
Heatstroke	342
Heat Syncope and Exercise-Associated Syncope	343
Other Common Environmental Emergencies	343
Drowning	343
Diving Emergencies	343
High-Altitude Illnesses	345
Putting It All Together	345
Summary	346
 CHAPTER 10 Toxicology, Hazardous Materials, and	
Weapons of Mass Destruction	349
AMLS Assessment Pathway	350
Conditions That Indicate Toxin Exposure	353
Coma	353
Hypoglycemia	354
Thiamine Deficiency	354
Agitation	354
Seizures	355
Temperature Alteration	355
Heart Rate Abnormalities	355
Heart Rhythm Abnormalities	356
Blood Pressure Abnormalities	357
Respiratory Rate Abnormalities	358
Oxygen Saturation Abnormalities	361
Toxidromes	361
Medications as Toxins	362
Acetaminophen	362
Salicylates	371
Beta-Blockers	372
Calcium Channel Blockers	374
Tricyclic Antidepressants	375
Lithium	376
Amphetamines	376
Barbiturates	378
Benzodiazepines, Sedative-Hypnotics, and Tranquilizers	380
Opioids and Opiates	381
Drugs of Abuse	382
Methamphetamine	382
Cocaine	383
Ethanol	384
Hallucinogens	385
Phencyclidine	386
Toxins in the Home and Workplace	387
Ethylene Glycol	387
Isopropyl Alcohol	388
Methanol	388
Carbon Monoxide	389
Corrosives	391
Nitrites and Sulfa Drugs That Cause Methemoglobinemia	393
Cholinesterase Inhibitors	395
Petroleum Distillates	397
Environmental Toxins: Poisoning by Envenomation	398
Black Widow Spider	398
Brown Recluse Spider	400
Scorpions	402
Crotalids (Pit Vipers)	402

Elapids	403
Jellyfish	403
Spinous Sea Creatures	404
Signs and Symptoms	404
Biting Sea Creatures	405
Plant Toxicity	405
Cardiac Glycoside Plants	405
Mushroom Poisoning	408
Hazardous Materials	408
Regulatory Agency Notification	409
Incident Recognition	409
Identification and Labeling	409
Dispatch to Scene	410
Staging Areas	410
Decontamination	410
Personal Protective Equipment	414
Severity and Symptoms of Exposure	414
Types of Hazardous Materials Exposure	414
Oral and Inhalation	414
Ingestion	415
Injection	415
Weapons of Mass Destruction	415
Biological Agents	416
Anthrax	416
Botulism	417
Plague	418
Ricin	418
Viral Hemorrhagic Fevers	418
Radiologic Weapons	419
Types of Ionizing Radiation	419
Radiologic Exposure	421
Incendiary Weapons	422
Incendiary Devices	422
Chemical Agents	422
Chemical Asphyxiants	422
Nerve Agents	423
Pulmonary Agents	424
Putting It All Together	425
Summary	425
APPENDIX A AMLS Patient Assessment Pathway	431
APPENDIX B Chapter Review Answers	432
GLOSSARY	439
