## **PART I INTRODUCTION**

<b>1 Purpose, approach and outline of the book</b>	3
1.1 Purpose of the book	3
1.2 Approach of the book	4
1.3 Contribution of the book	6
1.4 Outline of the book	7
1.5 Acknowledgements	8
<b>2 EU climate policy</b>	10
2.1 Introduction	10
2.2 Basics of 'climate' and 'policy'	11
2.3 International climate policy	14
2.4 History and origins of EU climate policy	21
2.5 EU climate and energy efficiency policy for 2020	27
2.6 EU climate policy after 2020	37
2.7 Conclusion	39

## **PART II ESSENTIAL EU CLIMATE LAW**

<b>3 The EU greenhouse gas emissions trading scheme</b>	43
3.1 Introduction	43
3.2 Basics of greenhouse gas emissions trading	44
3.3 Three design variants of emissions trading	48
3.4 The EU ETS Directive	51
3.5 Linking the EU ETS to other emissions trading schemes	63
3.6 Implementation problems of the EU ETS	64
3.7 Conclusion	74

<b>4</b>	<b>Regulation of fluorinated gases</b>	76
4.1	Introduction	76
4.2	Basics of fluorinated gases	77
4.3	The MAC Directive	81
4.4	The first F-Gas Regulation	86
4.5	The current F-Gas Regulation	90
4.6	Conclusion	94
<b>5</b>	<b>Regulation of emissions from non-ETS sectors</b>	96
5.1	Introduction	96
5.2	Basics of greenhouse gas emissions of non-ETS sectors	98
5.3	Regulating the non-ETS sectors	101
5.4	EU instruments to realize the Effort Sharing Decision	111
5.5	Policies and technologies to reduce emissions by 2030 and 2050	121
5.6	Conclusion	123
<b>6</b>	<b>Renewable energy consumption</b>	125
6.1	Introduction	126
6.2	Basics of renewable energy	127
6.3	The Renewable Energy Directive	129
6.4	Financial support for renewable energy	145
6.5	Conclusion	155
<b>7</b>	<b>Energy efficiency</b>	157
7.1	Introduction	158
7.2	Basics of energy efficiency	159
7.3	The Energy Efficiency Directive	160
7.4	The energy efficiency of buildings	169
7.5	The Labelling Directive	174
7.6	Measures concerning various products in relation to energy efficiency	176
7.7	Conclusion	178
<b>8</b>	<b>Carbon capture and storage</b>	180
8.1	Introduction	180
8.2	Basics of carbon capture and storage	181
8.3	The CCS Directive: Approach, scope and financial incentives	185
8.4	The CCS Directive: Regulation of CO <sub>2</sub> capture, transport and storage	189

8.5	Regulatory hindrances to large-scale CCS deployment	208
8.6	Conclusion	216

### **PART III OVERARCHING ISSUES IN EU CLIMATE REGULATION**

<b>9</b>	<b>EU climate regulation, competition and competitiveness</b>	<b>221</b>
9.1	Introduction	221
9.2	Distortions of competition between undertakings	222
9.3	Distortions of competition and Member States	223
9.4	Distortions beyond the reach of competition law	230
9.5	Conclusion	233
<b>10</b>	<b>EU climate regulation and energy network management</b>	<b>235</b>
10.1	Introduction	236
10.2	Challenges of decarbonizing energy networks	237
10.3	Energy networks and network regulation in the EU	238
10.4	Renewables and network access	242
10.5	Decarbonizing energy networks	247
10.6	Decarbonizing networks and infrastructure development	266
10.7	Conclusion	272
<b>11</b>	<b>Multi-level governance in EU climate law</b>	<b>274</b>
11.1	Introduction	274
11.2	Multi-level governance and EU climate law	275
11.3	EU climate law and intra-EU multi-level governance	278
11.4	EU climate law and international multi-level governance	289
11.5	Conclusion	294

### **PART IV CONCLUSION**

<b>12</b>	<b>The past and possible future of EU climate law</b>	<b>299</b>
12.1	Introduction	299
12.2	General lessons from the past	300
12.3	Specific lessons for cost-effectiveness and solidarity	302
12.4	The broader picture of EU climate regulation	303
12.5	EU climate law's possible future	305
12.6	Conclusion	307
