Part I Understanding Services

Main concepts, critical aspects and implications
of designing services, discussed by experts

01 Defining services

1.1	Introduction	20
1.2	Services are the soft infrastructure of society	21
1.3	Interactions are the core of services	24
1.4	Services are coproduced	27
1.5	The service-dominant logic	28
1.6	The false divide between goods and services	30
1.7	Product Service Systems	32
1.8	The products of service	34
1.9	<i>Interview with Birgit Mager</i>	38
1.10	Learning features	42

02 The service economy

2.1	Introduction	46
2.2	The economics of services	47
2.3	The market for service design	50
2.4	The customer-centric organization	56
2.5	The rise of the social economy	60
2.6	The sharing economy	62
2.7	<i>Interview with Ezio Manzini</i>	64
2.8	Learning features	68

03 Digital services

3.1	Introduction	72
3.2	The digital life	73
3.3	The Internet of Things: ecologies of devices, data, and infrastructure	78
3.4	Challenges of an increasingly digital world	85
3.5	The role of service design in digital services	87
3.6	<i>Interview with Jodi Forlizzi</i>	88
3.7	Learning features	94

04 Services for public interest

4.1	Introduction	98
4.2	Service innovation and the public sector	99
4.3	Service design capability for the public sector	104
4.4	Social innovation and collaborative services	109
4.5	<i>Interview with Eduardo Staszowski</i>	112
4.6	Learning features	118

05 The politics of service design

5.1	Introduction	122
5.2	The drama of services: emotional labor	123
5.3	Environmental sustainability of services	130
5.4	Services as systems and the issue of organizations' politics	134
5.5	<i>Interview with Cameron Tonkinwise</i>	136
5.6	Learning features	142

06 Designing for services

6.1	Introduction	146
6.2	A new kind of design?	147
6.3	Core principles of service design	150
6.4	What kind of project and what kind of benefit?	154
6.5	The service design community	160
6.6	<i>Interview with Daniela Sangiorgi</i>	162
6.7	Learning features	168

Part II

The Service Design Process

The service design process, methods and tools explained through outstanding projects and discussed by the designers behind them

07

Starting the service design process

7.1	Introduction	174
7.2	Case study: APAM Bus Company Mantua, Italy, by Intersezioni Design Integrated	175
7.3	Interview with Alessandro Confalonieri	178
7.4	Case study analysis	182
7.5	Methods and tools	183
	↳ Charting the service design process	
	↳ Defining the service design brief	
7.6	Learning features	194

08

Research and analysis

8.1	Introduction	198
8.2	Case study: The Burnaby Starter Project by InWithForward	199
8.3	Interview with Sarah Schulman	204
8.4	Case study analysis	208
8.5	Methods and tools	209
	↳ Research planning and strategy	
	↳ Conducting landscape analysis	
	↳ Observation	
	↳ Interviews	
	↳ Self-documentation	
	↳ Journey maps, service blueprints, and system maps	
	↳ Design themes, principles, and lists of requirements	
8.6	Learning features	224

09

Generating service design concepts

9.1	Introduction	228
9.2	Case study: My Voice Project by Reboot	228
9.3	Interview with the Reboot team	232
9.4	Case study analysis	238
9.5	Methods and tools	239
	↳ Bridging research and ideation	
	↳ Generating ideas and concepts: Brainstorming and codesign workshops	

↘ Creative aids: 2x2 diagrams, analogous problems, and case studies	
↘ Storytelling through making and embodiment	
9.6 Learning features	252

10 Prototyping, testing, iterating

10.1 Introduction	258
10.2 Case study: YTA People's Pharmacy by Hellon	259
10.3 Interview with Juha Kronqvist	262
10.4 Case study analysis	266
10.5 Methods and tools	267
↘ Physical prototyping	
↘ Prototyping digital interactions: Low- and high-fi	
↘ Service experience simulation	
10.6 Learning features	276

11 Implementation and evaluation

11.1 Introduction	280
11.2 Case study: London Olympic Games 2012	281
11.3 Interview with Alex Nisbett	286
11.4 Case study analysis	292
11.5 Methods and tools	293
↘ Pilots and road maps	
↘ Business implications: The Business Model Canvas	
↘ Feedback strategies	
↘ Evaluation frameworks: ROI, SROI, monetized blueprint, RATER, and the Theory of Change	
11.6 Learning features	306

12 Service design core capabilities

12.1 Introduction: A critical design literacy	310
12.2 Core capability 1: Active and empathic listening	312
12.3 Core capability 2: Process facilitation and stewardship	314
12.4 Core capability 3: Envisioning and visualizing	316
12.5 Core capability 4: Prototyping and testing	318
12.6 Core capability 5: Organizational change making	319
12.7 Interview with Lucy Kimbell	322
12.8 Learning features	328

Bibliography	330
Credits/Sources	337
Index	339
