Preface	xiii

PART 1 EVOLUTIONARY CONSIDERATIONS

CHAPTER 1 Darwin and Spencer on the Origin of Music: Is Music the Food of Love?.....	3
Kim Kleinman	
1. Herbert Spencer: “On the Origin and Function of Music”	5
2. Charles Darwin: Sexual Selection	7
3. Spencer’s Rejoinder	9
4. Assessing the Opposing Views.....	10
5. Current Work on the Origin of Music	11
6. Conclusions	12
References.....	14
CHAPTER 2 Music Evolution and Neuroscience	17
Charles T. Snowdon, Elke Zimmermann, Eckart Altenmüller	
1. Introduction.....	17
2. Theories of Music Origins.....	18
3. Music Is Adaptive.....	19
4. Music and Phylogeny	21
5. Music and Emotion in Human Speech and Parallels in Other Species.....	23
6. Are There Emotional Universals in Human Music?.....	25
7. Are There Emotional Universals in Animal Calls?	27
8. How Do Animals Respond to Species-Relevant Music?.....	29
9. Summary and Conclusions	30
References.....	31

PART 2 THE MUSICAL BRAIN

CHAPTER 3 Musicians and Music Making as a Model for the Study of Brain Plasticity.....	37
Gottfried Schlaug	
1. Introduction	37
2. Behavioral Studies: The Effects of Musical Training on Cognitive Performance	38

3.	Imaging Studies: The Effects of Musical Training on Brain Organization	40
4.	Auditory–Motor Interactions Underlie Music and Language Learning	43
5.	Music-Based Treatments to Modulate Brain Plasticity: Melodic Intonation Therapy and Auditory–Motor Mapping Training	44
5.1.	Melodic Intonation Therapy	46
5.2.	Auditory–Motor Mapping Training	48
6.	Concluding Remarks.....	49
	Acknowledgments	49
	References.....	49
CHAPTER 4 Expert Music Performance: Cognitive, Neural, and Developmental Bases		57
Rachel M. Brown, Robert J. Zatorre, Virginia B. Penhune		
1.	Introduction.....	57
2.	What Is Expert Performance?.....	59
2.1.	Memory.....	59
2.2.	Execution	61
3.	How Is Expert Performance Achieved?	62
3.1.	Auditory–Motor Integration	62
3.2.	Neural Bases for Expert Performance.....	66
4.	How Does Expert Performance Come About?	72
4.1.	Predisposition/Talent	72
4.2.	Early Training.....	73
4.3.	Practice.....	73
5.	Outlook.....	75
	References.....	75
PART 3 NEW PERSPECTIVES ON NEUROLOGICAL AND MENTAL DISORDERS		
CHAPTER 5 Apollo’s Curse: Neurological Causes of Motor Impairments in Musicians.....		89
Eckart Altenmüller, Christos I. Ioannou, Andre Lee		
1.	Becoming a Horowitz: Challenges in Acquiring Superior Motor Skills in Musical Performance	90
2.	Apollo’s Curse: loss of Motor Control in Musicians.....	92
2.1.	Motor Fatigue	92
2.2.	Overuse Injury	92

	2.3. Choking Under Pressure	93
	2.4. Dynamic Stereotype in Musicians	93
	2.5. Focal Dystonia in Musicians	94
	2.6. Symptomatic Task-Specific Dystonias in Musicians	96
	3. A Heuristic Model of Motor Disturbances in Musicians.....	97
	4. Curing Apollo's Curse: Treatment of Motor Disturbances in	
	Musicians	100
	Acknowledgments	102
	References.....	102
CHAPTER 6	Music and its Association with Epileptic	
	Disorders	107
	Melissa Maguire	
	1. Introduction.....	107
	2. Musical Processing in the Human Brain.....	109
	2.1. Music Triggering Seizures	111
	2.2. Musical Hallucinations and Other Seizure	
	Phenomena.....	112
	2.3. Could Music Be Used as Therapy for Epilepsy?	115
	2.4. Curse or Cure: Explaining the Dichotomous	
	Effect of Music on Epilepsy.....	117
	2.5. The Impact of Treatments for Epilepsy on Musicality	117
	2.6. Assessment of Musical Functioning Throughout	
	the Surgical Pathway	120
	3. Conclusions	121
	References.....	122
CHAPTER 7	Treatment and Prevention of Music	
	Performance Anxiety	129
	Claudia Spahn	
	1. Definition	129
	2. Phenomenology.....	130
	3. Theoretical Concepts	130
	4. Epidemiology	131
	5. Treatment	132
	5.1. Psychoanalytic/Psychodynamic Therapy	132
	5.2. Cognitive Behavioral Therapy	133
	5.3. Multimodal Therapy	134
	5.4. Other Treatment Approaches	136
	5.5. Pharmacotherapy	136
	6. Prevention	137

7. Conclusion.....	138
References.....	138

PART 4 MUSIC THERAPIES THEN AND NOW

CHAPTER 8 Music as Therapy in Early History.....143

Michael H. Thaut

1. Introduction.....	143
2. The Archeological Evidence of Music as a Biological Language.....	144
3. Music Therapy in Pre-literate Cultures.....	146
4. Music Therapy in Early Civilizations.....	147
5. Ancient Greece.....	149
6. Middle Ages, Renaissance, and Baroque.....	151
7. Summary.....	154
References.....	156

CHAPTER 9 An Enlightenment Proposal for Music Therapy: Richard Brocklesby on Music, Spirit, and the Passions.....159

Penelope Gouk

1. Introduction to Brocklesby's Life and Principal Works.....	160
2. Education and Training.....	161
3. <i>Brocklesby's Reflections in Contemporary Context</i>	164
4. An Enlightenment Perspective on Antiquity.....	165
5. Music, Mind, and Body in Brocklesby's Thought.....	168
6. Music's Power to Cure Diseases of the Mind.....	170
7. The Cure of Diseases Compounded of Affections of the Body and Mind.....	173
8. Music and the Retardation of Old Age.....	178
9. Ancients and Moderns Compared.....	179
10. Conclusions.....	181
References.....	183

CHAPTER 10 Neurological Implications and Neuropsychological Considerations on Folk Music and Dance.....187

Vittorio Alessandro Sironi, Michele Augusto Riva

1. Introduction.....	188
2. Cathartic and Therapeutic Role of Dance in the Ancient World.....	188
3. From the Middle Ages to the Early Modern Era: St. Vitus and Choreomania.....	191

Preface

4. Between the Enlightenment and Romanticism: Dance and Insanity	195
5. Choreic and Musical Displays in Southern Italy Between the 1800s and 1900s	197
6. Folk Music and Dances in Non-Western Cultures	199
7. Modern Folk Dance and Music	201
8. Conclusions	202
References.....	203
CHAPTER 11 Music and Dementia	207
Ameé Baird, Séverine Samson	
1. Introduction	208
2. Musical Functions in Dementia.....	209
2.1. Music Memory.....	209
2.2. Music Emotion	212
2.3. Artistic Skills	217
3. Impact of Music in Dementia.....	218
3.1. Behavior and Agitation	218
3.2. Mood and Emotion.....	221
3.3. Cognition	222
4. Music Expertise, Aging Cognition, and Risk of Dementia.....	225
5. Conclusion and Future Directions.....	227
Acknowledgments	228
References.....	229
CHAPTER 12 Apollo's Gift: New Aspects of Neurologic Music Therapy	237
Eckart Altenmüller, Gottfried Schlaug	
1. Music as a Driver of Brain Plasticity.....	237
2. Some Mechanisms of Music-Induced Brain Plasticity.....	239
3. The Role of Music-Induced Emotions for Brain Plasticity.....	241
4. Facilitating Recovery from Nonfluent Aphasia Through a Form of Singing.....	243
5. Music-Supported Motor Therapy in Stroke Patients	245
6. Conclusions	247
Acknowledgments	248
References.....	248

CHAPTER 13 The Discovery of Human Auditory–Motor Entrainment and its Role in the Development of Neurologic Music Therapy	253
Michael H. Thaut	
1. Introduction	253
2. What is Entrainment?	254
3. The Auditory System and Rhythm Perception	255
4. Clinical Applications of Entrainment.....	256
5. Mechanisms of Entrainment in Motor Control.....	258
6. More Clinical Applications of Entrainment.....	259
7. Other Musical Elements as Therapeutic Drivers	260
8. Conclusions.....	262
References.....	262
Index	267
Other volumes in PROGRESS IN BRAIN RESEARCH	275
CHAPTER 9 An Enlightenment, Piagetian, and Vygotskian Perspective on Music, Emotion, and the Passions	159
Richard Brodsky on Music, Emotion, and the Passions	
1. Mood and Emotion	159
2. Music, Emotion, and the Passions	161
3. Conclusion and Future Directions	161
4. Acknowledgments	161
5. References	161
6. Summary	161
CHAPTER 12 Apollo's Gift: New Aspects of Neurologic Music Therapy	173
Eckart Altenburger, Gottfried Schlaug, and Michael Thaut	
1. Music as a Driver of Brain Plasticity	173
2. Some Mechanisms of Music-Induced Brain Plasticity	181
3. The Role of Music-Induced Emotions for Brain Plasticity	183
4. Facilitating Recovery from Nonfluent Aphasia	183
5. Acknowledgments	187
6. References	187
CHAPTER 10 Music, Emotion, and the Passions: A Historical Perspective	188
Victor Alexandrov, Michael Thaut, and Eckart Altenburger	
1. Introduction	188
2. Cathartic and Therapeutic Roles of Music in the Ancient World	188
3. From the Middle Ages to the Early Modern Era: St. Vitus and Choreomania	191
