## Introduction: Exploring Geovisualization

### 1. Exploring Geovisualization

|   |   |
|---|---|
| Jason Dykes, Alan M. MacEachren & Menno-Jan Kraak ..... | 3 |
|---|---|

## Section A Geovisualization in Context: Perspectives from Related Disciplines

### 2. Information Visualization: Scope, Techniques and Opportunities for Geovisualization

|   |    |
|---|----|
| Daniel A. Keim, Christian Panse & Mike Sips ..... | 23 |
|---|----|

### 3. Information Visualization and the Challenge of Universal Usability

|                          |    |
|--------------------------|----|
| Catherine Plaisant ..... | 53 |
|--------------------------|----|

### 4. Beyond Tools: Visual Support for the Entire Process of GIScience

|                    |    |
|--------------------|----|
| Mark Gahegan ..... | 83 |
|--------------------|----|

## Section B Creating Instruments for Ideation: Software Approaches to Geovisualization Perspectives

### 5. Creating Instruments for Ideation: Software Approaches to Geovisualization

|   |     |
|---|-----|
| Gennady Andrienko, Natalia Andrienko, Jason Dykes,<br>David Mountain, Penny Noy, Mark Gahegan, Jonathan C. Roberts,<br>Peter Rodgers & Martin Theus ..... | 103 |
|---|-----|

|  |     |
|--|-----|
| 6. Statistical Data Exploration and Geographical Information Visualization<br>Martin Theus.....  | 127 |
| 7. Graph Drawing Techniques for Geographic Visualization<br>Peter Rodgers.....   | 143 |
| 8. Exploratory Visualization with Multiple Linked Views<br>Jonathan C. Roberts.....  | 159 |
| 9. Visualizing, Querying and Summarizing Individual Spatio-Temporal Behaviour<br>David Mountain .....  | 181 |
| 10. Impact of Data and Task Characteristics on Design of Spatio-Temporal Data Visualization Tools<br>Natalia Andrienko, Gennady Andrienko & Peter Gatalsky ..... | 201 |
| 11. Using Multi-agent Systems for GKD Process Tracking and Steering:<br>The Land Use Change Explorer<br>Monica Wachowicz, Xu Ying & Arend Ligtenberg .....       | 223 |
| 12. Signature Exploration, a Means to Improve Comprehension and Choice within Complex Visualization Processes: Issues and Opportunities<br>Penny Noy .....       | 243 |
| 13. Facilitating Interaction for Geovisualization<br>Jason Dykes .....   | 265 |
| <b>Section C Using 3D in Visualization</b>   |     |
| 14. Using 3D in Visualization<br>Jo Wood, Sabine Kirschenbauer, Jürgen Döllner,<br>Adriano Lopes & Lars Bodum.....   | 295 |
| 15. <i>Multim im parvo</i> – Many Things in a Small Place<br>Jo Wood .....   | 313 |
| 16. Geovisualization and Real-Time 3D Computer Graphics<br>Jürgen Döllner .....  | 325 |

---

|  |     |
|--|-----|
| 17. Interactive Approaches to Contouring and Isosurfacing<br>for Geovisualization<br>Adriano Lopes & Ken Brodlie ..... | 345 |
| 18. Applying “True 3D” Techniques to Geovisualization:<br>An Empirical Study<br>Sabine Kirschenbauer .....             | 363 |
| 19. Modelling Virtual Environments for Geovisualization:<br>A Focus on Representation<br>Lars Bodum .....              | 389 |
| 20. Web-based Dissemination and Visualization of Operational<br>3D Mesoscale Weather Models<br>Lloyd A. Treinish ..... | 403 |

## **Section D Connecting People, Data and Resources: Distributed Geovisualization**

|  |     |
|--|-----|
| 21. Connecting People, Data and Resources – Distributed<br>Geovisualization<br>Ken Brodlie, David Fairbairn, Zarine Kemp &<br>Michael Schroeder .....                      | 425 |
| 22. Moving Geovisualization toward Support for Group Work<br>Alan M. MacEachren .....  | 445 |
| 23. Models of Collaborative Visualization<br>Ken Brodlie .....   | 463 |
| 24. Intelligent Information Integration: From Infrastructure through<br>Consistency Management to Information Visualization<br>Michael Schroeder .....                     | 477 |
| 25. A Knowledge-based Collaborative Environment for Geovisualization:<br>Ontologies for Multiple Perspectives on Distributed Data Resources<br>Zarine Kemp .....           | 495 |
| 26. Geovisualization Issues in Public Transport Applications<br>David Fairbairn .....  | 513 |
| 27. Presenting Route Instructions on Mobile Devices: From Textual<br>Directions to 3D Visualization<br>Volker Coors, Christian Elting, Christian Kray & Katri Laakso ..... | 529 |

**Section E Making Useful and Useable Geovisualization:  
Design and Evaluation Issues**

|   |     |
|---|-----|
| 28. Making Useful and Useable Geovisualization: Design and<br>Evaluation Issues<br>Sven Fuhrmann, Paula Ahonen-Rainio, Robert M. Edsall,<br>Sara I. Fabrikant, Etien L. Koua, Carolina Tobón,<br>Colin Ware & Stephanie Wilson..... | 553 |
| 29. 3D Geovisualization and the Structure of Visual Space<br>Colin Ware & Matthew Plumlee.....  | 567 |
| 30. Applications of a Cognitively Informed Framework for the Design<br>of Interactive Spatio-temporal Representations<br>Robert M. Edsall & Laura R. Sidney.....  | 577 |
| 31. User-centered Design of Collaborative Geovisualization Tools<br>Sven Fuhrmann & William Pike .....  | 591 |
| 32. Towards Multi-variate Visualization of Metadata Describing<br>Geographic Information<br>Paula Ahonen-Rainio & Menno-Jan Kraak .....   | 611 |
| 33. Evaluating Self-organizing Maps for Geovisualization<br>Etien L. Koua & Menno-Jan Kraak .....   | 627 |
| 34. Evaluating Geographic Visualization Tools and Methods:<br>An Approach and Experiment Based upon User Tasks<br>Carolina Tobón .....  | 645 |
| 35. Cognitively Plausible Information Visualization<br>Sara Irina Fabrikant & André Skupin .....  | 667 |
| <b>Conclusion: Advancing Geovisualization</b>   |     |
| 36. Advancing Geovisualization<br>Jason Dykes, Alan M. MacEachren & Menno-Jan Kraak .....   | 693 |
| Index .....   | 705 |
