Preface	vii
1 How might we talk about 'talk'?	1
1.1 <i>Some traditional views</i>	1
1.2 <i>A more promising approach</i>	7
1.3 <i>A variety of possibilities</i>	12
1.4 <i>Still wider considerations</i>	18
1.5 <i>Further issues</i>	27
2 Do only humans talk?	34
2.1 <i>Mainly of birds and bees</i>	36
2.2 <i>Talking apes?</i>	42
2.3 <i>The 'language' issue</i>	56
2.4 <i>The 'continuity' issue</i>	61
3 Are we 'wired' for language?	67
3.1 <i>Are mouths and ears important?</i>	69
3.2 <i>The puzzle of the brain</i>	82
4 Does the mind matter?	94
4.1 <i>'Behaviour' and 'mind'</i>	94
4.2 <i>Taking in what we hear</i>	98
4.3 <i>Memories are made of what?</i>	107
4.4 <i>Getting our words out</i>	115
4.5 <i>Some general issues</i>	118
5 Why do languages vary so?	130
5.1 <i>Speaking a language differently</i>	133

5.2	<i>Relating different languages</i>	145
5.3	<i>Other types of variation</i>	157
5.4	<i>Is variety useful?</i>	166
6	<i>Of what use is language?</i>	168
6.1	<i>Language as action</i>	170
6.2	<i>Language in action</i>	179
6.3	<i>The functions of language</i>	190
6.4	<i>Can language use us?</i>	197
7	<i>How do we 'learn' a language?</i>	208
7.1	<i>'Facts' to be explained</i>	210
7.2	<i>What does 'learning theory' tell us?</i>	216
7.3	<i>Is the 'mind' in control?</i>	223
7.4	<i>Is language ability 'innate'?</i>	232
7.5	<i>What we do 'learn'</i>	239
8	<i>Describing language</i>	250
	Glossary of language terms	264
	Further reading	273
	References	275
	Index	288
