

## CONTENTS

<i>Preface to the Third Edition</i>	vii
<i>Preface to the Second Edition</i>	ix
<i>Acknowledgments</i>	xi
1. History of Brain Death	1
Defining Neurological Criteria for Death	2
2. Neurology of Brain Death	25
The Pathology of Brain Death	26
Clinical Examination in Adults	31
Ancillary Tests in Adults with Brain Death	45
Clinical Determination of Brain Death in Children	56
Documentation	59
Teaching Brain Death Determination	60
Errors and Alleged Recoveries	60
Legal Definitions and Obligations	61
3. International Criteria of Brain Death	75
Guidelines in the United Kingdom	76
Guidelines Worldwide	81
Consensus for a Uniform Worldwide Standard	90
4. Beliefs and Brain Death	97
Religious Beliefs	98
Cultural Views	102
Hospital Clergy	105
Religious Conflict Resolution	105
5. Critics and Brain Death	111
The Uncertainty of Death	112
Emerging Controversies	115
Critique	124
6. Procurement after Brain Death	133
Transitioning to Organ Donation	134
Organ Procurement Organizations	135
Organ Donation Requests	139

Preparation for Determining Organ Suitability	144
Donation Protocols	148
Pathophysiological Changes with Brain Death	152
Medical Supportive Care	162
7. Clinical Problems in Brain Death Determination and Organ Donation	173
1. The Qualifications of the Examiner	175
2. Clinical Mimics	180
3. Acid-Base Disturbances	184
4. Electrolyte Abnormalities	187
5. Acute Intoxications and Overdose	190
6. Reliability of Ancillary Tests	194
7. Ancillary Tests and Confounders	198
8. Primary Brainstem Lesion	201
9. Uncertainty about Interpreting Spinal Reflexes	204
10. Ventilator Autocycling	208
11. Chronic CO <sub>2</sub> Retention and the Apnea Test	211
12. Terminating the Apnea Test	214
13. Breathing during the Apnea Test	217
14. Pneumothorax during the Apnea Test	220
15. Cardiopulmonary Resuscitation and Brain Death	222
16. Extracorporeal Membrane Oxygenation (ECMO) and Brain Death	226
17. Anencephaly and Brain Death	229
18. Shaken Baby Syndrome and Brain Death	233
19. Maternal Brain Death	237
20. Legal Challenges in Brain Death	241
21. Family Opposition to Accepting Brain Death	249
22. Families at Bedside and Present during Testing	251
23. Sperm and Oocyte Retrieval in Brain Death	253
24. Organ Donation Management	256
25. Organ Donation and the Hemodynamically Unstable Donor	258
26. Organ Donation and DCD Pitfalls	262
27. Organ Donation in Prisoners	264
28. Organ Donation, Consent, and Costs	266
29. Organ Donation and Directing the Gift	268
30. Organ Donation and the Media	270
