

Table of Contents

Foreword	5
1 Introduction to the issue	9
1.1 Technics and education	9
1.2 Constructivism in experimental academic work	12
1.3 Technical thinking	19
2 Electrotechnical kits as illustrative training aids in vocational training	23
2.1 Terms and terminology related to electrotechnical kits	26
2.2 Electrotechnical kits and modelling	43
3 Electrotechnical kits as material didactic training tools	49
3.1 Pupils as users of electrotechnical kits	55
3.3 Ergonomics and electrotechnical kits	62
3.4 Maintaining occupational safety while teaching with electrotechnical kits	64
3.5 Using electrotechnical kits in general vocational training in contemporary primary schools	65
3.5.1 Humans and the work world in the primary school curriculum	70
3.5.2 The concept of didactics in electrical engineering	80
3.5.3 The possibilities and limits of teaching electrical engineering in primary schools	89
3.5.4 Innovative approaches to teaching electrical engineering in primary schools	96
3.5.5 Modern teaching methods in subjects related to electrical engineering	100
3.5.6 Quality standards for teaching electrical engineering	105
4 A short overview of the history of electrotechnical kits	115
4.1 Electrotechnical kits for primary schools	120
5 Standards for electrotechnical kits used in education	139
5.1 Defining the areas of evaluating electrotechnical kits	140
5.2 Formulating the evaluation criteria	143
5.3 Research methodology	153
5.4 Research sample description and the course of the research	157
5.4.1 Accepting the basic areas of evaluating electrotechnical kits	160
5.4.2 Teachers' attitudes to the criteria for evaluating electrotechnical kits	165
5.4.3 Importance of the areas for evaluating electrotechnical kits, based on the age and gender of respondents	168
5.4.4 Electrotechnical kits and modern technology	187
5.4.5 Respondents' specialisation and spheres of interests	189

5.4.6 Respondents' teaching qualifications in relation to evaluating electrotechnical kits	194
6 Interpreting research results, and proposals for further solutions	195
7 Conclusion	199
8 Sources	203
