7		1 ONDAMENTALS	
1 •	Intro	oduction	3
	1.1	A Scientist in Training 3	
		Questions of Whether, If, How, and When 5	
		Conditional Process Analysis 9	
	1.4	Correlation, Causality, and Statistical Modeling 15	
	1.5	Statistical and Conceptual Diagrams, and Antecedent	
		and Consequent Variables 19	
	1.6	Statistical Software 22	
	1.7	Overview of This Book 24	
	1.8	Chapter Summary 27	
2 •	Fund	damentals of Linear Regression Analysis	29
	2.1	Correlation and Prediction 30	
	2.2	The Simple Linear Regression Model 34	
		Alternative Explanations for Association 45	
		Multiple Linear Regression 48	
	2.5	Measures of Model Fit 54	
	2.6	Statistical Inference 56	
	2.7	Multicategorical Antecedent Variables 65	
	2.8	Assumptions for Interpretation and Statistical Inference	68
	2.9	Chapter Summary 73	
PAF	RT II	. MEDIATION ANALYSIS	
3 •	The	Simple Mediation Model	77
	3.1	The Simple Mediation Model 78	
		Estimation of the Direct, Indirect, and Total Effects of X	82
		Example with Dichotomous X: The Influence of Presumed	_
		Media Influence 86	
	3.4	Statistical Inference 93	

xviii Contents

	3.5	An Example with Continuous <i>X</i> : Economic Stress	
		among Small-Business Owners 107	
	3.6	Chapter Summary 112	
4 •	Caus	sal Steps, Confounding, and Causal Order	113
	4.1	What about Baron and Kenny? 113	
		Confounding and Causal Order 121	
		Effect Size 132	
	4.4	Statistical Power 140	
	4.5	Multiple Xs or Ys: Analyze Separately or Simultaneously? 141	
	4.6	Chapter Summary 146	
5 •	More	e Than One Mediator	147
		The Parallel Multiple Mediator Model 149	
		Example Using the Presumed Media Influence Study 154	
		Statistical Inference 161	
		The Serial Multiple Mediator Model 167	
		Models with Parallel and Serial Mediation Properties 180	
		Complementarity and Competition among Mediators 183	
		Chapter Summary 186	
6 .	Mod	intion Analysis with a Multipotogovical Antogodant	107
0 •		iation Analysis with a Multicategorical Antecedent	187
		Relative Total, Direct, and Indirect Effects 189	
		An Example: Sex Discrimination in the Workplace 195	
		Using a Different Group Coding System 204	
		Some Miscellaneous Issues 212	
	6.3	Chapter Summary 215	
PAR	RT II	I. MODERATION ANALYSIS	
7 •	Fund	damentals of Moderation Analysis	219
	7.1	Conditional and Unconditional Effects 223	
	7.2	An Example: Climate Change Disasters	
		and Humanitarianism 231	
	7.3	Visualizing Moderation 243	
	7.4	Probing an Interaction 248	
	7.5	The Difference between Testing for Moderation	
		and Probing It 259	
	7.6	Artificial Categorization and Subgroups Analysis 263	
	7.7	Chapter Summary 265	
8 •	Fyte	ending the Fundamental Principles of Moderation Analysis	267
•			201
		Moderation with a Dichotomous Moderator 268 Interaction between Two Quantitative Variables 276	
		Interaction between Two Quantitative Variables 276 Hierarchical versus Simultaneous Entry 289	
	8.4	Hierarchical versus Simultaneous Entry 289 The Equivalence between Moderated Regression Analysis	
	0.4	and a 2 × 2 Factorial Analysis of Variance 292	
	8.5	Chapter Summary 301	

602		e Myths and Additional Extensions of Moderation Analysis	303
			000
		Truths and Myths about Mean-Centering 304	
	9.2	The Estimation and Interpretation of Standardized Regression	
	0.0	Coefficients in a Moderation Analysis 313	
		A Caution on Manual Centering and Standardization 319	
		More Than One Moderator 320	
		Comparing Conditional Effects 342	
	9.6	Chapter Summary 346	
10 •	Multi	icategorical Focal Antecedents and Moderators	349
	10.1	Moderation of the Effect of a Multicategorical	
		Antecedent Variable 350	
	10.2	An Example from the Sex Discrimination in the Workplace Study 354	
	10.3	Visualizing the Model 362	
	10.4	Probing the Interaction 366	
	10.5	When the Moderator Is Multicategorical 379	
		Using a Different Coding System 387	
		Chapter Summary 388	
		the continuity continuity	
PAF	RT IN	/. CONDITIONAL PROCESS ANALYSIS	
11 •	Func	lamentals of Conditional Process Analysis	393
		Examples of Conditional Process Models in the Literature 397	
		*	
		Conditional Direct and Indirect Effects 402	
		Conditional Direct and Indirect Effects 402  Evample: Hiding Your Foolings from Your Work Team 407	
	11.3	Example: Hiding Your Feelings from Your Work Team 407	
	11.3 11.4	Example: Hiding Your Feelings from Your Work Team 407 Estimation of a Conditional Process Model Using PROCESS 414	
	11.3 11.4	Example: Hiding Your Feelings from Your Work Team 407 Estimation of a Conditional Process Model Using PROCESS 414 Quantifying and Visualizing (Conditional) Indirect	
	11.3 11.4 11.5	Example: Hiding Your Feelings from Your Work Team 407 Estimation of a Conditional Process Model Using PROCESS 414 Quantifying and Visualizing (Conditional) Indirect and Direct Effects 417	
	11.3 11.4 11.5 11.6	Example: Hiding Your Feelings from Your Work Team 407 Estimation of a Conditional Process Model Using PROCESS 414 Quantifying and Visualizing (Conditional) Indirect and Direct Effects 417 Statistical Inference 423	
	11.3 11.4 11.5 11.6	Example: Hiding Your Feelings from Your Work Team 407 Estimation of a Conditional Process Model Using PROCESS 414 Quantifying and Visualizing (Conditional) Indirect and Direct Effects 417	
12 •	11.3 11.4 11.5 11.6 11.7	Example: Hiding Your Feelings from Your Work Team 407 Estimation of a Conditional Process Model Using PROCESS 414 Quantifying and Visualizing (Conditional) Indirect and Direct Effects 417 Statistical Inference 423	431
12 •	11.3 11.4 11.5 11.6 11.7	Example: Hiding Your Feelings from Your Work Team 407 Estimation of a Conditional Process Model Using PROCESS 414 Quantifying and Visualizing (Conditional) Indirect and Direct Effects 417 Statistical Inference 423 Chapter Summary 430 her Examples of Conditional Process Analysis	431
12 •	11.3 11.4 11.5 11.6 11.7 Furtl 12.1	Example: Hiding Your Feelings from Your Work Team 407 Estimation of a Conditional Process Model Using PROCESS 414 Quantifying and Visualizing (Conditional) Indirect and Direct Effects 417 Statistical Inference 423 Chapter Summary 430 her Examples of Conditional Process Analysis Revisiting the Disaster Framing Study 432	431
12 •	11.3 11.4 11.5 11.6 11.7 Furtl 12.1	Example: Hiding Your Feelings from Your Work Team 407 Estimation of a Conditional Process Model Using PROCESS 414 Quantifying and Visualizing (Conditional) Indirect and Direct Effects 417 Statistical Inference 423 Chapter Summary 430  her Examples of Conditional Process Analysis Revisiting the Disaster Framing Study 432 Moderation of the Direct and Indirect Effects in a Conditional	431
12 •	11.3 11.4 11.5 11.6 11.7 Furtl 12.1 12.2	Example: Hiding Your Feelings from Your Work Team 407 Estimation of a Conditional Process Model Using PROCESS 414 Quantifying and Visualizing (Conditional) Indirect and Direct Effects 417 Statistical Inference 423 Chapter Summary 430  her Examples of Conditional Process Analysis Revisiting the Disaster Framing Study 432 Moderation of the Direct and Indirect Effects in a Conditional Process Model 439	431
12 •	11.3 11.4 11.5 11.6 11.7 Furtl 12.1 12.2	Example: Hiding Your Feelings from Your Work Team 407 Estimation of a Conditional Process Model Using PROCESS 414 Quantifying and Visualizing (Conditional) Indirect and Direct Effects 417 Statistical Inference 423 Chapter Summary 430  her Examples of Conditional Process Analysis Revisiting the Disaster Framing Study 432 Moderation of the Direct and Indirect Effects in a Conditional Process Model 439 Statistical Inference 453	431
112 •	11.3 11.4 11.5 11.6 11.7 Furtl 12.1 12.2 12.3 12.4	Example: Hiding Your Feelings from Your Work Team 407 Estimation of a Conditional Process Model Using PROCESS 414 Quantifying and Visualizing (Conditional) Indirect and Direct Effects 417 Statistical Inference 423 Chapter Summary 430  her Examples of Conditional Process Analysis Revisiting the Disaster Framing Study 432 Moderation of the Direct and Indirect Effects in a Conditional Process Model 439 Statistical Inference 453 Mediated Moderation 459	431
