

FORWARD TO THE ENGLISH EDITION	11
ACKNOWLEDGEMENTS	12
FOREWORD.....	13
1. GENERAL DATA ON GEMS	14
1.1. Classification of Gems	14
1.2. Jewels	18
1.3. Jewelry-Industrial and Industrial Stones	32
1.4. Synthetic Crystals – Substitutes of Natural Gems	33
2. CORUNDUM (RUBY AND SAPPHIRE)	38
2.1. General	38
2.2. Geological Genetic Types of Deposits	42
2.2.1. Magmatic Deposits	42
Basalt and Alkaline Basalt Extrusions.....	43
Alkaline Basic Lamprophyres	46
2.2.2. Pegmatite Deposits (Syenite Pegmatites)	48
2.2.3. Contact Metasomatic Deposits.....	49
Endoskarns in Marbles and Calciphyres.....	49
Micaceous Anorthosites in Mafic and Ultramafic Rocks	57
2.2.4. Metamorphic Deposits.....	61
2.2.5. Placer Deposits	61
3. BERYL	71
3.1. General	71
3.2. Emerald.....	73
3.2.1. General	73
3.2.2. Geological Genetic Types of Deposits	77
3.2.2.1. Pegmatite Deposits.....	77
3.2.2.2. Greisen Deposits.....	79
Ultramafic Greisens	80
Carbonate-Black Shale Greisens	95
3.2.2.3. Hydrothermal Deposits	96
3.2.2.4. Placer Deposits	102
3.3. Aquamarine and Other Jewelry Beryls	102
3.3.1. General	102

3.3.2. Geological Genetic Types of Deposits	105
3.3.2.1. Pegmatite Deposits	105
Mirolitic Granite Pegmatites.....	105
Microcline-Beryl-Muscovite Vugless Pegmatites	114
3.3.2.2. Greisen Deposits	114
3.3.2.3. Post-Volcanic Exhalative-Hydrothermal Deposits	118
3.3.2.4. Placer Deposits	119
4. PRECIOUS OPAL	120
4.1. General	120
4.2. Geological Genetic Types of Deposits	124
4.2.1. Hydrothermal Post-Volcanic Deposits	124
4.2.2. Supergene Deposits	128
5. TOPAZ	132
5.1. General	132
5.2. Geological Genetic Types of Deposits	135
5.2.1. Pegmatite Deposits	135
5.2.2. Greisen Deposits	145
5.2.3. Hydrothermal Deposits.....	145
Post-Intrusive Plutonogenic Deposits.....	145
Post-Volcanic Exhalation Hydrothermal Deposits.....	147
5.2.4. Placer Deposits	149
6. TOURMALINE	151
6.1. General	151
6.2. Geological Genetic Types of Deposits	154
6.2.1. Pegmatite Deposits	154
6.2.2. Contact Metasomatic Deposits.....	171
6.2.3. Metamorphic Deposits	172
6.2.4. Placer Deposits	172
7. SPINEL	173
7.1. General	173
7.2. Geological Genetic Types of Deposits	175
7.2.1. Magnesian Skarn Deposits	175
7.2.2. Placer Deposits	180
8. GARNET	181
8.1. General.....	181
8.2. Geological Genetic Types of Deposits.....	186
8.2.1. Magmatic Deposits	186
Kimberlites	186
Basaltic Eruptive Breccias	191
Felsic and Intermediate Extrusive Rocks	193
8.2.2. Pegmatite Deposits	194
8.2.3. Contact Metasomatic Deposits.....	195
Exo- and Endoskarns	195
Apogabbro Metasomatites	196
8.2.4. Hydrothermal Deposits	198
Plutonic Deposits in Ultramafic Rocks	199
Post-Volcanic Deposits in Felsic Extrusions	202
8.2.5. Metamorphic Deposits	202
8.2.6. Placer Deposits	204
9. PERIDOT (CHRYSLITE)	208
9.1. General	208
9.2. Geological Genetic Types of Deposits	209

9.2.1. Magmatic Deposits.....	209
Kimberlites	210
Basalts and Alkaline Basaltoids.....	212
9.2.2. Hydrothermal Deposits	215
Ultramafic Alkaline Massifs of the Central Type	215
Ultramafic Massifs of the Alpine Type	218
9.2.3. Placer Deposits	219
10. AMETHYST.....	221
10.1. General	221
10.2. Geological Genetic Types of Deposits	223
10.2.1. Pegmatite Deposits	223
10.2.2. Iron-Ore Skarn Deposits.....	225
10.2.3. Hydrothermal Deposits	226
Plutonogenic Deposits	226
Volcanogenic Deposits	233
Telethermal Deposits	236
10.2.4. Placer Deposits	236
11. TURQUOISE.....	237
11.1. General	237
11.2. Geological Genetic Types of Deposits	240
11.2.1. Deposits in Magmatic Rocks.....	240
11.2.2. Deposits in Sandy-Shale Rocks.....	250
12. AMBER.....	255
12.1. General	255
12.2. Geological Genetic Types of Deposits	261
12.2.1. Biogenic-Sedimentary Deposits.....	261
12.2.2. Placer Deposits	262
13. LAZURITE.....	273
13.1. General	273
13.2. Geological Genetic Types of Deposits	276
13.2.1. Deposits in Magnesian Skarns.....	276
13.2.2. Placer Deposits.....	287
14. JADEITE	288
14.1. General	288
14.2. Geological Genetic Types of Deposits	291
14.2.1. Contact Metasomatic Deposits in Ultramafic Rocks	291
14.2.2. Placer Deposits	302
15. NEPHRITE	303
15.1. General	303
15.2. Geological Genetic Types of Deposits	306
15.2.1. Contact Metasomatic Deposits	306
Deposits in Serpentinized Ultramafic Rocks	307
Deposits in Magnesian Skarns	319
15.2.2. Placer Deposits.....	323
16. CHAROITE	326
16.1. General	326
16.2. Geology and Genesis of the Sirenevsky Kamen Deposit	327
17. MALACHITE	333
17.1. General.....	333
17.2. Geological Genetic Types of Deposits.....	335
17.2.1. Deposits in Oxidized Zones of Copper Sulfide Ores in Carbonate-bearing Rocks.....	335
17.2.2. Placer Deposits.....	343

18. CHALCEDONY	345
18.1. General	345
18.1.1. Agate.....	347
18.1.2. Carneol, Carnelian, and Sard	350
18.1.3. Chrysoprase	351
18.1.4. Other Decorative Varieties	353
18.2. Geological Genetic Types of Deposits	355
18.2.1. Post-Volcanic Hydrothermal Deposits	355
Chalcedony deposits in basic and intermediate volcanogenic rocks	355
Agate deposits in silicic volcanogenic rocks	367
18.2.2. Diagenetic and Catagenic Deposits.....	370
18.2.3. Deposits in Weathered Crusts	373
Chrysoprase deposits in nickel-bearing weathered crusts on ultramafic rocks	373
Cacholong deposits in weathered crusts	377
18.2.4. Placer Deposits	377
Eluvial and eluvial-deluvial placer deposits	377
Agate-bearing conglomerates.....	378
Alluvial placer deposits	379
Shoreline placer deposits.....	382
19. RHODONITE	383
19.1. General	383
19.2. Geological Genetic Types of Deposits	386
19.2.1. Deposits in Calcic Skarns	386
19.2.2. Hydrothermal Deposits	388
19.2.3. Metamorphic Deposits	389
19.2.4. Placer Deposits	398
20. ECONOMIC-GEOLOGICAL TYPES OF GEMSTONE DEPOSITS AND THE PRINCIPAL REGULARITIES IN THEIR SPATIAL DISTRIBUTION	400
Magmatic deposits.....	401
Pegmatites.....	401
Gemstone deposits in ultramafic rocks.....	406
Magnesian skarns	407
Hydrothermal deposits	408
Metamorphogenic deposits	408
Weathered crusts.....	408
Placer deposits	409
ABBREVIATIONS.....	414
REFERENCE	415
