

CONTENTS

Foreword	12
Dedication	15
Introduction	16
1. How students think and learn	
1.1. A simple model of thinking and learning	24
1.2. Experts and Novices	30
1.3. What are they thinking about?	37
1.4. Expanding working memory capacity	41
1.5. Methods that last	43
1.6. Maths anxiety	47
1.7. If I only remember 3 things... ..	52
2. Motivation	
2.1. Models of motivation	53
2.2. Do students make good decisions?	56
2.3. Real-life maths	59
2.4. Teacher influence	64
2.5. Providing a purpose	68
2.6. Rewards and sanctions	71
2.7. Why struggle and failure aren't always good – Part 1	76
2.8. Achievement and motivation	82
2.9. If I only remember 3 things... ..	87
3. Explicit Instruction	
3.1. What makes great teaching?	90
3.2. Are some students natural mathematicians?	93

3.3. When and why less guidance does not work.....	97
3.4. The problem with guided discovery	107
3.5. Teaching lower-achieving students	118
3.6. Story structure.....	120
3.7. Analogies	123
3.8. Cognitive conflict	128
3.9. How before why	136
3.10. Ending on a high	145
3.11. If I only remember 3 things.....	147
4. Focusing Thinking	
4.1. Cognitive Load Theory and the Cognitive Theory of Multimedia Learning.....	148
4.2. When silly mistakes may not be that silly.....	151
4.3. The Modality Effect.....	155
4.4. Learning styles	159
4.5. The Goal-free Effect	161
4.6. The Split Attention Effect.....	165
4.7. The Redundancy Effect.....	170
4.8. Silent teacher.....	176
4.9. Germane Load	178
4.10. If I only remember 3 things... ..	181
5. Self-Explanations	
5.1. The Self-Explanation Effect.....	182
5.2. Making the most of self-explanations	185
5.3. If I only remember 3 things... ..	190
6. Making the most of Worked Examples	
6.1. The Worked Example Effect.....	191
6.2. Example-Problem Pairs	193

6.3. Labels	204
6.4. Supercharged Worked Examples.....	207
6.5. Mistakes in Worked Examples	211
6.6. Fading	214
6.7. The Expertise Reversal Effect.....	217
6.8. If I only remember 3 things... ..	220
7. Choice of Examples and Practice Questions	
7.1. Examples v Definitions.....	221
7.2. Examples v Rules.....	226
7.3. Boundary examples.....	232
7.4. Same Surface, Different Deep Problems.....	236
7.5. Ambiguous answers.....	240
7.6. Ambiguous questions	241
7.7. Extension questions.....	243
7.8. Minimally different examples and Intelligent Practice	247
7.9. If I only remember 3 things... ..	259
8. Deliberate Practice	
8.1. Breaking it down	261
8.2. The five stages of deliberate practice	265
8.3. Practice v final performance.....	271
8.4. Three reasons to always give students the answers.....	274
8.5. If I only remember 3 things... ..	279
9. Problem-Solving and Independence	
9.1. What is a problem?.....	280
9.2. Why are some students bad at problem-solving.....	285
9.3. ...and what can we do about it?	300
9.4. Why struggle and failure aren't always good – Part 2	308

9.5. Independent learners.....	317
9.6. If I only remember 3 things... ..	319
10. Purposeful Practice	
10.1. The most difficult part of teaching.....	320
10.2. What is purposeful practice?	325
10.3. If I only remember 3 things... ..	336
11. Formative Assessment and Diagnostic Questions	
11.1. What is formative assessment and why is it important?.....	337
11.2. Classroom culture.....	342
11.3. What is a Diagnostic Question?.....	347
11.4. What makes a good question?.....	354
11.5. How to ask and respond.....	363
11.6. When to ask a diagnostic question	371
11.7. Seven common criticisms of multiple-choice questions	378
11.8. Anticipating mistakes and misconceptions	387
11.9. The benefits of teachers writing questions.....	391
11.10. If I only remember 3 things.....	394
12. Long-term Memory and Desirable Difficulties	
12.1. How long-term memory works.....	395
12.2. The problem with performance	400
12.3. The Spacing Effect.....	403
12.4. The Interleaving Effect.....	409
12.5. The Variation Effect	418
12.6. The Testing Effect.....	422
12.7. The many, many other benefits of tests.....	424
12.8. Low-stakes quizzes	427
12.9. The Pretest Effect.....	441

12.10. Delaying and reducing feedback	444
12.11. If I only remember 3 things.....	447
Conclusion	448
Acknowledgements.....	450
