

Table of Contents

	Introduction	1
	What's New in this Edition?	2
	Copying the Exercise Files from the CD	2
	What is MAXScript and Why Use It?	3
	MAXScript History	3
	MAXScript File Locations	3
	Understanding Script Types	4
	MAXScript File Loading Order	4
	MAXScript-related Directories	5
	Purpose for .\scripts\	6
	Purpose for .\scripts\startup\	6
	Purpose for .\UI\Macroscripts\, or .\UI\usermacros\	6
	Purpose for .\stdplugins\stdscripts\	6
	Purpose for .\plugins\	6
	MAXScript vs. Plug-ins	6
	32-bit Max vs. 64-bit Max	7
1	MAXScript Basics	9
	Objectives	10
	Introduction	10
	Syntax and Organization	10
	Comments	10
	Multiline Statements	11
	Variables and Data	12
	Untyped Variables	13
	The MAXScript Listener	13
	Using the MAXScript Listener	16
	Object Properties	19
	Additional Object Properties	20
	Macro Recorder	22
	Functions	26
	Function Parameters and Signature	26
	Creating Your Own Functions	29
	Passing Arguments by Value	33
	Passing Arguments by Reference	34
	Exceptions to Pass by Value (Advanced Topic)	35
	Returning Values from Functions	35

Local and Global Variables	36
Defining Variables	36
Global Variables	37
Local Variables	38
Conditional Statements	39
If-Then Statements	39
Logical Operators: Not, And, Or	39
If-Then-Else Statements	40
List of Operators	42
Loop Structures	42
For Loop	42
Loops with Multiple Statements	43
While Loops	45
Collections	47
Arrays	47
Array Functions	48
Printing Arrays	49
Multidimensional Arrays (Advanced Topic)	50
Wildcards	52
Structures	54
Structure Syntax	55
Structure Constructor Function	56
Structure Initialization	56
Structure Member Functions	57
Calling Functions During Construction of a Structure (Advanced Topic)	58
Strings	59
Concatenation	59
Findstring	60
Replace	60
Converting Between Numbers and Strings	60
Creating and Running Scripts	61
Working with Equations	63
Changing Wireframe Colors with a Loop	64
Conclusion	67

2 **Constructing User Interfaces69**

Objectives	70
Introduction	70
Building User Interfaces	70
Types of User Interfaces	70
Script Types	70
MacroScripts	71
Script Files	71
Rollouts	71

	Adding User Interface Elements	74
	Event Handlers.....	78
	Rollout Groups.....	79
	Creating a Working Script	79
	Creating the User Interface	80
	Adding Event Handlers	83
	Fine-Tuning the UI	85
	Automatically Destroying Dialogs	86
	Adding Pickbutton Events	88
	Using Local Variables	88
	Disabling and Enabling UI Items	90
	Conclusion	92
3	The 3ds Max Interface	93
	Objectives	94
	Introduction	94
	Copy, Instance, and Reference.....	94
	Copy.....	94
	Instance.....	95
	Reference.....	96
	Cloning Nodes Using MaxOps.CloneNodes	96
	Copying Arrays	98
	Max Commands.....	99
	Command Panels.....	99
	Main Tool Bar	100
	Picking Scene Objects	100
	Picking Points.....	102
	Conclusion	103
4	Understanding Objects and Classes.....	105
	Objectives	106
	Introduction	106
	Object Oriented Programming	106
	Class Hierarchy	107
	Class Inheritance	109
	Determining Class Types	110
	Instances	112
	Properties	112
	MAXWrapper Class.....	115
	Methods.....	117
	Constructors.....	117
	Get and Set Methods.....	118
	Mapped Methods.....	119
	Working with the MAXScript Reference.....	120

	MAXScript Grammar	120
	Optional Parameters	121
	Return Values	122
	Reference Assignments	122
	Conclusion.....	123
5	Transforms and Animation	125
	Objectives.....	126
	Introduction	126
	Position and Scale Transform Properties.....	126
	Position Transform	126
	Scale Transform	127
	Rotation Transform	128
	EulerAngle.....	129
	Gimbal Coordinate System.....	132
	Local Rotations.....	134
	Quaternions	134
	AngleAxis	137
	Contexts	137
	Coordsys Context.....	141
	Animation	142
	Controllers.....	142
	Animation Keys	143
	Key Values.....	144
	Controller Types.....	146
	Rotation Axis	153
	Delete Keys	154
	Key Tangents.....	154
	Animation Layers.....	155
	Conclusion.....	164
6	Working with MAXScript Objects	165
	Objectives.....	166
	Introduction	166
	Applying Modifiers	166
	Lights and Cameras	168
	Lights	168
	Cameras	171
	Materials.....	172
	Bitmap Proxies	173
	Controlling the Renderer.....	177
	Booleans	180
	Standard Booleans	180
	ProBooleans	182

	Callbacks	188
	Randomizing.....	191
	Conclusion	192
7	File Handling, and Working with Directories.....	193
	Objectives	194
	Introduction	194
	File Input and Output	194
	File Pointer and Offset	195
	Writing to Files.....	197
	File Access at the System Level	199
	Open and Save Dialogs.....	200
	Opening the Save Dialog	202
	Binary File I/O	202
	Writing a Binary File.....	203
	Reading a Binary File.....	205
	Additional Binary I/O Functions	205
	Import/Export	206
	Import	206
	Export	208
	FBX File Format.....	208
	Working with Directories.....	215
	Directory Pathnames.....	215
	Project Folder.....	219
	Conclusion	221
8	Advanced MAXScript Interface	223
	Objectives	224
	Introduction	224
	MouseTrack	224
	Painter Interface.....	229
	Conclusion	233
9	ActiveX, and .NET (dotNet).....	235
	Objectives	236
	Introduction	236
	ActiveX Controls	236
	.NET Controls.....	241
	Conclusion	250
	Appendix	251
	Code Editors	252
	MAXScript Editor	252

3rd-Party Code Editors	255
Visual MAXScript.....	255
Saving and Executing Panels Created with Visual MAXScript.....	258
Using the VMS Editor in Another Way	260
Debugging and Error Trapping and Handling	261
Error Types	261
Compile-Time and Run-Time.....	263
Debugging Techniques	263
Stack Trace-Back	266
Error Trapping and Handling	267
MAXScript Debugger.....	268
Accessing the Debugger	269
Break Command	269
Debugger Output Window.....	270
Debugger Command Line	272
Watch Manager Window	273
Fixing Errors with the Debugger	276
Setting the Active Frame	277
Debugger Interface.....	280
Function Publishing System and Interfaces	280
Expression Controllers and Script Controllers	283
Index	287
