

# Brief Contents

## **Part I Earth Materials ..... 2**

|                  |                         |     |
|------------------|-------------------------|-----|
| <b>Chapter 1</b> | Planet Earth.....       | 4   |
| <b>Chapter 2</b> | Geologic Systems .....  | 30  |
| <b>Chapter 3</b> | Minerals .....          | 54  |
| <b>Chapter 4</b> | Igneous Rocks.....      | 84  |
| <b>Chapter 5</b> | Sedimentary Rocks.....  | 120 |
| <b>Chapter 6</b> | Metamorphic Rocks ..... | 152 |
| <b>Chapter 7</b> | Deformed Rocks .....    | 176 |
| <b>Chapter 8</b> | Geologic Time .....     | 200 |

## **Part II Earth's Hydrologic System ..... 230**

|                   |  |     |
|-------------------|--|-----|
| <b>Chapter 9</b>  | The Climate System: Earth's Atmosphere and Oceans..... | 232 |
| <b>Chapter 10</b> | Weathering .....                                       | 264 |
| <b>Chapter 11</b> | Slope Systems.....                                     | 292 |
| <b>Chapter 12</b> | River Systems .....                                    | 316 |
| <b>Chapter 13</b> | Groundwater Systems .....                              | 358 |
| <b>Chapter 14</b> | Glacier Systems .....                                  | 396 |
| <b>Chapter 15</b> | Shoreline Systems.....                                 | 444 |
| <b>Chapter 16</b> | Eolian Systems .....                                   | 480 |

## **Part III Earth's Tectonic System..... 504**

|                   |                                      |     |
|-------------------|--------------------------------------|-----|
| <b>Chapter 17</b> | Plate Tectonics .....                | 506 |
| <b>Chapter 18</b> | Seismicity and Earth's Interior..... | 534 |
| <b>Chapter 19</b> | Divergent Plate Boundaries.....      | 564 |
| <b>Chapter 20</b> | Transform Plate Boundaries.....      | 604 |
| <b>Chapter 21</b> | Convergent Plate Boundaries .....    | 628 |
| <b>Chapter 22</b> | Hotspots and Mantle Plumes .....     | 666 |
| <b>Chapter 23</b> | Tectonics and Landscapes .....       | 694 |

## **Part IV Epilogue ..... 724**

|                   |                        |     |
|-------------------|------------------------|-----|
| <b>Chapter 24</b> | Earth's Resources..... | 726 |
| <b>Chapter 25</b> | Other Planets .....    | 762 |

# Contents

|   |             |
|---|-------------|
| <b>Preface .....</b>                              | <b>xxii</b> |
| <b>To the Student: How to Use This Book .....</b> | <b>xxv</b>  |
| <b>Part I Earth Materials .....</b>               | <b>2</b>    |
| Chapter 1 Planet Earth .....                      | 4           |
| Introduction to Geology .....                     | 6           |
| Earth Compared with Other Planets .....           | 7           |
| The Solar System .....                            | 7           |
| Earth .....                                       | 9           |
| The Other Inner Planets .....                     | 11          |

|   |           |
|---|-----------|
| <b>Earth's Outermost Layers .....</b>                                   | <b>12</b> |
| The Atmosphere.....   | 12        |
| The Hydrosphere.....  | 13        |
| The Biosphere.....  | 13        |
| <b>The Geosphere: Earth's Internal Structure.....</b>                   | <b>15</b> |
| Internal Structure Based on Chemical Composition.....                   | 15        |
| Internal Structure Based on Physical Properties.....                    | 16        |
| <b>Major Features of the Continents.....</b>                            | <b>17</b> |
| Shields .....   | 18        |
| Stable Platforms.....   | 18        |
| Folded Mountains.....   | 18        |
| Summary of the Continents.....  | 20        |
| <b><i>State of the Art: Mapping the Continents from Space .....</i></b> | <b>22</b> |
| <b>Major Features of the Ocean Basins.....</b>                          | <b>23</b> |
| The Oceanic Ridge.....  | 23        |
| The Abyssal Floor.....  | 23        |
| Trenches .....  | 24        |
| Seamounts.....  | 24        |
| Continental Margins.....  | 25        |

## Contents

|  |    |
|--|----|
| <i>State of the Art: Mapping the Ocean Floor from Space</i> .....              | 26 |
| The Ecosphere—A Model of Planet Earth.....                                     | 27 |
| <i>GeoLogic: Meteorites and Earth's Interior</i> .....                         | 28 |
| <b>Chapter 2 Geologic Systems</b> .....  | 30 |
| Geologic Systems.....  | 32 |
| Direction of Change in Geologic Systems.....                                   | 34 |
| Systems, Equilibrium, and Geology.....   | 36 |
| The Hydrologic System .....  | 36 |
| Major Subsystems of the Hydrologic System .....                                | 38 |
| The Tectonic System.....   | 42 |
| Major Subsystems of the Tectonic System .....                                  | 44 |
| <i>State of the Art: Heat Flow Measurements and Plate Tectonics</i> .....      | 49 |
| Plates and Plate Motion.....   | 50 |
| Gravity and Isostasy .....   | 50 |
| <i>GeoLogic: Earth's Systems from Space</i> .....                              | 52 |
| <b>Chapter 3 Minerals</b> .....  | 54 |
| Matter .....   | 56 |
| Atoms.....   | 56 |
| Isotopes.....  | 57 |
| Ions .....   | 58 |
| Bonding.....   | 58 |
| States of Matter .....   | 60 |
| The Nature of Minerals.....  | 61 |
| Natural Inorganic Solids .....   | 61 |
| The Structure of Minerals .....  | 61 |
| <i>State of the Art: X-Ray Diffraction and the Structure of Minerals</i> ..... | 63 |
| The Composition of Minerals .....  | 64 |
| The Physical Properties of Minerals.....                                       | 64 |
| Stability Ranges .....   | 68 |
| The Growth and Destruction of Minerals .....                                   | 69 |
| Crystal Growth .....   | 69 |
| Destruction of Crystals .....  | 71 |
| Silicate Minerals .....  | 72 |
| Rock-Forming Minerals .....  | 74 |
| Felsic Silicate Minerals .....   | 75 |
| Mafic Silicate Minerals .....  | 79 |
| Clay Minerals.....   | 81 |
| Nonsilicate Minerals .....   | 81 |
| <i>GeoLogic: Internal Structure of Minerals</i> .....                          | 82 |
| <b>Chapter 4 Igneous Rocks</b> .....   | 84 |
| The Nature of Igneous Rocks.....   | 86 |
| Textures of Igneous Rocks .....  | 89 |
| Glassy Texture.....  | 89 |
| Aphanitic Texture .....  | 89 |
| <i>State of the Art: Microscopes Reveal Hidden Worlds of Geology</i> .....     | 91 |
| Phaneritic Texture .....   | 92 |
| Porphyritic Texture .....  | 92 |
| Pyroclastic Texture .....  | 92 |

|   |            |
|---|------------|
| Types of Igneous Rocks .....  | 92         |
| Rocks with Phaneritic Textures (Intrusive Rocks) .....                            | 93         |
| Rocks with Aphanitic Groundmasses (Extrusive) .....                               | 94         |
| Rocks with Pyroclastic Textures .....   | 96         |
| Extrusive Rock Bodies.....  | 96         |
| Products of Basaltic Eruptions .....  | 97         |
| Products of Intermediate to Silicic Eruptions .....                               | 102        |
| Intrusive Rock Bodies .....   | 107        |
| Plutons and Batholiths.....   | 107        |
| Dikes.....  | 110        |
| Sills .....   | 110        |
| Laccoliths .....  | 111        |
| The Origin and Differentiation of Magma.....                                      | 111        |
| Origin of Magma .....   | 111        |
| Differentiation of Magma .....  | 112        |
| Igneous Rocks and Plate Tectonics .....   | 114        |
| Generation of Magma at Divergent Plate Boundaries .....                           | 114        |
| Generation of Magma at Convergent Plate Boundaries .....                          | 115        |
| Generation of Magma in Mantle Plumes.....   | 116        |
| <i>GeoLogic: Laccoliths of the Henry Mountains</i> .....                          | 117        |
| <b>Chapter 5 Sedimentary Rocks .....</b>  | <b>120</b> |
| The Nature of Sedimentary Rocks .....   | 122        |
| Types of Sedimentary Rocks .....  | 125        |
| Clastic Sedimentary Rocks .....   | 125        |
| Biochemical and Chemical Sedimentary Rocks .....                                  | 128        |
| Sedimentary Structures.....   | 131        |
| Stratification .....  | 131        |
| Cross-Bedding.....  | 131        |
| Graded Bedding.....   | 131        |
| Ripple Marks, Mud Cracks, and Other Surface Impressions.....                      | 133        |
| Fossils and Trace Fossils.....  | 134        |
| Sedimentary Systems.....  | 135        |
| Weathering .....  | 135        |
| Transportation .....  | 135        |
| Deposition .....  | 136        |
| Compaction and Cementation.....   | 143        |
| Stratigraphic Sequences .....   | 143        |
| Sequence Stratigraphy .....   | 143        |
| Sedimentary Systems and Plate Tectonics .....                                     | 145        |
| <i>State of the Art: Ocean Drilling Programs: Probing the Deep Blue Sea</i> ..... | 147        |
| <i>GeoLogic: Sedimentary Rocks at Dead Horse Point</i> .....                      | 149        |
| <b>Chapter 6 Metamorphic Rocks .....</b>  | <b>152</b> |
| The Nature of Metamorphic Rocks .....   | 154        |
| Origin of Metamorphic Rocks .....   | 157        |
| Temperature Changes .....   | 157        |
| <i>State of the Art: Rock Metamorphism in the Laboratory</i> .....                | 159        |
| Pressure Changes.....   | 160        |
| Movement of Fluid .....   | 160        |
| Deformation .....   | 161        |

|  |     |
|--|-----|
| <b>Types of Metamorphic Rocks</b>                                  | 163 |
