

# TABLE OF CONTENTS

1 INTRODUCTION .....	5
2 THEORY .....	6
2.1 Influence of the crack microstructure on the fracture parameters.....	8
3 AIMS OF THE THESIS .....	9
4 USED METHODS AND MODELS .....	11
4.1 Cylindrical specimen.....	11
4.2 CTS specimen .....	12
4.3 FE modelling.....	13
5 RESULTS .....	15
5.1 Model simplifications (cylindrical specimen).....	15
5.2 Mode III crack propagation (cylindrical specimen).....	17
5.3 Uniform crack roughness (CTS specimen).....	18
5.4 Tilt and twist of the crack front (CTS specimen).....	22
5.5 Fully random crack front and flanks geometry (CTS specimen).....	23
6 CONCLUSIONS .....	24
REFERENCES .....	26
CURRICULUM VITAE.....	29
ABSTRACT .....	30
