

# BRIEF CONTENTS

## **PART 1** GUIDING ELEMENTARY MATHEMATICS WITH STANDARDS 1

- 1** Elementary Mathematics for the 21st Century 1
- 2** Defining a Comprehensive Mathematics Program 13
- 3** Mathematics for Every Child 27
- 4** Learning Mathematics 55
- 5** Organizing Effective Instruction 69
- 6** Integrating Assessment 95

## **PART 2** MATHEMATICAL CONCEPTS, SKILLS, AND PROBLEM SOLVING 113

- 7** Developing Problem-Solving Strategies 113
- 8** Developing Concepts of Number 135
- 9** Extending Number Concepts and Number Systems 163
- 10** Developing Number Operations with Whole Numbers 193
- 11** Extending Computational Fluency with Larger Numbers 237
- 12** Developing Understanding of Common and Decimal Fractions 261
- 13** Extending Understanding of Common and Decimal Fractions 299
- 14** Developing Aspects of Proportional Reasoning: Ratio, Proportion, and Percent 347
- 15** Thinking Algebraically 373
- 16** Developing Geometric Concepts and Systems 411
- 17** Developing and Extending Measurement Concepts 463
- 18** Understanding and Representing Concepts of Data 519
- 19** Investigating Probability 557

**Appendix A** Common Core Content Standards for Mathematics 581

**Appendix B** Common Core State Standards for Mathematical Practices 594

**Appendix C** Black-Line Masters 597

## PART 1

### GUIDING ELEMENTARY MATHEMATICS WITH STANDARDS 1

#### 1 Elementary Mathematics for the 21st Century 1

- 1-1 Solving Problems Is Basic 2
- 1-2 A Comprehensive Vision of Mathematics 3
  - 1-2a Revised NCTM Standards 3
  - 1-2b Common Core State Standards for Mathematics 3
  - 1-2c Principles of Mathematics Teaching 5
  - 1-2d Essential Elements 9
- 1-3 Implementing the Common Core and *Principles to Actions* 10
  - Summary 11

#### 2 Defining a Comprehensive Mathematics Program 13

- 2-1 What Elementary Children Need to Know in Mathematics 13
  - 2-1a Numbers and Number Operations 14
  - 2-1b Geometry 15
  - 2-1c Measurement 16
  - 2-1d Data Analysis 17
  - 2-1e Probability 18
  - 2-1f Algebra 19
- 2-2 Common Core Standards for Mathematical Practice 20
  - 2-2a MP1: Make Sense of Problems and Persevere in Solving Them 21
  - 2-2b MP2: Reason Abstractly and Quantitatively 21
  - 2-2c MP3: Construct Viable Arguments and Critique the Reasoning of Others 21

- 2-2d MP4: Model with Mathematics 22
- 2-2e MP5: Use Appropriate Tools Strategically 22
- 2-2f MP6: Attend to Precision 22
- 2-2g MP7: Look for and Make Use of Structure 22
- 2-2h MP8: Look for and Express Regularity in Repeated Reasoning 22
- 2-3 Problem Solving 23
- 2-4 Integrating Process and Content Standards 24
  - Summary 25

#### 3 Mathematics for Every Child 27

- 3-1 Equity in Mathematics Learning 28
- 3-2 Gender 28
- 3-3 Ethnic and Cultural Differences 31
  - 3-3a Multiculturalism 32
  - 3-3b Ethnomathematics 33
- 3-4 Culturally and Linguistically Diverse Students 36
- 3-5 Technological Equity 40
- 3-6 Students Who Have Difficulty Learning Mathematics 40
  - 3-6a Response to Intervention 43
- 3-7 Gifted and Talented Students 44
  - 3-7a Differentiated Instruction 47
- 3-8 Individual Learning Schemes 47
  - 3-8a Multiple Intelligences 47
  - 3-8b Learning Styles 48
- 3-9 Math Anxiety 49
  - 3-9a Remedies for Math Anxiety 50
  - Summary 53

#### 4 Learning Mathematics 55

- 4-1 Theories of Learning 55
  - 4-1a Behaviorism 56
  - 4-1b Cognitive Theories of Learning 56
  - 4-1c Developmental Stages in Learning 57
  - 4-1d Constructivist Learning 58
  - 4-1e Focus on Meaning 58

<b>4-2</b>	Representation of Mathematical Concepts	59	<b>5-4c</b>	Cooperative Group Learning	84
<b>4-3</b>	Learning Procedures	59	<b>5-4d</b>	The Flipped Classroom	86
<b>4-4</b>	Learning and Teaching Constructively	60	<b>5-4e</b>	Encouraging Mathematical Conversations	86
4-4a	The Brain and Learning	60	<b>5-5</b>	Managing the Instructional Environment	86
4-4b	Brain-Compatible Learning	61	5-5a	Time	86
4-4c	The Implications of Brain Research on Mathematics Learning	61	5-5b	Arranging Classroom Space	87
<b>4-5</b>	Research in Learning and Teaching Mathematics	63	5-5c	Utilizing Learning Centers	87
4-5a	Utilizing Research	63	5-5d	Using Manipulatives	88
4-5b	National and International Research on Mathematics	64	5-5e	Selecting Textbooks and Other Printed Materials	91
4-5c	Reviews of Research	64	5-5f	Using Technology	91
4-5d	Teachers and Classroom Action Research	66	5-5g	Sharing Children's Literature	93
	Summary	67		Summary	93
<b>5</b>	Organizing Effective Instruction	69	<b>6</b>	Integrating Assessment	95
5-1	Characteristics of Effective Mathematics Teaching	69	6-1	Connecting Curriculum, Instruction, and Assessment	95
5-2	Planning Mathematics Instruction	72	6-2	Planning for Assessment	96
5-2a	Long-Range Planning	72	6-2a	Performance Objectives and Tasks	96
5-2b	Unit Planning	72	6-2b	Creating Assessment Tasks	97
5-2c	Instructional Approaches for Daily Planning	75	6-2c	Collecting and Recording Assessment Information	98
5-3	Varying Teaching Approaches	75	6-2d	Analyzing Student Performance and Making Instructional Decisions	103
5-3a	Informal or Exploratory Activities	75	6-3	Implementing Assessment with Instruction	103
5-3b	Directed Teaching/Thinking Lessons	76	6-3a	Preassessment	103
5-3c	Learner-Focused Instructional Model	77	6-3b	During Instruction	104
5-3d	Writing Daily Plans	79	6-3c	Self-Assessment during Instruction	106
5-3e	Problem-Based Projects and Investigations	81	6-3d	Writing as Assessment	107
5-3f	Integrating Multiple Approaches	82	6-3e	Assessment at the End of Instruction	107
5-3g	Making Instructional Decisions	82	6-4	Interpreting and Using Standardized Tests in Classroom Assessment	109
5-4	Practice	82	6-4a	Types of Standardized Tests	109
5-4a	Homework	83	6-4b	Concerns about Standardized Testing	110
5-4b	Grouping	83		Summary	111

## PART 2

### MATHEMATICAL CONCEPTS, SKILLS, AND PROBLEM SOLVING 113

#### 7 Developing Problem-Solving Strategies 113

- 7-1 The Role of Problem Solving in Mathematics 114
- 7-2 Teaching Mathematics through Problem Solving 114
  - 7-2a Four-Step Problem-Solving Process 114
  - 7-2b Twelve Strategies: Tools for Problem Solving 115
- 7-3 Implementing a Problem-Solving Curriculum 133
  - Summary 134

#### 8 Developing Concepts of Number 135

- 8-1 The Role and Importance of Numbers 135
- 8-2 Early Thinking–Learning Skills 136
  - 8-2a Matching and Discriminating, Comparing and Contrasting 136
  - 8-2b Classifying 140
  - 8-2c Ordering, Sequence, and Seriation 142
  - 8-2d Patterning 144
- 8-3 Number Concepts 144
  - 8-3a What Teachers Should Know about the Base-10 Numeration System 144
  - 8-3b Number Types and Their Uses 145
  - 8-3c Counting and Early Number Concepts 146
  - 8-3d Conservation of Number or Number Constancy 148
- 8-4 Linking Number and Numeral 152
  - 8-4a Writing Numerals 153
  - 8-4b Misconceptions and Problems with Counting and Numbers 155
- 8-5 Developing Other Number Skills 156
  - 8-5a Introducing Ordinal Numbers 156

- 8-5b Skip Counting 156
- 8-5c Odd and Even Numbers 158
- Summary 159

#### 9 Extending Number Concepts and Number Systems 163

- 9-1 Number Sense Every Day 163
- 9-2 Understanding the Base-10 Numeration System 165
  - 9-2a Exchanging, Trading, or Regrouping 166
  - 9-2b Assessing Place-Value Understanding 171
- 9-3 Working with Larger Numbers 173
- 9-4 Thinking about Reasonableness with Numbers 179
  - 9-4a Rounding 180
  - 9-4b Estimation 182
- 9-5 Other Number Concepts 185
  - 9-5a Sequences and Patterns 185
  - 9-5b Odd and Even Numbers 185
  - 9-5c Prime and Composite Numbers 186
  - 9-5d Integers 187
  - Summary 190

#### 10 Developing Number Operations with Whole Numbers 193

- 10-1 Building Number Operations 193
  - 10-1a Developing Fluency in Number Operations 194
- 10-2 What Teachers Need to Know about Using Manipulatives 195
- 10-3 What Teachers Need to Know about Addition and Subtraction 197
- 10-4 Developing Addition and Subtraction Concepts 198
  - 10-4a Introducing Addition 199
  - 10-4b Introducing Subtraction 203
  - 10-4c Using Vertical Notation 207

- 10-5** What Teachers Need to Know about Properties of Addition and Subtraction 208
  - 10-5a** Strategies for Learning Addition and Subtraction Facts 209
  - 10-5b** Building Accuracy and Speed with Basic Facts 213
- 10-6** Learning Multiplication and Division 217
  - 10-6a** What Teachers Need to Know about Multiplication and Division 218
  - 10-6b** Multiplication Situations, Meanings, and Actions 218
  - 10-6c** Division Situations, Meanings, and Actions 220
- 10-7** Developing Multiplication and Division Concepts 221
  - 10-7a** Introducing Multiplication 221
  - 10-7b** Introducing Division 225
  - 10-7c** Working with Remainders 228
- 10-8** What Teachers Need to Know about Properties of Multiplication and Division 229
  - 10-8a** Strategies for Learning Multiplication and Division Facts 230
  - 10-8b** Building Accuracy and Speed with Multiplication and Division Facts 233
  - Summary 235
- 11** Extending Computational Fluency with Larger Numbers 237
  - 11-1** Number Operations with Larger Numbers 237
  - 11-2** Addition and Subtraction Strategies for Larger Numbers 238
    - 11-2a** Algorithms for Addition 239
    - 11-2b** Other Algorithms for Addition 240
    - 11-2c** Algorithms for Subtraction 242
    - 11-2d** Other Algorithms for Subtraction 244
    - 11-2e** Mental Computation 246
  - 11-3** Multiplying and Dividing Larger Numbers 247
    - 11-3a** Decade Multiplication 250
    - 11-3b** Extending Algorithms for Larger Numbers 251
    - 11-3c** Division Algorithms 253
  - 11-4** Number Sense, Estimation, and Reasonableness 257
    - Summary 260
- 12** Developing Understanding of Common and Decimal Fractions 261
  - 12-1** What Teachers Need to Know about Teaching Common Fractions and Decimal Fractions 262
  - 12-2** Six Situations Represented by Common Fractions 263
    - 12-2a** Unit Partitioned into Equal-Size Parts 263
    - 12-2b** Fractions Represented on a Number Line 263
    - 12-2c** Set Partitioned into Equal-Size Groups 266
    - 12-2d** Comparison Model 266
    - 12-2e** Expressions of Ratios 266
    - 12-2f** Indicated Division 267
  - 12-3** Introducing Common Fractions to Children 268
    - 12-3a** Partitioning Single Things 268
    - 12-3b** Assessing Knowledge of Common Fractions 270
    - 12-3c** Fractional Numbers Greater Than 1 275
  - 12-4** Introducing Decimal Fractions 280
    - 12-4a** Introducing Tenths 281
    - 12-4b** Introducing Hundredths 281
    - 12-4c** Introducing Smaller Decimal Fractions 284
    - 12-4d** Introducing Mixed Numerals with Decimal Fractions 285
  - 12-5** Comparing Fractional Numbers 287
    - 12-5a** Comparing Common Fractions 288
    - 12-5b** Comparing Common and Decimal Fractions with Number Lines 288

- 12-5c Equivalent Fractions 292
- 12-5d Ordering Fractions 293
- 12-6 Rounding Decimal Fractions 294
- Summary 297

### **13 Extending Understanding of Common and Decimal Fractions 299**

- 13-1 Standards and Fractional Numbers 300
- 13-2 Extending Understanding of Decimal Fractions 300
  - 13-2a Decimal Fractions and Number Density 300
  - 13-2b Expanded Notation for Decimal Fractions 302
  - 13-2c Addition and Subtraction with Common and Decimal Fractions 302
- 13-3 Addition and Subtraction with Common Fractions 302
  - 13-3a Adding and Subtracting with Like Denominators 304
  - 13-3b Using Algorithms to Compute with Fractional Numbers 305
  - 13-3c Adding and Subtracting When Denominators Are Different 307
  - 13-3d Adding and Subtracting with Mixed Numerals 310
  - 13-3e Least Common Multiples and Greatest Common Factors 313
- 13-4 Using a Calculator to Develop Understanding of Common Fractions 316
  - 13-4a Simplifying Common Fractions 316
  - 13-4b Computing with Common Fractions 316
- 13-5 Addition and Subtraction with Decimal Fractions 316
- 13-6 Multiplication and Division with Common Fractions 319
  - 13-6a Multiplying a Common Fraction by a Whole Number 320
  - 13-6b Multiplying a Whole Number by a Common Fraction 325

- 13-6c Multiplying a Common Fraction by a Common Fraction 326
- 13-6d Multiplying Mixed Numerals 326
- 13-6e Division with Common Fractions 329
- 13-6f Understanding Division Algorithms 331

- 13-7 Developing Number Sense about Operations with Common Fractions 334
- 13-8 Renaming Fractions in Simpler Terms 335
- 13-9 Multiplying and Dividing with Decimal Fractions 336
  - 13-9a Multiplying with Decimal Fractions 336
  - 13-9b Dividing with Decimal Fractions 338
  - 13-9c Relating Common Fractions to Decimal Fractions 341
- 13-10 Using a Calculator to Develop Understanding of Decimal Fractions 341
- Summary 343

### **14 Developing Aspects of Proportional Reasoning: Ratio, Proportion, and Percent 347**

- 14-1 What Teachers Should Know about Teaching Proportional Reasoning 348
- 14-2 Ratios as a Foundation of Proportional Reasoning 348
  - 14-2a Meanings of Ratio 348
- 14-3 Teaching Proportional Reasoning 351
  - 14-3a Comparing Ratios with Double Line Graphs and Lines on Coordinate Axes 353
  - 14-3b Developing Proportional Reasoning Using Rate Pairs and Tables 353
  - 14-3c Solving Proportion Problems Using Tape Diagrams 356
- 14-4 Working with Proportions 357
  - 14-4a Using Equivalent Fractions 357
  - 14-4b Solving Proportions Using a Multiples Table 358
  - 14-4c Solving for Proportion Using the Cross-Product Algorithm 361

- 14-5** Developing and Extending Concepts of Percent 362
  - 14-5a** Meaning of Percent 362
  - 14-5b** Teaching and Learning about Percent 363
  - 14-5c** Working with Percent 365
  - 14-5d** Proportional Reasoning and Percent 370
  - 14-5e** Working with Percents Greater Than 100 370
  - Summary 371
- 15** Thinking Algebraically 373
  - 15-1** Building Algebraic Reasoning 373
  - 15-2** What Teachers Should Know about Teaching Algebra 374
    - 15-2a** Patterning as Algebraic Thinking 374
    - 15-2b** Patterns in Mathematics Learning and Teaching 375
  - 15-3** Variables and Equations in Mathematics and Algebraic Thinking 382
  - 15-4** Equations in Algebraic Thinking 385
  - 15-5** Functions in Algebraic Thinking 389
  - 15-6** Extending Algebraic Thinking 392
    - 15-6a** Using Tape Diagrams 392
    - 15-6b** Extending Understanding of Patterning 393
    - 15-6c** Extending Understanding of Equations 398
    - 15-6d** Extending the Meaning of Functions 401
    - 15-6e** Understanding Order of Operations 404
    - Summary 408

## **16** Developing Geometric Concepts and Systems 411

- 16-1** Children's Development of Spatial Sense 412
- 16-2** What Teachers Need to Know about Teaching Geometry 413

- 16-3** Development of Geometric Concepts: Stages of Geometry Understanding 417

## **16-4** Teaching and Learning about Topological Geometry 419

- 16-4a** Proximity and Relative Position 419
- 16-4b** Separation 420
- 16-4c** Order 420
- 16-4d** Enclosure 421
- 16-4e** Topological Mazes and Puzzles 421

## **16-5** Teaching and Learning about Euclidean Geometry 422

- 16-5a** Geometry in Two Dimensions: Plane Figures 422
- 16-5b** Points, Lines, Rays, Line Segments, and Angles 426
- 16-5c** Geometry in Three Dimensions: Space Figures 430
- 16-5d** Geometric Properties: Symmetry 432
- 16-5e** Geometric Properties: Congruence and Similarity 435

## **16-6** Teaching and Learning about Transformational Geometry 437

## **16-7** Teaching and Learning about Coordinate Geometry 439

## **16-8** Extending Geometry Concepts 441

- 16-8a** Classifying Polygons 445
- 16-8b** Extending Geometry in Three Dimensions 449
- 16-8c** Extending Congruence and Similarity 449
- 16-8d** Extending Concepts of Symmetry 451
- 16-8e** Extending Concepts of Transformational Geometry 451
- Summary 460

## **17** Developing and Extending Measurement Concepts 463

- 17-1** Measurement Activities Before the Elementary Years 463

## **17-2** Direct and Indirect Measurement 464

**17-2a** Measuring Processes 464

**17-2b** Direct Measurement 465

**17-2c** Indirect Measurement 465

## **17-3** What Teachers Should Know about Teaching Measurement 466

**17-3a** Approximation, Precision, and Accuracy 466

**17-3b** Selecting Appropriate Units and Tools 467

**17-3c** Measurement Systems 467

## **17-4** A Teaching/Learning Model for Measurement 470

## **17-5** Activities to Develop Measurement Concepts and Skills 473

**17-5a** Nonstandard Units of Measure 473

**17-5b** Standard Units of Measure 475

## **17-6** Teaching Children about Measurement 477

**17-6a** Teaching Children about Measuring Length 477

**17-6b** Teaching Children about Measuring Area 478

**17-6c** Teaching Children about Measuring Capacity and Volume 480

**17-6d** Teaching Children about Measuring Mass and Weight 480

**17-6e** Teaching Children about Measuring Angles 480

**17-6f** Teaching Children about Measuring Temperature 481

**17-6g** Teaching Children about Measuring Time 482

**17-6h** Teaching Children about Money 487

## **17-7** Extending Measurement Concepts 488

**17-7a** Extending Concepts about Length 488

**17-7b** Extending Concepts about Area 493

**17-7c** Extending Capacity and Volume Concepts 503

**17-7d** Extending Mass and Weight Concepts 506

**17-7e** Extending Angle Concepts 507

**17-7f** Extending Temperature Concepts 512

**17-7g** Extending Concepts of Time 513

## **17-8** Measurement Problem Solving and Projects 515 Summary 515

## **18** Understanding and Representing Concepts of Data 519

**18-1** Data in the Standards 519

**18-2** Data Collection 520

## **18-3** What Teachers Should Know about Understanding and Representing Concepts of Data 521

**18-3a** Organizing Data in Tables 521

**18-3b** Object and Picture Graphs 524

**18-3c** Bar Graphs 526

## **18-4** Extending Data Concepts 530

**18-4a** Using Graphs to Work with Data 530

**18-4b** Using Bar Graphs to Compare Two Groups 532

**18-4c** Histograms 534

**18-4d** Line Graphs 535

**18-4e** Circle Graphs 537

**18-4f** Stem-and-Leaf Plots 540

**18-4g** Box-and-Whisker Plots 542

**18-4h** Hat Plots 544

## **18-5** Statistics 545

## **18-6** Extending Children's Understanding of Statistics 546 Summary 554

## **19** Investigating Probability 557

**19-1** Probability in the Elementary Years 557

**19-2** Two Types of Probability 560

## **19-3** What Teachers Should Know about Teaching Probability 562

- 19-4** Extending Probability
  - Understanding 563
- 19-5** Probability Investigations 564
  - 19-5a** Combinations 569
  - 19-5b** Sampling 571
- 19-6** Geometric Probability 571
- 19-7** Expected Value 576
- 19-8** Simulations 578
  - Summary 579

## **Appendix A: Common Core Content**

Standards for Mathematics 581

## **Appendix B: Common Core State Standards for Mathematical Practices 594**

## **Appendix C: Black-Line Masters 597**
