Introduction	1
What Is Mathematics?	
Applied Mathematics Is Bad Mathematics <i>Paul R. Halmos</i>	9
Solving Equations Is Not Solving Problems <i>Jerome Spanier</i>	21
The Unexpected Art of Mathematics <i>Jerry P. King</i>	29
Redefining the Mathematics Major <i>Alan Tucker</i>	39
Purity in Applications <i>Tim Poston</i>	49
Growth and New Intuitions: Can We Meet the Challenge? <i>William F. Lucas</i>	55
Teaching and Learning Mathematics	
Avoiding Math Avoidance <i>Peter J. Hilton</i>	73
Learning Mathematics <i>Anneli Lax and Giuliana Groat</i>	83
Teaching Mathematics <i>Abe Shenitzer</i>	95
Read the Masters! <i>Harold M. Edwards</i>	105
Mathematics as Propaganda <i>Neal Koblitz</i>	111
Mathematicians Love Books <i>Walter Kaufmann-Bühler, Alice Peters, and Klaus Peters</i>	121

A Faculty in Limbo	
<i>Donald J. Albers</i>	127
Junior's All Grown Up Now	
<i>George M. Miller</i>	135
NSF Support for Mathematics Education	
<i>E. P. Miles, Jr.</i>	139
Issues of Equality	
The Real Energy Crisis	
<i>Eileen L. Poiani</i>	155
Women and Mathematics	
<i>Alice T. Schafer</i>	165
Spatial Separation in Family Life: A Mathematician's Choice	
<i>Marian Boykan Pour-El</i>	187
Mathematics for Tomorrow	
Applications of Undergraduate Mathematics	
<i>Ross L. Finney</i>	197
The Decline of Calculus—The Rise of Discrete Mathematics	
<i>Anthony Ralston</i>	213
Mathematical Software: How to Sell Mathematics	
<i>Paul T. Boggs</i>	221
Physics and Mathematics	
<i>Hartley Rogers, Jr.</i>	231
Readin', 'Ritin', and Statistics	
<i>Tim Robertson and Robert V. Hogg</i>	237
Mathematization in the Sciences	
<i>Maynard Thompson</i>	243
