

# Table of Contents

## Preface

## 1. INTRODUCTORY SECTIONS

<i>Consensus, negotiation and mediation</i>	3
K. Lehrer	
<i>Fuzziness and the normative theory of social choice</i>	17
P.K. Pattanaik	
<i>Types and measures of uncertainty</i>	29
J. Klir and D. Harmanec	

## 2. TOOLS AND TECHNIQUES FOR MEASURING AND MONITORING CONSENSUS REACHING

<i>"Soft" degrees of consensus under fuzzy preferences and fuzzy majorities</i>	55
J. Kacprzyk, M. Fedrizzi and H. Nurmi	
<i>An approach to the consensus reaching support in fuzzy environment</i>	83
S. Zadrozny	
<i>The dichotomous approach to soft consensus measurement</i>	111
S. Greco	
<i>Consensus based on fuzzy coincidence for group decision making in linguistic setting</i>	121
F. Herrera, E. Herrera-Viedma and J.L. Verdegay	
<i>Modeling preference relations and consensus in a linguistic environment: an approach based on OWA operators</i>	147
G. Bordogna, M. Fedrizzi and G. Pasi	

### 3. NEW PARADIGMS AND ARCHITECTURES FOR MODELING CONSENSUS REACHING

<i>Protocol for negotiations among multiple intelligent agents</i> R.R. Yager	165
--	-----

<i>The development of fuzzy consensus via neural modelling</i> W. Pedrycz	175
--	-----

### 4. AUXILIARY FORMAL TOOLS AND TECHNIQUES FOR MODELING CONSENSUS REACHING

Consensus for decomposable measures J. Fodor, D. Dubois, H. Prade and M. Roubens	191
---	-----

Construction of fuzzy utility functions in group decision making F. Seo	211
--	-----

<i>Problem solving with multiple interdependent criteria</i> C. Carlsson and R. Fuller	231
---	-----

<i>Lexicographical solutions in n-person cooperative games with multiple scenarios</i> M. Sakawa and I. Nishizaki	247
--	-----

### 5. APPLICATIONS AND CASE STUDIES

<i>Identification of ideological dimensions under fuzziness: the case of Poland</i>	267
---	-----

J. Holubiec, A. Malkiewicz, M. Mazurkiewicz,  
J. Mercik and D. Wagner

Determining weights of research topics on the basis of expert judgments. The case of Systems Research Institute D. Wagner	285
---	-----

INDEX	301
