3 Building an Effective Reading Curriculum: Guiding Principles

28

Principle #1:

*Asking Students to Read for Well-Defined Purposes,
Rather than Simply Asking Students to Read
(for No Purpose at All), Should Guide Reading and
Re-Reading Tasks* 29

Principle #2:

*Reading a Lot and Reading Often Are Crucial for
Reading-Skills Development* 31

Principle #3:

*Reading Requires the Coordination of Numerous Reading
Abilities that Should Be Addressed Explicitly
Across a Reading Curriculum* 31

Principle #4:

*Teaching (Rather than Testing) for Main-Idea
Comprehension Should Be a Standard Component of
Classroom Instruction* 32

Principle #5:

*Training Strategic Readers Is More Effective
than Teaching Reading Strategies One at a Time* 33

Principle #6:

*Making a Commitment to Vocabulary Teaching and
Learning Is Foundational to Students' Reading
Success* 34

Principle #7:

*Reading Fluently—at Word and Passage Levels—Is
Essential for Efficient Reading Comprehension
Abilities* 34

Principle #8:

Building Students' Motivation to Read Is Essential 36

Principle #9:

*Connecting Reading to Writing Prepares
Students for the Realities of Most Academic Contexts* 37

Principle #10:

*Assessing Students' Reading Progress Is an
Essential Part of Teaching, Curriculum Development,
and Student Learning* 38

Principle #11:

*Selecting and Adapting Texts Should Be
Driven by Students' Proficiency Levels, Current and
Future Reading Needs, and Interests* 39

Principle #12:

*Structuring Lessons around a Pre-Reading,
During-Reading, and Post-Reading Framework Should
Guide Class Planning* 41
