Subject Index	168

Detailed Contents

Preface	ix
About the Author	xi
1. Introduction	1
Reasons for Surveys	1
Components of Surveys	3
Purposes and Goals of This Text	7
2. Types of Error in Surveys	8
Error Associated With Who Answers	9
Error Associated With Answers	11
Recapping the Nature of Error in Surveys	12
3. Sampling	14
The Sample Frame	15
Selecting a One-Stage Sample	18
Multistage Sampling	21
Drawing Samples From Two or More Sample Frames	30
Making Estimates From Samples and Sampling Errors	32
How Big Should a Sample Be?	37
Sampling Error as a Component of Total Survey Error	39
4. Nonresponse: Implementing a Sample Design	42
Calculating Response Rates	43
Bias Associated With Nonresponse	43
Reducing Nonresponse	49
Two Other Approaches to Reducing Nonresponse Error	54
Nonprobability (or Modified Probability) Samples	55
Nonresponse as a Source of Error	58
5. Methods of Data Collection	61
Major Issues in Choosing a Strategy	61
Summary Comparison of Methods	71
Conclusion	73
6. Designing Questions to Be Good Measures	75
Increasing the Reliability of Answers	76
Types of Measures/Types of Questions	86

Increasing the Validity of Factual Reporting	91
Increasing the Validity of Answers Describing Subjective States	96
Question Design and Error	97
7. Evaluating Survey Questions and Instruments	99
Defining Objectives	100
Preliminary Question Design Steps	100
Presurvey Evaluation	102
Design, Format, and Layout of Survey Instruments	104
Field Pretests	105
Survey Instrument Length	108
Conclusion	109
8. Survey Interviewing	110
Overview of Interviewer Job	110
Interviewer Recruitment and Selection	113
Training Interviewers	115
Supervision	117
Survey Questions	120
Interviewing Procedures	120
Validation of Interviews	122
The Role of Interviewing in Survey Error	123
9. Preparing Survey Data for Analysis	127
Formatting a Data File	127
Constructing a Code	128
Approaches to Coding and Data Entry	129
Data Cleaning	132
Coding, Data Entry, and File Creation as Sources of Errors	132
10. Analyzing Survey Data	134
Adjusting for Sample Nonresponse and Sample Frame Deficiencies	134
Coping With Item Nonresponse	136
Adjusting for Different Probabilities of Selection	137
Calculating Sampling Errors	138
Conclusion	139
11. Ethical Issues in Survey Research	140
Informing Respondents	141
Protecting Respondents	142
Benefits to Respondents	144
Ethical Responsibilities to Interviewers	144
Conclusion	145

12. Providing Information About Survey Methods	146
13. Survey Error in Perspective	150
The Concept of Total Survey Design	150
Error in Perspective	150
Conclusion	153
References	155
Author Index	164
Subject Index	168
