Part 1: Overview of Managerial Economics

1

Chapter 1: Nature and Scope of Managerial Economics 3

How is Managerial Economics Useful?	3
Managerial Application 1.1 Business Ethics	5
Theory of the Firm	7
Profit Measurement	11
Managerial Application 1.2 The World is Turning to Capitalism and Democracy	13
Why do Profits Vary Among Firms?	14
Managerial Application 1.3 Google on Social Responsibility	15
Role of Business in Society	16
Managerial Application 1.4 The IKEA way	18
Structure of this Text	18
Summary	20
Questions	20
Case Study: Is Coca-Cola the 'Perfect' Business?	21
Selected References	24

Chapter 2: Economic Optimization 25

Economic Optimization Process	25
Revenue Relations	27
Managerial Application 2.1 Ethical Aspects of Corporate Governance	28
Managerial Application 2.2 Do Firms Really Optimize?	33
Cost Relations	34
Profit Relations	38
Incremental Concept in Economic Analysis	42
Managerial Application 2.3 Behavioural Economics	43

Summary	45
Questions	46
Self-Test Problems and Solutions	47
Problems	52
Case Study: Spreadsheet Analysis of the EOQ at the Neighborhood Pharmacy, Inc.	56
Selected References	57

Appendix 2A: Maths Analysis for Managers 58

Properties of Real Numbers	58
Equations	60
Concept of a Marginal	63
Rules for Differentiating a Function	65

Appendix 2B: Multivariate Optimization and the Lagrangian Technique 72

Partial Derivative Concept	72
Maximizing Multivariate Functions	73
Constrained Optimization	74
Problem	80

Chapter 3: Demand and Supply 81

Basis for Demand	81
Managerial Application 3.1 Energy Consumption in the World	83
Market Demand Function	83
Demand Curve	85
Basis for Supply	88
Market Supply Function	89
Supply Curve	91
Market Equilibrium	94
Summary	100

Questions	101	Case Study: Spreadsheet Analysis of Demand and Supply for Sunbest Orange Juice	108
Self-Test Problems and Solutions	101		
Problems	104	Selected References	110

Part 2: Demand Analysis and Estimation

111

Chapter 4: Demand Analysis

113

Consumer Decision-Making	113
Managerial Application 4.1 Odd-Number Pricing Riddle	119
Indifference Curves	119
Budget Constraints	121
Individual Demand	125
Optimal Consumption	131
Managerial Application 4.2 Relationship Marketing	132
Demand Sensitivity Analysis: Elasticity	135
Price Elasticity of Demand	136
Price Elasticity and Marginal Revenue	140
Managerial Application 4.3 Haggling in the Car Business	144
Price Elasticity and Optimal Pricing Policy	144
Cross-Price Elasticity of Demand	146
Income Elasticity of Demand	147
Managerial Application 4.4 What's in a Name?	149
Summary	149
Questions	150
Self-Test Problems and Solutions	151
Problems	156
Case Study: Optimal Level of Advertising	159
Selected References	160

Chapter 5: Demand Estimation

161

Interview and Experimental Methods	161
Simple Demand Curve Estimation	162
Managerial Application 5.1 Sampling Technology for TV Advertising	163
Simple Market Demand Curve Estimation	165
Identification Problem	168
Regression Analysis	172

Managerial Application 5.2 Market Experiments on the Web	172
Measures of Regression Model Significance	177
Judging Variable Significance	182
Summary	184
Questions	185
Self-Test Problems and Solutions	185
Problems	190
Case Study: Demand Estimation for Mrs. Smyth's Pies	194
Selected Reference	196

Chapter 6: Forecasting

197

Forecasting Applications	197
Managerial Application 6.1 Economic Forecasting: The Art and the Science	199
Qualitative Analysis	200
Trend Analysis and Projection	201
Managerial Application 6.2 Crypto Predictions	206
Business Cycle	206
Managerial Application 6.3 The Stock Market and the Business Cycle	213
Exponential Smoothing	214
Econometric Forecasting	217
Managerial Application 6.4 How Good is Your Forecasting Ability?	218
Judging Forecast Reliability	221
Choosing the Best Forecast Technique	223
Summary	225
Questions	226
Self-Test Problems and Solutions	227
Problems	231
Case Study: Forecasting Global Performance for a Mickey Mouse Organization	235
Selected Reference	238

Part 3: Production and Competitive Markets

239

Chapter 7: Production Analysis

241

Factors of Production	241
The Short Run	242
The Long Run	242
Production Functions	242
Input–Output Analysis	242
Total, Marginal, and Average Product	244
Law of Marginal Returns to a Factor	251
Law of Diminishing Returns to a Factor	251
Managerial Application 7.1 Efficiency Wages	252
Input Combination Choice	255
Marginal Revenue Product and Optimal Employment	259
Managerial Application 7.2 National Minimum Wages in the EU	260
Optimal Combination of Multiple Inputs	262
Optimal Levels of Multiple Inputs	266
Returns to Scale	267
Productivity Measurement	269
Managerial Application 7.3 Labour Productivity Growth in Selected Countries 2009–2016	270
Summary	271
Questions	272
Self-Test Problems and Solutions	273
Problems	276
Case Study: Worker Productivity Among Giant US Corporations	280
Selected References	283
Appendix 7A: A Constrained Optimization Approach to Developing the Optimal Input Combination Relationships	284
Constrained Production Maximization	284
Constrained Cost Minimization Problem	286
	287
Chapter 8: Cost Analysis and Estimation	289
Economic and Accounting Costs	289
Role of Time in Cost Analysis	291
Managerial Application 8.1 GE's '20-70-10' Plan	292
Short-Run Cost Curves	293
Long-Run Cost Curves	296

Managerial Application 8.2 GAAP and IRFS	296
Managerial Application 8.3 Cost Stickiness	300
Minimum Efficient Scale	301
Firm Size and Plant Size	302
Learning Curves	308
Managerial Application 8.4 Bigger Isn't Always Better	308
Economies of Scope	311
Cost–Volume–Profit Analysis	312
Summary	317
Questions	318
Self-Test Problems and Solutions	318
Problems	321
Case Study: Estimating Hospitalization Costs for Regional Hospitals	324
Selected References	327

Chapter 9: Linear Programming

329

Basic Assumptions	329
Managerial Application 9.1 Karmarkar's LP Breakthrough	330
Managerial Application 9.2 LP: More than a Visual Approach	331
Production Planning for Multiple Products	331
Graphic Specification and Solution	333
Algebraic Specification and Solution	338
Managerial Application 9.3 LP on the PC!	342
Dual in Linear Programming	342
Dual Specification	343
Solving the Dual Problem	345
Summary	348
Questions	349
Self-Test Problems and Solutions	349
Problems	357
Case Study: An LP Pension Funding Model	362
Appendix 9A: Rules for Forming the Dual Linear Programming Problem	365
Primal Problem	365
Dual Problem	366
Selected References	367

Chapter 10: Competitive Markets	369	Competitive Market Efficiency	403
Competitive Environment	369	Managerial Application 11.1 The Walmart Phenomenon	407
Factors that Shape the Competitive Environment	370	Market Failure	408
Managerial Application 10.1 International Trade Benefits the Rich More Than the Poor	371	Role for Government	410
Competitive Market Characteristics	373	Subsidy and Tax Policy	411
Managerial Application 10.2 Is the Stock Market Perfectly Competitive?	374	Managerial Application 11.2 Corn Growers Discover Oil!	411
Profit Maximization in Competitive Markets	375	Tax Incidence and Burden	414
Marginal Cost and Firm Supply	379	Managerial Application 11.3 Measuring Economic Profits	418
Competitive Market Supply Curve	382	Price Controls	418
Managerial Application 10.3 Dot.com	383	Business Profit Rates	421
Competitive Market Equilibrium	386	Market Structure and Profit Rates	424
Summary	388	Competitive Market Strategy	426
Questions	389	Long-Run Firm Performance	427
Self-Test Problems and Solutions	390	Summary	427
Problems	395	Questions	429
Case Study: Profitability Effects of Firm Size for DJIA Companies	399	Self-Test Problems and Solutions	430
Selected References	401	Problems	436
Chapter 11: Performance and Strategy in Competitive Markets	403	Case Study: The Most Profitable S&P 500 Companies	441
		Selected References	444

Part 4: Imperfect Competition

445

Chapter 12: Monopoly and Monopsony	447	Questions	471
Monopoly Market Characteristics	447	Self-Test Problems and Solutions	471
Managerial Application 12.1 Commission Fines Eight Producers of Capacitors €254 Million for Participating in Cartel	449	Problems	478
Profit Maximization Under Monopoly	450	Case Study: Effect of R&D on Tobin's q	483
Social Costs of Monopoly	453	Selected References	485
Social Benefits of Monopoly	457	Chapter 13: Monopolistic Competition and Oligopoly	487
Monopoly Regulation	459	Contrast Between Monopolistic Competition and Oligopoly	487
Managerial Application 12.2 Is Ticketmaster a Monopoly?	461	Monopolistic Competition	489
Monopsony	464	Managerial Application 13.1 Dell's Price War with Dell	490
Antitrust Policy	468	Monopolistic Competition Process	493
Managerial Application 12.3 Is This Why They Call it 'Hardball'?	468	Managerial Application 13.2 Intel: Running Fast to Stay in Place	493
Competitive Strategy in Monopoly Markets	469	Oligopoly	497
Summary	470	Cartels and Collusion	498

Oligopoly Output-Setting Models	499	Self-Test Problems and Solutions	554
Oligopoly Price-Setting Models	504	Problems	557
Census Measures of Market Concentration	511	Case Study: Time Warner, Inc. is Playing Games with Stockholders	561
Managerial Application 13.3 Horizontal Merger Guidelines	513	Selected References	563
Summary	514	Chapter 15: Pricing Practices	565
Questions	515	Pricing Rules and Analysis	566
Self-Test Problems and Solutions	516	Mark-Up Pricing and Profit Maximization	567
Problem	520	Managerial Application 15.1 Mark-Up Pricing Technology	568
Case Study: Market Structure Analysis at Columbia Drugstores, Inc.	525	Price Discrimination	571
Selected References	527	Price Discrimination Example	573
Chapter 14: Game Theory and Competitive Strategy	529	Managerial Application 15.2 Do Colleges Price Discriminate?	573
Game Theory Basics	529	Two-Part Pricing	577
Managerial Application 14.1 Asymmetric Information	531	Multiple-Product Pricing	580
Prisoner's Dilemma	532	Joint Products	582
Nash Equilibrium	535	Joint Product Pricing Example	584
Infinitely Repeated Games	537	Managerial Application 15.3 10 cents for a Gallon of Gas in Dayton, Ohio	585
Managerial Application 14.2 The Market for Lemons	538	Managerial Application 15.4 Why Some Price Wars Never End	589
Finitely Repeated Games	539	Summary	589
Game Theory and Auction Strategy	541	Questions and Answers	590
Managerial Application 14.3 Wrigley's Success Formula	542	Self-Test Problems and Solutions	591
Competitive Strategy	543	Problems	593
Pricing Strategies	545	Case Study: Pricing Practices in the Denver, Colorado, Newspaper Market	597
Managerial Application 14.4 Network Switching Costs	547	Selected References	599
Nonprice Competition	548	Appendix 15A: Transfer Pricing	600
Summary	552	Transfer Pricing Problem	600
Questions	553	Global Transfer Pricing Example	602
		Problem	606

Part 5: Long-Term Investment Decisions

609

Chapter 16: Risk Analysis	611	Managerial Application 16.2 Why are Lotteries Popular?	621
Concepts of Risk and Uncertainty	611	Adjusting the Valuation Model for Risk	623
Probability Concepts	613	Managerial Application 16.3 Stock Option Backdating Scandal	624
Managerial Application 16.1 Behavioural Finance	613	Decision Trees and Computer Simulation	628
Standard Normal Concept	619	Managerial Application 16.4 Internet Fraud	633
Utility Theory and Risk Analysis	621		

Summary	634	Managerial Application 18.3 Institutional Investors are Corporate Activists	703
Questions	635	Agreements and Alliances Among Firms	703
Self-Test Problems and Solutions	636	Legal and Ethical Environment	705
Problems	639	Managerial Application 18.4 Sarbanes–Oxley	706
Case Study: Stock-Price Beta Estimation for Google, Inc.	644	Summary	707
Selected References	647	Questions	709
Chapter 17: Capital Budgeting	649	Self-Test Problems and Solutions	709
Capital Budgeting Process	649	Problems	711
Steps in Capital Budgeting	650	Case Study: Do Boards of Directors Make Good Corporate Watchdogs?	714
Managerial Application 17.1 Market-Based Capital Budgeting	652	Selected References	717
Cash Flow Estimation Example	652	Chapter 19: Government in the Market Economy	719
Capital Budgeting Decision Rules	655	Externalities	719
Project Selection	660	Managerial Application 19.1 ‘Tobacco’ Ethics	722
Managerial Application 17.2 Is the Sun Setting on Japan’s Vaunted MOF?	661	Solving Externalities	722
Cost of Capital	665	Public Goods	724
Managerial Application 17.3 Federal Government Support for R&D	666	Managerial Application 19.2 Political Corruption	727
Managerial Application 17.4 Capital Allocation at Berkshire Hathaway, Inc.	670	Optimal Allocation of Social Resources	727
Optimal Capital Budget	671	Benefit–Cost Methodology	730
Summary	673	Benefit–Cost Criteria	732
Questions	674	Additional Methods of Improving Public Management	736
Self-Test Problems and Solutions	675	Regulatory Reform in the New Millennium	738
Problems	678	Health Care Reform	740
Selected References	683	Managerial Application 19.3 Price Controls for Pharmaceutical Drugs	741
Chapter 18: Organization Structure and Corporate Governance	685	Summary	743
Organization Structure	685	Questions	744
Transaction Cost Theory of the Firm	687	Self-Test Problems and Solutions	745
The Firm’s Agency Problem	688	Problems	751
Managerial Application 18.1 Organization Design at GE	689	Selected References	755
Organization Design	692	Appendix A: Compounding and the Time Value of Money	757
Decision Management and Control	694	Appendix B: Interest Factor Tables	773
Corporate Governance	696	Appendix C: Statistical Tables	781
Managerial Application 18.2 Company Information on the Internet	698	Index	787
Ownership Structure as a Corporate Governance Mechanism	699
