The Importance of Human Error and Reliability Management in Critical Conditions and Infrastructures	1
Antonella Petrillo and Federico Zomparelli	
An Overview on Human Error Analysis and Reliability Assessment . . .	19
Fabio De Felice and Antonella Petrillo	
Mathematical Models for Reliability Allocation and Optimization for Complex Systems	43
Domenico Falcone, Alessandro Silvestri, Gianpaolo Di Bona, and Antonio Forcina	
Integrated Engineering Approach to Safety, Reliability, Risk Management and Human Factors	77
Vanderley de Vasconcelos, Wellington Antonio Soares, and Raíssa Oliveira Marques	
A Fuzzy Modeling Application for Human Reliability Analysis in the Process Industry	109
Zoe Nivolianitou and Myrto Konstantinidou	
Prevention of Human Factors and Reliability Analysis in Operating of Sipping Device on IPR-R1 TRIGA Reactor, a Study Case	155
Maritza Rodriguez Gual, Rogerio Rival Rodrigues, Vagner de Oliveira, and Claudio Lopes Cunha	
Human Factors Challenges in Disaster Management Scenario	171
Fabio De Felice, Antonella Petrillo, and Federico Zomparelli	

Use of Bayesian Network for Human Reliability Modelling: Possible Benefits and an Example of Application	189
Maria Chiara Leva and Peter Friis Hansen	
A Methodology to Support Decision Making and Effective Human Reliability Methods in Aviation Safety	225
Pietro Carlo Cacciabue and Italo Oddone
