Introduction	xxiii
Note on the Text	xxv
1 Mesa Verde National Park Visitor Center	1
1.1 Project Introduction	2
1.2 Preliminary and Schematic Design Phases	6
1.3 Design Development Phase	8
1.4 Construction Document Phase	12
1.5 Construction Administration Phase	12
1.6 Building Systems	12
1.7 Project Perspectives	14
2 Masonry Fundamentals	15
2.1 Historical Overview	16
2.2 Codes	17
2.3 Materials	21
2.4 Material Behavior	39
2.5 Structural Configuration	47
2.6 Section Properties	48
2.7 Construction	52
2.8 Quality Control	52

2.9	Development Length Example	53
2.10	Where We Go from Here	54
3	Empirical Design	56
3.1	Early Codes and Historical Precedents	57
3.2	Evolution of the Empirical Design Method	57
3.3	Current Code Provisions	59
3.4	Empirical Design Examples	63
3.5	Conclusions	73
4	Masonry Bending	76
4.1	Stability	77
4.2	Capacity	78
4.3	Demand versus Capacity	86
4.4	Deflection	86
4.5	Detailing Considerations	89
4.6	Design Example	91
4.7	Where We Go from Here	99
5	Masonry Shear	100
5.1	Stability	101
5.2	Capacity	102
5.3	Demand versus Capacity	107
5.4	Deflection	107
5.5	Detailing	107
5.6	Design Example	109
5.7	Where We Go from Here	113
6	Masonry Compression	114
6.1	Stability	115
6.2	Capacity	116

6.3 Demand versus Capacity	121
6.4 Deflection	121
6.5 Detailing Considerations	122
6.6 Slender Wall Example	125
6.7 Where We Go from Here	134
7 Timber Lateral Design	136
7.1 Introduction	137
7.2 Lateral Load Paths	139
7.3 Diaphragms	141
7.4 Shear Walls	143
7.5 Seismic Design Considerations	146
7.6 Where We Go from Here	153
8 Masonry Anchorage	155
8.1 Anchor Types	156
8.2 Failure Modes	161
8.3 Capacity	163
8.4 Demand versus Capacity	182
8.5 Detailing Consideration	182
8.6 Anchorage Example	184
8.7 Where We Go from Here	190
Appendix 1	192
Appendix 2	195
Appendix 3	202
Appendix 4	205
Appendix 5	211
Glossary	214
Bibliography	225
Index	226
