Contents

Preface *page* ix

1 **Generative Effects: Orders and Galois Connections** 1

1.1 More Than the Sum of Their Parts 1
1.2 What is Order? 7
1.3 Meets and Joins 23
1.4 Galois Connections 27
1.5 Summary and Further Reading 36

2 **Resource Theories: Monoidal Preorders and Enrichment** 38

2.1 Getting from a to b 38
2.2 Symmetric Monoidal Preorders 40
2.3 Enrichment 56
2.4 Constructions on $\mathcal{V}$-Categories 63
2.5 Computing Presented $\mathcal{V}$-Categories with Matrix Multiplication 68
2.6 Summary and Further Reading 75

3 **Databases: Categories, Functors, and Universal Constructions** 77

3.1 What is a Database? 77
3.2 Categories 81
3.3 Functors, Natural Transformations, and Databases 89
3.4 Adjunctions and Data Migration 101
3.5 Bonus: An Introduction to Limits and Colimits 108
3.6 Summary and Further Reading 115

4 **Collaborative Design: Profunctors, Categorification, and Monoidal Categories** 117

4.1 Can We Build It? 117
4.2 Enriched Profunctors 119
4.3 Categories of Profunctors 125
4.4 Categorification 133
4.5 Profunctors Form a Compact Closed Category 140
4.6 Summary and Further Reading 145

5	**Signal Flow Graphs: Props, Presentations, and Proofs**	147
	5.1 Comparing Systems as Interacting Signal Processors	147
	5.2 Props and Presentations	149
	5.3 Simplified Signal Flow Graphs	159
	5.4 Graphical Linear Algebra	168
	5.5 Summary and Further Reading	179
6	**Electric Circuits: Hypergraph Categories and Operads**	180
	6.1 The Ubiquity of Network Languages	180
	6.2 Colimits and Connection	183
	6.3 Hypergraph Categories	196
	6.4 Decorated Cospans	202
	6.5 Operads and Their Algebras	210
	6.6 Summary and Further Reading	218
7	**Logic of Behavior: Sheaves, Toposes, and Internal Languages**	219
	7.1 How Can We Prove Our Machine is Safe?	219
	7.2 The Category Set as an Exemplar Topos	222
	7.3 Sheaves	230
	7.4 Toposes	241
	7.5 A Topos of Behavior Types	250
	7.6 Summary and Further Reading	255
Appendix:	**Exercise Solutions**	256
	A.1 Solutions for Chapter 1	256
	A.2 Solutions for Chapter 2	268
	A.3 Solutions for Chapter 3	275
	A.4 Solutions for Chapter 4	285
	A.5 Solutions for Chapter 5	292
	A.6 Solutions for Chapter 6	303
	A.7 Solutions for Chapter 7	313
	References	325
	Index	331
