Part I Introduction

1	Introduction and Overview	3
1.1	Why Are Men Ignored in Fertility Studies?	4
1.2	Male Fertility: An Important Component of Fertility Studies	6
1.3	A Growing Body of Literature on Male Fertility	7
1.4	Objectives and Structure of the Book	8
	References	9
2	Review of Male Fertility Literature	11
2.1	Men's Participation in Fertility Decision-Making and Family Planning	11
2.2	Comparative Analyses of Male and Female Fertility Patterns and Determinants	13
2.3	Modeling Male Fertility and Constructing Two-Sex Models	15
2.4	An Evaluation of Prior Literature	16
2.5	Summary	21
	References	21
3	Data and Methods	25
3.1	Data	25
3.1.1	The United Nations Demographic Yearbook	25
3.1.2	The Demographic and Health Surveys (DHS)	27
3.1.3	The World Fertility Surveys (WFS)	27
3.1.4	The National Survey of Family Growth (NSFG) Cycle 6	28
3.1.5	Other U.S. Surveys Containing Male Fertility Information	28
3.2	Taiwan-Fukien Demographic Fact Book	29
3.3	The Quality of Male Fertility Data	29

3.4	Statistical Methods	33
3.4.1	Descriptive Analysis and Ordinary Least Square (OLS) Regression	33
3.4.2	The Poisson Regression Models	33
3.4.3	Sample Weights and Survey Commands Using Stata	34
3.5	Summary	35
	References	36

Part II Male and Female Fertility Differentials in Rates

4	A Cross-Sectional Analysis of Male and Female Fertility in 43 Countries and Places, 1990–1998	41
4.1	Research Background	42
4.2	Data	43
4.3	Measures	44
4.4	Results	44
4.4.1	Male and Female TFRs	44
4.4.2	Male and Female ASFRs	48
4.5	Conclusion and Discussion	52
	References	56
5	Male and Female Fertility in Taiwan: Trends and Transitions, 1975–2004	57
5.1	Study Objectives	57
5.2	Data, Measures and Methods	58
5.3	Results	59
5.3.1	Male and Female Fertility Trends and Transitions, 1975–2004	59
5.3.2	Male and Female ASFRs in Taiwan, 1949–2002	62
5.3.3	Male and Female Fertility Differentials by Educational Attainment, 1974–2002	64
5.3.4	Male Fertility in Counties and Cities of Taiwan, 2002	70
5.4	Discussion and Summary	77
	References	78

Part III Male and Female Fertility Differentials in Determinants

6	Demographic, Socioeconomic Characteristics, and Male and Female Fertility	83
6.1	Linking Demographic Characteristics to Fertility	84
6.2	Previous Literature on Socioeconomic Characteristics and Fertility	86
6.3	Data, Measures and Methods	89

6.4	Results	94
6.4.1	Descriptive Statistics	94
6.4.2	Demographic Characteristics and Fertility Differentials by Gender	98
6.5	Socioeconomic Characteristics and Fertility Differentials by Gender	104
6.6	Conclusion and Discussion	110
	References	114
7	Religion, Religiosity and Male and Female Fertility	117
7.1	Theories on Religion and Fertility	118
7.2	Research Hypotheses	119
7.3	Data, Methods and Variables	122
7.4	Results	124
7.4.1	Descriptive Results	124
7.4.2	Statistical Methods and Results	130
7.5	Conclusion and Discussion	134
	References	139
8	The Influence of Cohabitation on Male and Female Fertility	143
8.1	Linking Cohabitation and Female Childbearing	143
8.2	Racial and Ethnic Differences in the Relationship of Cohabitation and Fertility	144
8.3	Socioeconomic Status, Family-Background Characteristics, and Nonmarital Fertility	145
8.4	The Proximate Determinants, Cohabitation and Fertility	146
8.5	Data, Variables and Methods	147
8.6	Results	149
8.6.1	Descriptive Results	149
8.6.2	Poisson Regression Results	157
8.7	Conclusion and Discussion	170
	References	174
9	Cultural Inheritance and Male and Female Fertility	177
9.1	Theories and Hypotheses	178
9.2	Data, Variables and Methods	179
9.3	Results	185
9.3.1	Descriptive Results	185
9.3.2	The Poisson Regression Results	187
9.4	Conclusion and Discussion	189
	References	191
10	Conclusion	193
10.1	Summary of Findings	194
10.1.1	Male and Female Fertility Differentials in Rates	194
10.1.2	Male and Female Fertility Differentials in Determinants	195

10.2	Implications	197
10.3	Underreporting Births by Younger Men	198
10.4	Future Prospects	199
	References	200
