

## Contents

EXTENDED SUMMARY .....	5
ACKNOWLEDGMENT .....	7
1. INTRODUCTION .....	8
1.1 Background.....	9
1.2 Objective and scope .....	9
1.2.1 General objective .....	9
1.2.2 Specific objective .....	9
1.2.3 Scope of the work.....	10
1.3 Location and accessibility .....	10
1.4 Population and settlements .....	11
1.5 List of the most important previous works .....	12
1.6 Methodology .....	13
2. PHYSIOGRAPHY, SOIL AND VEGETATION .....	15
2.1 Physiography .....	15
2.2 Vegetation and land use/land cover .....	16
2.3 Soil .....	17
3. CLIMATE AND HYDROLOGY .....	20
3.1 Climate.....	20
3.1.1 Precipitation .....	21
3.1.2 Temperature.....	22
3.1.3 Sunshine hours (Hrs) .....	23
3.1.4 Wind Speed (m/s).....	23
3.1.5 Potential evapotranspiration (PET) .....	24
3.2 Hydrology .....	25
3.2.1 Surface flow.....	25
3.2.2 Baseflow and recharge .....	30
4. GEOLOGY, STRATIGRAPHY AND STRUCTURES .....	33
4.1 Regional geology and stratigraphy .....	33
4.2 Local geology .....	35
5. HYDROGEOLOGY .....	39
5.1 General .....	39
5.2 Aquifer type/Aquifer characterization .....	40
5.2.1 Extensive and moderately productive porous aquifers .....	41
5.2.2 Extensive and moderate productive fissured and karst aquifers.....	42

---

5.2.3 Aquitards .....	44
5.2.4 Aquicludes .....	44
5.3 Groundwater points .....	44
5.4 Groundwater flow direction, recharge and discharge areas.....	47
5.5 Hydrogeological conceptual model.....	48
6. HYDROCHEMISTRY .....	49
6.1 General .....	49
6.2 Major constituents .....	49
6.3 Classification and graphical presentation .....	51
6.4 Graphical presentation.....	52
6.5 Water quality.....	54
6.5.1 Temperature.....	54
6.5.2 pH .....	54
6.5.3 Hardness.....	55
6.5.4 Electric conductivity (EC).....	56
6.5.5 Total dissolved solids (TDS) .....	56
6.6 Water quality standard.....	59
6.6.1 Drinking water quality .....	60
6.6.2 Irrigation use .....	61
6.6.3 Industry.....	63
6.7 Water Quality Testing.....	65
7. GROUNDWATER RESOURCES AND DEVELOPMENT PERSPECTIVES .....	66
7.1 Water Resources .....	66
7.2 Groundwater resources development perspectives.....	67
7.3 Recommended sites for well siting .....	67
8. CONCLUSIONS AND RECOMMENDATIONS .....	69
8.1 Conclusions.....	69
8.2 Recommendations.....	69
REFERENCE .....	71

---
