Foreword ix

Acknowledgments xiii

Introduction xv

Chapter 1 Basic Teaching Principles 1

Assessment and Goal Setting 1

Models of Instruction 2

Learning Components 4

- Motor Component 4
- Cognitive Component 4
- Affective Component 4

Chapter 2 Orientation for Mobility 6

Orientation 7

- Foundational Knowledge and Experiences 7
- Mental and Physical Readiness Levels 8
- Principles of Orientation 8
- Establishing and Maintaining Orientation 8
- Orientation Terminology and Concepts 9
- Teaching Tips 14

Combining Mobility and Orientation for Purposeful Movement 15

- Route Travel 16
- Familiarization to New Places 16
- Drop-Off Lessons 17

Summary 18

Chapter 3 Guide Techniques 19

Basic Guide Technique 19

Diagonal Cane Technique While Traveling with a Guide 22

Reversing Direction with a Guide: 180-Degree Turn 24

Negotiating Narrow Passageways with a Guide 25

Italics indicate techniques with step-by-step descriptions.

Switching (Transferring) Sides with a Guide	27
Negotiating Doors with a Guide	29
Ascending and Descending Stairs with a Guide	31
Seating	34
• General Seating	34
• Auditorium Seating	36
Accepting or Refusing Assistance: Hines Break	38
Tips for Teaching Guide Techniques	40

Chapter 4 Hand Trailing and Protective Techniques 43

Protective Techniques	43
• Upper-Hand-and-Forearm (Upper-Body) Protective Technique	43
• Lower-Hand-and-Forearm (Lower-Body) Protective Technique	45
Tips for Teaching Protective Techniques	46
Hand Trailing	48
• Trailing along a Wall	48
• Crossing Open Doorways and Spaces	49
Direction Taking (from Walls or Surfaces)	50
• Squaring Off (Perpendicular Surface Alignment)	50
• Parallel Alignment	51
Tips for Teaching Hand Trailing and Direction-Taking Techniques	52

Chapter 5 Cane Techniques 54

Cane Basics	54
• Variations in Long Canes	54
• Parts of the Long Cane	55
• Proper Care of the Long Cane	56
• Cane Storage	57
Cane Techniques	57
Diagonal Cane Technique	58
• Grasps and Positioning for the Diagonal Cane Technique	58
• Changing Hands and Grasps with the Diagonal Cane Technique	60
• Detecting and Moving around Obstacles	61
• Trailing with Diagonal Cane Technique	63
Two-Point-Touch Cane Technique (Touch Technique)	66
Constant-Contact Cane Technique	69
Touch-Trailing Cane Technique (Shorelining)	73
Touch-and-Drag Cane Technique (Shorelining)	74
Touch-and-Slide Cane Technique	76
Three-Point-Touch Cane Technique	77
Verification Cane Technique (V-Tech)	79

<i>Negotiating Doors with a Cane</i>	82
<i>Ascending and Descending Stairs</i>	84
• <i>Ascending Stairs</i>	84
• <i>Descending Stairs</i>	87
<i>Entering and Exiting Vehicles</i>	90
• <i>Entering Vehicles</i>	90
• <i>Exiting Vehicles</i>	92
<i>Locating Dropped Objects</i>	94
<i>Tips for Teaching Cane Techniques</i>	96

Chapter 6 **Block Travel 100**

<i>Common Terminology and Concepts in Block Travel</i>	101
<i>Transition to Outdoor Travel: Cane Technique Practice</i>	102
• <i>Technique Refinement</i>	102
• <i>Pace</i>	102
• <i>Straight Line of Travel</i>	102
• <i>Detection of Changes in Surface and Drop-Offs</i>	102
<i>Tactile Alignment with Physical Block Features</i>	103
<i>Auditory Alignment with Parallel Traffic</i>	105
<i>Auditory Alignment with (Squaring Off to) Perpendicular Traffic</i>	106
<i>Recognizing and Negotiating a Cross Slope</i> <i>(Slope Perpendicular to the Line of Travel)</i>	108
<i>Recovery from Sidewalk Veer</i>	109
• <i>Recovery from Minor Veer</i>	109
• <i>Recovery from Major Veer</i>	110
<i>Making Turns to Intersecting Sidewalks</i>	114
<i>Locating Landmarks and Destinations</i>	115
<i>Detecting the Street</i>	117
<i>Street-Corner Familiarization</i>	119
<i>Street-Corner Familiarization</i>	120
• <i>I. Exploring Sidewalk Features along the Perpendicular Street</i>	120
• <i>II. Exploring Sidewalk Features along the Parallel Street</i>	122
• <i>III. Exploring the Corner or Apex Area</i>	124
<i>Tips for Teaching Block-Travel Skills</i>	126

Chapter 7 **Street Crossings 130**

<i>Common Terminology</i>	131
• <i>Intersection Geometry</i>	131
• <i>Geometric Features within Intersections</i>	133
<i>Traffic Control</i>	134
• <i>Uncontrolled Crossings</i>	134

• Stop Sign–Controlled Streets	134
• Traffic Signal–Controlled Streets	134
• Crosswalks	135
• Pedestrian Signals	135
<i>Street-Crossing Techniques</i>	136
<i>Detecting the Street</i>	137
<i>Locating the Crosswalk and Appropriate Crossing Location</i>	137
<i>Intersection Analysis Procedures</i>	140
• Analyzing Intersection Geometry	141
• Analyzing Traffic Control and Movements	144
<i>Aligning for Crossing</i>	148
<i>Deciding When to Cross</i>	150
• Deciding When to Cross at Uncontrolled Crossings	150
• Deciding When to Cross at Stop Sign–Controlled Intersections	153
• Deciding When to Cross at Signal-Controlled Intersections: Locating and Using Pushbuttons	155
• Determining the Time to Begin Crossing at Signal-Controlled Intersections	158
<i>Initiating Crossing and Maintaining Correct Heading or Alignment While Crossing</i>	161
<i>Street-Crossing Recovery</i>	164
• Recovering from Veer or Alignment Error Away from the Parallel Street	164
• Recovering from Veer or Alignment Error toward the Parallel Street	165
<i>Tips for Teaching Street-Crossing Techniques</i>	167

Chapter 8 **Transportation Systems** 172

<i>Public Transit Systems</i>	172
• Scheduling	172
• Fares	173
<i>Route Planning for Travel on Transit Systems (Bus or Train)</i>	173
<i>Bus Systems</i>	175
• Bus Vehicle Characteristics	176
• Bus Stop Characteristics	177
<i>Traveling via Bus</i>	178
• Locating Bus Stop and Positioning at the Bus Stop	178
• Boarding a Bus	180
• Disembarking from a Bus	182
<i>Light Rail, Rapid Rail, or Commuter Trains</i>	184
• Rail Vehicle Characteristics	185

<i>Traveling via Train</i>	186
• <i>Traveling within a Station and Positioning for Boarding</i>	186
• <i>Boarding a Rail Vehicle</i>	189
• <i>Disembarking from a Rail Vehicle and Leaving the Station</i>	192
<i>Negotiating Railroad Crossings</i>	195
<i>Other Transportation Systems</i>	196
<i>Using Taxis</i>	196
<i>Airport Terminals</i>	198
<i>Tips for Teaching Transportation Systems</i>	199

Chapter 9 Special Situations 202

<i>Soliciting Assistance</i>	202
<i>Negotiating Escalators</i>	204
<i>Negotiating Elevators</i>	207
<i>Negotiating Revolving Doors</i>	210
<i>Commercial Facilities</i>	211
<i>Accessing Commercial Facilities</i>	211
• <i>Locating the Entrance</i>	211
• <i>Entering a Business and Locating a Clerk or Other Personnel</i>	213
<i>Drop-Off Lessons</i>	214
<i>Drop-Off Lessons</i>	215
<i>Travel in Areas without Sidewalks (Rural or Suburban)</i>	218
• <i>Walking along Roadways without Sidewalks</i>	218
• <i>Determining Street-Crossing Location without Sidewalks or Curb Ramps</i>	220
<i>Travel in Adverse Weather</i>	221
<i>Personal Safety</i>	221
<i>Tips for Teaching Special-Situation Lessons</i>	221

Chapter 10 Travel Techniques for Learners Who Have Low Vision 225

<i>Basic Low Vision Skills</i>	225
<i>Scanning</i>	226
• <i>Systematic Scanning: Static Procedure for Open Areas</i>	226
• <i>Systematic Scanning: Static Procedure to Search for Vertical and Horizontal Objects</i>	228
• <i>Systematic Scanning: Dynamic Patterns for Visual Planning While Walking</i>	229
<i>Eccentric Viewing</i>	230
<i>Use of a Monocular (Telescope)</i>	232
<i>Visual Skills with Guide Techniques</i>	236

Visual Skills with Cane Skills	236
Visual Skills for Block Travel	236
Visual Skills for Street Crossings	237
• Visual Skills for Intersection Analysis	237
• Visual Skills for Locating and Tracking Moving Vehicles	238
• Visual Skills for Lane-by-Lane Scanning	238
• Visual Skills for Detecting Vehicles at Uncontrolled Crossings	238
Visual Skills for Using Transportation	238
Visual Skills in Special Situations	240
Tips for Teaching Travel Techniques for Learners Who Have Low Vision	240
References	249
Glossary	253
Index	263
About the Authors	271

Chapter 8	Transportation Systems	251
	Public Transit Systems	251
	• Scheduled	251
	• Tips for Teaching Special-Situation Lessons	251
	• Personal Safety	251
Chapter 10	Travel Techniques for Learners Who Have Low Vision	255
	• Basic Low Vision Skills	255
	• Scanning	255
	• Systematic Scanning: Static Procedure to Search for Vertical and Horizontal Objects	258
	• Systematic Scanning: Dynamic Patterns for Visual Scanning While Walking	259
	• Eccentric Viewing	260
	• Use of a Monocular (Telescope)	265
	• Visual Skills with Guide Techniques	266
