THE TEACHING OF BOTANY AND OF NATURE STUDY

	PAGE
PREFATORY NOTE	3
CHAPTER I	
The Value of Science, and Particularly of Biology, in Education	7
CHAPTER II	
Nature Study	25
CHAPTER III	
The Value of Botany in Secondary Education	62
CHAPTER IV	
Principles Determining the Content of a Botanical Course	81
CHAPTER V	
The Various Types of Botanical Courses	99
CHAPTER VI	
Use of the Method of Thought in Teaching Botany	124
CHAPTER VII	
General Botanical Principles to be Emphasized in Teaching	135

CHAPTER VIII	
Detailed Discussion of the Course in Botany for the High School	PAGE 142
CHAPTER IX	
The Laboratory, its Equipment, Materials for Study and for Demonstration	209
CHAPTER X	
Botanical Literature for the Use of Teachers and Students .	229
INDEX	487

THE TEACHING OF ZOÖLOGY, INCLUDING HUMAN PHYSIOLOGY

PREFATORY NOTE	239
--------------------------	-----

CHAPTER I

The Educational Value of Zoölogy and the Aims of Zoölogical Teaching in Secondary Schools	241
The Value of Zoölogy as Discipline	244
The Value of Zoölogy as Information	246

CHAPTER II

The Subject-Matter of Zoölogy from the Standpoint of the Secondary School	261
---	-----

CHAPTER III

The Laboratory and the Scientific Method in the Teaching of Zoölogy in the Secondary School	294
Place of Laboratory Work in Zoölogical Teaching .	295
Scientific Method as Applied in Teaching Zoölogy .	299
The Relation of Laboratory Work and Book Work .	310
Minor Problems of Laboratory Work in Zoölogy .	312

CONTENTS

vii

CHAPTER IV

	PAGE
Animal Nature-Study and Human Physiology in the Elementary School as Related to Zoölogy in the Secondary School	320

CHAPTER V

The Position and Relations of Zoölogy in the High-School Curriculum	331
Relation of Botany and Zoölogy	331
Position of the Biological in Relation to the Other Sciences	337

CHAPTER VI

The Beginning Work in Zoölogy	340
Natural History in Beginning Zoölogy	340
Introduction to Physiological Study	342
Protozoa and Metazoa as Introductory Types	345
Introduction to Zoölogical Principles	352

CHAPTER VII

The Selection of Animal Types for a Laboratory Course in Zoölogy	356
Types for the Introductory Work	356
Other Animals available for Laboratory Study	362

CHAPTER VIII

An Outline for an Elementary Course in Zoölogy	371
Introduction	371
Outline	372
Suggested Modifications of the Outline	390

CHAPTER IX

Zoölogical Materials, Methods, and Special Equipment	392
--	-----

CHAPTER X

	PAGE
Zoölogical Books	417
General Reference Books	418
Special Lists of Selected Books	440
School Books in Zoölogy and Human Physiology	442

CHAPTER XI

The Relation of Zoölogy in Secondary School and College	448
Differentiation of Work for School and College	448
Zoölogy for College-Entrance Credit	454

CHAPTER XII

The Teaching of Human Physiology in Secondary Schools	456
Relation of Physiology to Other Biological Sciences	457
Teaching the Essentials of "Human Physiology"	465
"Scientific Temperance" or "Temperance Instruction"	472

INDEX	487
-----------------	-----
