

Contents

1. Introduction (<i>Josef Vymazal</i>)	11
2. Principles of MRI (<i>Josef Vymazal</i>)	13
2.1. Introduction to Cardiovascular Magnetic Resonance	13
2.2. Classical Model	13
2.3. Factors that Affect Signal Intensity	16
2.3.1. Proton Density	16
2.3.2. T1 Relaxation	16
2.3.3. T2 Relaxation	17
2.3.4. T2* Relaxation	18
2.4. Imaging Sequences	19
2.5. Parallel Acquisition Techniques	21
References	22
3. Contrast Agents – Basic Concepts (<i>Milan Hájek</i>)	23
3.1. Introduction	23
3.2. General	23
3.3. Construction of Contrast Agents	24
3.3.1. Magnetic Parameters of Contrast Agents	24
3.3.1.1. Positive and Negative Contrast Agent	26
3.3.1.2. Surface	28
3.3.2. Physico-Chemical Characterization of Contrast Agents	28
3.3.2.1. Stability and Toxicity	28
3.3.2.2. Osmolality	29
3.3.2.3. Viscosity	29
3.4. Biodistribution of Contrast Agents in the Body	30
References	32
4. Gadolinium Non-Specific Contrast Agents (<i>Milan Hájek</i>)	33
4.1. Introduction	33
4.2. Non-Specific Contrast Agents	33
References	38
5. Non-Contrast Magnetic Resonance Angiography (<i>Josef Vymazal</i>)	39
5.1. Introduction	39
5.2. TOF MRA	39
5.3. Phase Contrast MR Angiography	43
5.4. Stenosis Grading	45
References	46
6. Contrast Enhanced Magnetic Resonance Angiography (CE-MRA) (<i>Josef Vymazal</i>)	47
6.1. Introduction	47
6.2. Sequences Used in CE-MRA	48
6.2.1. Subtraction Method	48
6.2.2. Fat Suppression	49
6.2.3. Imaging Sequence Parameters	50
6.3. Bolus Timing	50

6.3.1. <i>k</i> -space	50
6.3.2. Techniques Used for Optimal Bolus Timing	51
6.3.2.1. Time Window	51
6.3.2.2. Average Delay Method	51
6.3.2.3. Test Bolus Technique	53
6.3.2.4. Fluoroscopically Triggered Technique	55
6.3.2.5. Dynamic (Freeze Frame) Scanning	56
6.3.2.6. Combined Dynamic + Fluoroscopically Triggered Scanning	56
6.4. Injection Rate	56
6.5. Shortcomings of CE-MRA	56
6.5.1. Missed Regions	57
6.5.2. Extra-Luminal Pathology	57
6.5.3. Non-Compatibility with Stents and Metallic Objects	58
6.5.4. Intravoxel Dephasing	59
6.5.5. Partial Volume Effect	59
6.6. Postprocessing of MRA	61
6.6.1. Multiplanar Reconstruction (MPR)	61
6.6.2. Maximum Intensity Projection (MIP)	63
6.6.3. Other Methods	63
References	64
7. CE-MRA of Carotid Arteries (Josef Vymazal)	65
7.1. Introduction	65
7.2. CE-MRA Imaging Techniques	66
7.2.1. Dynamic Scan	66
7.2.2. Fluoroscopically Triggered Technique	66
7.3. Non-Contrast MR Angiography	68
7.4. Comparison of Different Methods	68
7.5. Case Reports	68
7.5.1. Case Report No. 1. Kinking of the Carotid Artery	69
7.5.2. Case Report No. 2. Significant Stenosis of Carotid Artery	69
7.5.3. Case Report No. 3. Carotid Artery Dissection	71
References	72
8. CE-MRA of Aorta (Josef Vymazal)	73
8.1. Introduction	73
8.1.1. Renal Artery Evaluation	73
8.1.2. Aortic Aneurysms and Dissections	74
8.2. CE-MRA versus CT Angiography	74
8.3. CE-MRA Imaging Techniques	75
8.4. Case Reports	76
8.4.1. Case Report No. 1. CE-MRA of the Renal Arteries with Test Bolus Technique	76
8.4.2. Case Report No. 2. Dynamic CE-MRA of the Renal Arteries with Fluoroscopically Triggered Technique	78
8.4.3. Case Report No. 3. CE-MRA of the Renal Arteries with Test Bolus and Parallel Acquisition Techniques	81

8.4.4. Case Report No. 4. Dynamic CE-MRA of the Renal Arteries with Fluoroscopically Triggered Technique	81
8.4.5. Case Report No. 5. CE-MRA of the Renal Arteries with Fluoroscopically Triggered and Parallel Acquisition Techniques	85
8.4.6. Case Report No. 6. Aneurysm of the Brachiocephalic Truncus. Diagnosis with True FISP and CE-MRA	85
8.4.7. Case Report No. 7. Aortal Dissection with Fluoroscopically Triggered Technique and Parallel Acquisition Techniques	86
8.4.8. Case Report No. 8. Examination of Renal Arteries with Fluoroscopically Triggered Technique and Parallel Acquisition Techniques	89
References	90
9. CE-MRA of Peripheral Arteries (Josef Vymazal)	91
9.1. Introduction	91
9.2. Patient Set-Up	95
9.3. Localizer Images	96
9.4. Fluoroscopic Triggering	96
9.5. Non-Contrast (Mask) FLASH 3D Dynamic Imaging	97
9.6. Contrast Agents	98
9.7. Rerun of the Fluoroscopically Triggered and the Flash 3D Sequence	100
9.8. Another Rerun of the Third Anatomical Region (Calves and Feet)	102
9.9. Postprocessing	103
9.10. Pitfalls	103
9.10.1. Venous Contamination	103
9.10.2. Stents	103
9.10.3. Other Drawbacks	105
9.11. New Trends	106
9.12. Case Reports	107
9.12.1. Case Report No. 1. Diagnostic Use of CE-MRA	107
9.12.2. Case Report No. 2. CE-MRA of the Peripheral Arteries to Monitor the Status of a Previously Implanted and Thrombolized Bypass	109
9.12.3. Case Report No. 3. CE-MRA Followed by DSA and PTA	111
9.12.4. Case Report No. 4. Aneurysm of the Abdominal Aorta with Imaging of Peripheral Arteries. Comparison Between CE-MRA, DSA and True FISP	112
References	114
10. Contrast-Enhanced Cardiac Imaging (Josef Vymazal and Petr Neuzil)	115
10.1. Introduction	115
10.2. Acute Myocardial Perfusion	116
10.3. Delayed Enhancement Imaging Techniques	117
10.4. Case Reports	120
10.4.1. Case Report No. 1. Detection of Transmural Myocardial Infarction	120
10.4.2. Case Report No. 2. Detection of Transmural Myocardial Infarction	121
10.4.3. Case Report No. 3. Late Enhancement of the Wall of the Right Ventricle	122
10.4.4. Case Report No. 4. Artificial Myocardial Necrosis After the Alcohol Ablation in Hypertrophic Cardiomyopathy (NSRT – Nonsurgical Septal Reduction Therapy) ...	123
