Part I Basic Aspects

1 The History of Hyperbaric Medicine	3
K. K. Jain	
Hyperbaric Therapy and Diving Medicine	3
The Development of Hyperbaric Air Therapy	4
The Development of Hyperbaric Oxygen Therapy	7
References	9
2 Physical, Physiological, and Biochemical Aspects of Hyperbaric Oxygenation	11
K. K. Jain	
Introduction	11
Physical Basics	11
Physiology of Oxygenation	12
The Oxygen Pathway	12
Ventilation Phase	12
Transport Phase	12
Shift of the Oxygen-Hemoglobin Dissociation Curve	13
Delivery of Oxygen to the Tissues	14
Oxygen Transfer at the Capillary Level	14
Relation Between the Oxygen Transport and Utilization	14
Oxygen Utilization in the Cell	15
Effect of Blood Flow	15
Effect of Oxygen-Hemoglobin Reaction on Transport of CO ₂	15
Autoregulation of the Intracellular pO ₂	16
Hyperbaric Oxygenation	16
Theoretical Considerations	16
General Effects of HBO on the Healthy Human Body	19
Biochemical Effects of HBO	20
Effect of HBO on Enzymes	20
Effect of HBO on the Nervous System	20
Effect of HBO at Molecular Level	21
Conclusion	21
References	21
3 Effects of Diving and High Pressure on the Human Body	23
K. K. Jain	
Physical Effects of Pressure	23
Effects of Pressure on Various Systems of the Body	23
Hematological and Biochemical Effects	23
Effect on Ammonia Metabolism	24
Effect on Blood Cells and Platelets	24

Changes in the Respiratory System and Blood Gases	24
Effects on the Cardiovascular System.....	25
Changes in the Endocrine System.....	25
Effect on the Skeletal System	25
Effects of High-Pressure Environments on the Nervous System.....	25
Damage to the Middle Ear and Inner Ear in Diving	29
Vertigo and Diving	30
Taste Sensation Under High Pressure	30
Effect of High Pressure on Effect of Drugs	30
Conclusion	31
References.....	31
4 Physical Exercise under Hyperbaric Conditions	33
K. K. Jain	
Introduction.....	33
Exercise and Hypoxia	34
Exercise in Hyperbaric Environments	34
Exercise Under Hyperoxia.....	35
Physical Exercise Under Hyperbaric Conditions.....	35
General Effects.....	35
Effect on Lactate Production and Clearance.....	36
Effect of Exercise on Ammonia Metabolism.....	37
Effect of HBO on Antioxidant Enzymes in Skeletal Muscle.....	37
Effect of HBO on Blood Flow to the Muscles During Exercise.....	37
Physical Exercise in Relation to Toxic Effects of HBO	38
Conclusion	38
References.....	38
5 Hypoxia	39
K. K. Jain	
Introduction.....	39
Pathophysiology of Hypoxia.....	39
Hypoxia-Inducible Factor	40
Hypoxia and Heat Shock Proteins	40
Effect of Hypoxia on Cellular Metabolism.....	40
Impact of Hypoxia on Various Body Systems	41
Respiratory Function.....	41
Cardiovascular System.....	41
General Metabolic Effects	41
Effects of Hypoxia on the Brain	42
Role of HBO in the Treatment of Hypoxic States	46
The Role of Nitric Oxide Synthase in the Effect of HBO in Hypoxia.....	47
Possible Dangers of HBO in Hypoxic States.....	47
References.....	48
6 Oxygen Toxicity	49
K. K. Jain	
Introduction.....	49
Pathophysiology of Oxygen Toxicity	50
Free Radical Mechanisms	50
Pathology of Oxygen Toxicity	50
Pulmonary Oxygen Toxicity	52
Normobaric vs. Hyperbaric Oxygen in Induction of Pulmonary Oxygen Toxicity.....	53

Oxygen-Induced Retinopathy	53
Factors That Enhance Oxygen Toxicity	53
Central Nervous System Oxygen Toxicity	54
Ammonia and Amino Acids	56
Biomarkers of Oxygen Neurotoxicity	56
Neuropathology of Oxygen Toxicity	56
Manifestations of CNS Oxygen Toxicity	57
Clinical Monitoring for Oxygen Toxicity	57
Protection Against Oxygen Toxicity	57
Extension of Oxygen Tolerance	59
Conclusion and Directions for Future Research	59
References	60
7 Hyperbaric Chambers: Equipment, Technique, and Safety	61
K. K. Jain	
Introduction	61
Monoplace Chambers	61
Multiplace Chambers	62
Multiplace Chambers for the Critical Care Department	64
Surgery in the Multiplace Chamber	65
Mobile Multiplace Hyperbaric Chambers	65
Hyperbaric Chambers for Diving Medicine	66
Hyperbaric Chambers for Animal Research	66
Selection of a Hyperbaric Chamber	68
Technique of Hyperbaric Oxygenation	68
Ancillary Equipment	70
Oxygen Masks and Hoods	70
Respirators and Ventilators	70
Diagnostic Equipment	71
ECG and EEG	71
Transcutaneous Oxygen Tension	71
Glucose-Monitoring Devices	71
Use of Miscellaneous Medical Devices in the Hyperbaric Chamber	72
Cardiopulmonary Resuscitation	72
Use of Defibrillators in Hyperbaric Chambers	72
Pleural Suction Drainage	72
Endotracheal Tubes	72
Care of Tracheotomy	72
Continuous Bladder Irrigation and HBO	72
Transdermal Patches for Drug Delivery and Hyperbaric Chamber	73
Implanted Devices in Patients	73
Monitoring of Patients in the Hyperbaric Chamber	73
Safety in the Hyperbaric Chamber	74
Operational Safety	74
Masks and Breathing Control System	74
Fire Safety in the Chamber	74
Use of Portable Hyperbaric Chambers in Patient's Rooms	76
Regulatory Issues Relevant to Hyperbaric Medicine	76
Staffing of Hyperbaric Facilities	77
Conclusion	77
References	77

Part II Clinical Applications

11 Decompression Sickness	101
Philip B. James and K. K. Jain	
Introduction.....	101
Pathophysiology.....	102
Gas Formation.....	102
Pulmonary Changes	104
Bubble-Induced CNS Injury	104
Changes in Blood.....	105
Dysbaric Osteonecrosis.....	106
Role of Free Radicals.....	106
Clinical Features	106
Decompression Sickness in Diving.....	106
Altitude Decompression Sickness.....	107
Ocular Complications of DCS	108
Ultrasonic Detection of Bubbles.....	109
Diagnosis.....	109
Blood Examination	109
Ultrasound Monitoring of Bubbles	110
Bone Scanning	110
X-Rays	110
Retinal Angiography.....	110
Imaging	110
Electrophysiological Studies.....	110
Neuropsychological Assessment	110
Treatment	110
Emergency Management and Evaluation.....	110
Recompression and HBO Treatment	111
Management of Altitude Decompression Sickness	111
Management of Neurological Manifestations of Decompression Sickness	114
Monoplace vs. Multiplace Chambers	115
Use of Oxygen vs. Other Gas Mixtures	115
Drugs.....	116
Importance of Early Treatment.....	117
Delayed Treatment.....	117
Treatment of Residual Neurological Injury and SPECT Brain	
Imaging in Type II DCS.....	117
Risk Factors for DCS	117
Preventive Measures for DCS.....	118
Prognosis of DCS.....	118
Conclusion	118
References.....	119
12 Cerebral Air Embolism	121
K. K. Jain	
Introduction.....	121
Causes	121
Mechanisms	122
Pathophysiology of Cerebral air Embolism.....	122
Clinical Features	123
Diagnosis.....	123
Treatment	123

Clinical Applications of HBO for Air Embolism	124
Ancillary Treatments.....	126
Antiplatelet Drugs	126
Steroids	126
Hemodilution	126
Control of Seizures	126
Measures to Improve Cerebral Metabolism.....	126
Hyperbaric Treatment in Special Situations	126
Cerebral Edema.....	126
Cardiovascular Surgery	126
Neurosurgery.....	127
Pulmonary Barotrauma	127
Air Embolism During Invasive Medical Procedures	127
Cerebral Air Embolism During Obstetrical Procedures	127
Cerebral Air Embolism in Endoscopic Retrograde Cholangiopancreatography	128
Cerebral Embolism Due to Hydrogen Peroxide Poisoning	128
Relapse Following Spontaneous Recovery	128
Delayed Treatment.....	129
Conclusion	129
References.....	129
