

Contents

Prologue: Terrified	3
---------------------	---

Part I: Background

1. The Roots of Artificial Intelligence	17
2. Neural Networks and the Ascent of Machine Learning	35
3. AI Spring	43

Part II: Looking and Seeing

4. Who, What, When, Where, Why	67
5. ConvNets and ImageNet	81
6. A Closer Look at Machines That Learn	96
7. On Trustworthy and Ethical AI	117

Part III: Learning to Play

8. Rewards for Robots	133
9. Game On	145
10. Beyond Games	165

Part IV: Artificial Intelligence Meets Natural Language

11. Words, and the Company They Keep	177
12. Translation as Encoding and Decoding	197
13. Ask Me Anything	213

Part V: The Barrier of Meaning

14. On Understanding	235
15. Knowledge, Abstraction, and Analogy in Artificial Intelligence	247
16. Questions, Answers, and Speculations	266
