Tables, Figures, and Boxes	xiv
-----------------------------------	------------

Preface	xviii
----------------	--------------

What's New?	xx
-------------	----

Acknowledgments	xxi
-----------------	-----

PART I THE PROCESS, THE PARTICIPANTS, AND THE PRODUCT

1. Introduction	2
------------------------	----------

Why Intelligence Fails	2
------------------------	---

Failure to Share Information	4
------------------------------	---

Failure to Analyze Collected Material Objectively	5
---	---

Failure of the Customer to Act on Intelligence	6
--	---

What the Book Is About	7
------------------------	---

Summary	8
---------	---

Notes	9
-------	---

2. Intelligence in the Age of Contested Norms and Persistent Disorder	11
--	-----------

Nature of Twenty-First-Century Conflict	13
---	----

Networks	13
----------	----

Nonstate Actors	14
-----------------	----

Tools of Conflict	17
-------------------	----

Diplomatic	17
------------	----

Information	18
-------------	----

Military	18
----------	----

Economic	19
----------	----

Synergy of the Tools	20
----------------------	----

The Function of Intelligence	22
------------------------------	----

The Nature of Intelligence	22
----------------------------	----

Strategic Intelligence	23
------------------------	----

Operational Intelligence	24
--------------------------	----

Tactical Intelligence	28
-----------------------	----

Summary	30
---------	----

Critical Thinking Questions	31
-----------------------------	----

Notes	31
-------	----

3. The Intelligence Process	34
The Traditional Intelligence Cycle	35
Intelligence as a Target-Centric Process	39
The Target	45
The Target as a Complex System	46
The Target as a Network	47
Spatial and Temporal Attributes of the Target	51
Summary	51
Critical Thinking Questions	52
Notes	53
4. The Customer	55
Overview of Customers	55
Identifying the Customer	57
Policymakers	58
Congress	62
Military Leadership	63
Military Operations	64
Homeland Security	64
Law Enforcement	65
Business Leaders	66
What All Customers Want	66
Summary	68
Critical Thinking Questions	68
Notes	69
5. The Analyst	71
Critical and Logical Thinking	71
Objectivity	73
Broad Perspective	74
Good Instincts	75
The Analyst's Role	76
Analytic Teams	77
Organizing the Analysis Team	77
Managing the Analysis Process	80
Summary	83
Critical Thinking Questions	83
Notes	84

6. The Analytic Network	86
The U.S. National Intelligence Network	86
Homeland Security	89
Military	90
Law Enforcement	91
Collaboration and Sharing	91
Summary	93
Critical Thinking Questions	94
Notes	95
7. The Intelligence Product	96
Intelligence Research	96
Current Intelligence	96
Indications and Warning	97
What Should an Intelligence Unit Produce?	100
Constraints on the Intelligence Product	101
Limits	102
Boundaries	103
Constraining Pressures	106
Summary	110
Critical Thinking Questions	111
Notes	111
PART II THE ANALYSIS PROCESS	113
8. The Intelligence Issue	115
Preliminary Questions	116
Issue Definition	118
Clarifying the Question	118
Identifying Assumptions	123
Focusing the Question	125
Issue Decomposition	127
Complex Issue Decomposition	130
Structured Analytic Techniques for Issue Decomposition	132
Summary	133
Critical Thinking Questions	134
Notes	135

9. Target Models	137
Modeling the Intelligence Target	137
Some General Target Models	141
Comparative Models	142
Profiles	144
Mathematical Models	146
Pattern Models	149
Temporal Models	149
Histograms	151
Summary	152
Critical Thinking Questions	152
Notes	153
10. The Target Framework	154
Creating a Target Framework	154
Issue 1: Al-Shabaab Ideology	156
Issue 2: Influencing Azerbaijan	158
Political Model	160
Military Model	161
Economic Model	162
Social Model	163
Infrastructure Model	165
Information Model	165
Issue 3: The Monopolitania BW Threat	166
Submodels	167
Collateral Models	168
Alternative and Competitive Target Frameworks	170
Alternative Frameworks	170
Competitive Frameworks	171
The Dynamic Framework	173
Summary	173
Critical Thinking Questions	174
Notes	174
11. Analyzing Existing Intelligence	176
Existing Finished Intelligence	176
Sources of Raw Intelligence	177
Evaluating Evidence	180
Evaluating the Source	181
Evaluating the Communications Channel	184
Evaluating the Credentials of Evidence	187
Pitfalls in Evaluating Evidence	190

Combining Evidence	197
Divergent Evidence	197
Convergent Evidence	197
Formal Methods for Evaluating and Combining Evidence	198
Structured Argumentation	199
Analysis of Competing Hypotheses	199
Bayesian Techniques for Combining Evidence	201
A Note about the Role of Information Technology	202
Summary	204
Critical Thinking Questions	205
Notes	206
12. The Information Sources: Filling Gaps	208
Interrelating the Issue Decomposition and Target Framework	209
Identifying Gaps	214
Developing the Collection Strategy	216
Using Existing Collection Assets	216
Dealing with Networks	220
Dealing with Enigmas	220
Executing Collection Strategies	221
Analyst-Collector Interaction	222
Evaluating Collection	224
Collection Requirements	225
Summary	227
Critical Thinking Questions	228
Notes	229
13. Denial, Deception, and Signaling	230
Denial	232
Deception	233
Defense against Denial and Deception:	
Protecting Intelligence Sources and Methods	236
Countering Denial and Deception	242
The Analyst	243
Collectors	243
The Customer	244
Signaling	246

Summary	249
Critical Thinking Questions	250
Notes	250
14. Gaining Customer Acceptance	252
Structuring the Message	252
Support Every Analytic Conclusion	253
Separate Facts from Analysis	253
Presenting the Message	254
Get to the Point	255
Write or Brief to Inform, Not to Impress	255
Make It Easy and Enjoyable to Read or Listen to	255
Write as You Would Talk	256
Avoid Acronyms	257
Use Graphics	257
Reviewing the Analytic Product	257
Peer Review	257
Management Review	258
Red Teams	258
Devil's Advocate	259
Customer Interaction	259
Analyst as Advocate: Getting Buy-In	260
Aftermath: Dealing with Unexpected Outcomes	263
Summary	264
Critical Thinking Questions	265
Notes	266
PART III ANTICIPATORY ANALYSIS AND MODELING	267
15. Anticipatory Analysis: Forces	270
Background Forces	272
Inertia	272
Opposition	275
Contamination	276
Feedback	278
Synergy	280
Causal Models	282
Summary	285
Critical Thinking Questions	285
Notes	286

16. Anticipatory Analysis: Methodology	287
Convergent and Divergent Phenomena	289
The Estimative Approach	291
High-Impact/Low-Probability Analysis	294
Extrapolation	295
Projection	298
Forecasting	307
Unintended Consequences	311
Summary	313
Critical Thinking Questions	314
Notes	315
17. Outcome Scenarios	317
Why Use Scenarios?	317
Types of Scenarios	320
Demonstration Scenario	320
Driving-Force Scenario	320
System-Change Scenario	321
Slice-of-Time Scenario	321
Scenario Perspectives	321
How to Construct Scenarios	322
1. Define the Issue and the Target Framework	323
2. Identify and Rank the Driving Forces and Factors	323
3. Select the Scenario Logics	323
4. Flesh Out the Scenarios	326
5. Draw Out the Implications	328
6. Identify and Monitor Indicators	328
Summary	329
Critical Thinking Questions	329
Notes	330
18. Systems Modeling and Analysis	332
Systems Analysis Methodology	334
Performance	335
Comparative Modeling	336
The Mirror Imaging Challenge	340
Process	341
Program Cycle Model	344
Program Staffing Model	345
The Technology Factor	347

Risk	347
Cost	349
Operations Research	350
Linear Programming	351
Network Analysis	351
Summary	351
Critical Thinking Questions	352
Notes	353
19. Relationship Modeling and Analysis	354
Link Models	355
Network Models	357
Network Model Types	359
Manual Modeling	360
Computer-Assisted and Automated Modeling	361
Network Analysis	362
Nodal Analysis	362
Social Network Analysis	363
Organizational Network Analysis	367
Threat Network Analysis	371
Target Network Analysis	373
Automating Network Analysis	374
Summary	374
Critical Thinking Questions	375
Notes	376
20. Geospatial Modeling and Analysis	378
Static Geospatial Models	381
Human Terrain Modeling	384
The Tools of Human Terrain Modeling	387
Dynamic Geospatial Models	387
Movement Intelligence	389
Activity-Based Intelligence	391
Geographic Profiling	393
Intelligence Enigmas	394
Summary	396
Critical Thinking Questions	397
Notes	397

21. Simulation Modeling	400
Types of Simulations	400
Creating and Running a Simulation	401
Simulations Used in Intelligence Analysis	402
Economic Simulations	403
Weapons Systems Simulations	404
Military Simulations	406
Network Simulations	406
Geospatial Simulations	407
Political and Social Simulations	408
Decision Modeling and Simulation	409
Rational Models	409
Administrative Models	411
Cultural Models	411
Emotional Models	412
Collective Decision-Making Models	413
Game Theory	414
Checking the Decision Model: Red Team Analysis	416
Summary	417
Critical Thinking Questions	418
Notes	418
22. Case Study: A Tale of Two NIEs	420
The Yugoslavia NIE	420
The Setting	421
First Draft (the “Muddle-Through” NIE)	422
Second Draft (Force Field Analysis)	423
The Customer View	424
The Iraqi Weapons of Mass Destruction NIE	424
The Setting	425
The NIE	426
The Customer View	431
Critical Thinking Questions	431
Notes	433
List of Commonly Used Acronyms	434
Index	437
About the Author	458
