Introduction	xxxxvi

PART ONE: THE STUDY OF URBAN GEOGRAPHY 1

Chapter 1 Urban geography: from global to local 3

Introduction
Global trigger factors
Globalisation
The place of space and scale
Local and historical contingency
Processes of urban change
Urban outcomes
Daily life in the global village
Why study urban geography?

Chapter 2 Concepts and theory in urban geography 20

Introduction
The scope of urban geography
Defining the urban
The place of space
The value of the urban dimension
A brief history of urban geography
In search of common ground
Levels of analysis in urban geography

PART TWO: AN URBANISING WORLD 35

Chapter 3 The origins and growth of cities 37

- Introduction
- Preconditions for urban growth
- Theories of urban origin
- Early urban hearths
- The spread of urbanism
- Urban revival in Western Europe
- The medieval town
- The preconditions for industrial urbanism
- The form of the industrial city
- Residential segregation
- Housing the poor
- The other side of the coin
- The origins of urban USA
- The westward progress of urbanism
- The post-industrial/postmodern city

Chapter 4 The global context of urbanisation and urban change 67

- Introduction
- The urbanisation of the globe
- The changing distribution of the world's urban population
- The causes of urban growth
- Settlement size
- Megacities and million cities
- Urbanisation and economic growth
- The urbanisation cycle
- A 'stages of urban development' model

Chapter 5 Regional perspectives on urbanisation and urban change 88

- Introduction
- North America
- Latin America and the Caribbean
- Western Europe
- East and Central Europe
- Asia and the Pacific
- Africa

Chapter 6 National urban systems 111

- Introduction
- National urban systems and the outside world
- Types of places in the national urban system
- Theories of the urban system
- Types of urbanised regions

PART THREE: URBAN STRUCTURE AND LAND USE IN THE WESTERN CITY 129

Chapter 7 Land use in the city 131

- Introduction

Urban morphogenesis
 Ecological models of the city
 Modifications of the classical urban models
 A political economy perspective
 Major actors in the production of the built environment
 Growth coalitions
 The central business district
 Urban architecture
 Architecture and urban meaning
 The social construction of the urban landscape

Chapter 8 Urban planning and policy 157

Introduction
 The roots of urban planning
 Post-war urban planning in the UK
 Urban policy in the UK
 Urban policy and planning in the USA
 Planning the socialist city
 Towards planning for sustainable urban development

Chapter 9 New towns 179

Introduction
 The British new towns
 New towns in Europe
 New communities in the USA

Chapter 10 Residential mobility and neighbourhood change 191

Introduction
 Why people move
 The decision to move
 The search for a new home
 Housing markets
 Neighbourhood change
 Housing abandonment
 Gentrification

Chapter 11 Housing problems and housing policy 209

Introduction
 Trends in housing tenure in the UK
 Public housing in the USA
 Housing affordability
 Homelessness
 Strategies to improve housing quality
 Alternative housing strategies

Chapter 12 Urban retailing 229

Introduction
 Urban retail structure
 The changing structure of urban retailing

The growth of suburban shopping centres in
North America
Impact of retail decentralisation on the US CBD
Concentration versus decentralisation in Britain
Disadvantaged consumers

Chapter 13 Urban transportation 248

Introduction
Patterns of travel demand
The urban transport problem
Responses to the urban transport problem
Transport and sustainable urban development

**PART FOUR: LIVING IN THE CITY: ECONOMY,
SOCIETY AND POLITICS IN THE WESTERN CITY** 265

Chapter 14 The economy of cities 267

Introduction
The world/global economy
The world economy in the post-war era
Transnational corporations and the state in the
global economy
New production systems and new industrial
spaces
Deindustrialisation and tertiarisation
The nature of work and the division of labour
Unemployment
Informalisation
Urban change within the global economy
The world city
Transnational urban systems
The post-war restructuring of the UK space-
economy

Chapter 15 Poverty and deprivation in the Western city 289

Introduction
Theories of deprivation
The nature of deprivation
The underclass
Dimensions of multiple deprivation
Financial exclusion
The geography of deprivation
The inner-city problem
The outer-city problem
Deprivation and the area-based approach

**Chapter 16 National and local responses to urban economic
change** 312

Introduction
Urban regeneration from the top down
Public-private partnership
Property-led regeneration
Cultural industries and urban reconstruction

The market-led approach to urban development	
Urban regeneration from the bottom up	
The community economy	
<i>Chapter 17 Collective consumption and social justice in the city</i>	332
Introduction	
Welfare needs and provision	
Changing nature of the welfare state	
The theory of public goods	
Theories of public service provision	
Efficiency, equity and equality in public service provision	
The suburban exploitation thesis	
Deinstitutionalisation	
Educational services in the city	
Social justice and welfare	
<i>Chapter 18 Residential differentiation and communities in the city</i>	348
Introduction	
Identification of residential areas	
Sense of place	
The urban community	
The bases of residential segregation	
<i>Chapter 19 Urban liveability</i>	380
Introduction	
Rating places	
Theories of urban impact	
Environmental stressors	
Site design and social behaviour	
Residential satisfaction	
Urban sub-areas	
Women in the city	
Elderly people in the city	
Children in the city	
Disabled people in the city	
Towards the liveable city	
<i>Chapter 20 Power, politics and urban governance</i>	401
Introduction	
Role of local government	
Constraints on local government	
Spatial structure of local government	
City growth, annexation and incorporation in the USA	
Negative consequences of fragmented government	
Metropolitan government	
Power in the city	

PART FIVE: URBAN GEOGRAPHY IN THE THIRD WORLD 429

Chapter 21 Third World urbanisation within a global urban system

431

- Introduction
- Urbanisation in the First and Third Worlds
- Theories of urbanisation and development
- Third World urbanisation in historical context
- Peripheral urbanisation
- Exo-urbanisation

Chapter 22 Internal structure of Third World cities

447

- Introduction
- Cities of Latin America
- Africa's cities
- Cities of the Middle East and North Africa
- The city in South Asia
- The South-East Asian city

Chapter 23 Rural-urban migration in the Third World

461

- Introduction
- Why people move
- Structural determinants of migration
- Who migrates?
- Migration strategies
- The policy response

Chapter 24 Urban economy and employment in the Third World

476

- Introduction
- Evolution of the Third World urban economy
- Structure of the two circuits
- The nature of lower-circuit activity
- Employment relations in the Third World urban economy
- Labour market structure
- Job access
- Unemployment, underemployment and misemployment
- Women in the labour force
- Child labour
- The household economy and coping strategies

Chapter 25 Housing the Third World urban poor

490

- Introduction
- Main sources of housing for the urban poor
- Housing sub-markets and the urban poor
- Squatter settlements
- Housing finance
- Urban land markets and the poor
- Informal settlements: generative or parasitic?
- Government housing policy

Chapter 26	<i>Environmental problems in Third World cities</i>	519
	Introduction	
	The domestic environment	
	The workplace environment	
	The neighbourhood environment	
	The city environment	
	The city's ecological footprint	
Chapter 27	<i>Health in the Third World City</i>	537
	Introduction	
	The epidemiological transition	
	Factors determining health status	
	Intra-urban variations in health	
	Diseases of the urban poor	
	Primary health care and the urban poor	
	Malnutrition	
	Combating urban malnutrition	
	Integrated approaches to primary health care	
Chapter 28	<i>Traffic and transport in the Third World city</i>	551
	Introduction	
	Traffic problems	
	Transport and Third World urban form	
	Public transport	
	Non-motorised transport	
	Rail-based transit systems	
	Urban transport strategies in the Third World	
Chapter 29	<i>Poverty, power and politics in the Third World city</i>	562
	Introduction	
	The social relations of power	
	Partiality, inequality and the soft state	
	The bases of social power	
	Patron-client relationships	
	Urban social movements	
	Christian base communities	
	Urban non-governmental organisations in the Third World	
	Community participation in Third World urban governance	
PART SIX: PROSPECTIVE – THE FUTURE OF THE CITY: CITIES OF THE FUTURE		577
Chapter 30	<i>The future of the city – cities of the future</i>	579
	Introduction	
	Sustainable urban development	
	Urban metabolism	
	Towards the city of the future	
	The study of urban geography	

Notes
Glossary
Index

Chapter 26 Environmental problems
Introduction 599
The domestic environment 634
The workplace environment 643

The neighbourhood environment
The city environment
The city's ecological footprint

Chapter 27 Health in the Third World City

Introduction
The epidemiological transition
Factors determining health status
Intra-urban variations in health
Diseases of the urban poor
Primary health care and the urban poor
Malnutrition
Combating urban malnutrition
Integrated approaches to primary health care

Chapter 28 Traffic and transport in the Third World city

Introduction
Traffic problems
Transport and Third World urban form
Public transport
Non-motorised transport
Rail-based transit systems
Urban transport strategies in the Third World

Chapter 29 Poverty, power and politics in the Third World city

Introduction
The social relations of power
Partially, inequality and the soft state
The bases of social power
Patron-client relationships
Urban social movements
Christian base communities
Urban non-governmental organisations in the Third World
Community participation in Third World urban governance

PART SIX: PROSPECTIVE - THE FUTURE OF THE CITY: CITIES OF THE FUTURE

Chapter 30 The future of the city - cities of the future

Introduction
Sustainable urban development
Urban metabolism
Towards the city of the future
The study of urban geography
