Foreword	7
Acknowledgements	8
Introduction	10
History of studying inclusions in precious stones	10
Types of precious stone illumination during observation under a microscope	15
Darkfield observation	15
Observation in a light field (passing light)	16
Diffused illumination in a light field (white filter)	17
Diffused illumination in a light field (blue filter)	17
Observation in incident light	17
Observation in incident UV light	18
Observation in a shaded field (in passing light)	19
Observation in an immersion liquid	20
Observation in a polarized light	20
Identification of inclusions in gems	21
How to work with the microscope properly	22
Geology of Bohemian garnet deposits	24
Gemmological-mineralogical characterisation of Bohemian garnet	25
UV-VIS-NIR spectrometry	26
Raman spectrometry	28
Genetic types of pyrope occurrence in the Czech Republic	32
Geology of the Central Bohemian Uplands (České středohoří)	34
Inclusions in pyrope (Bohemian garnet) from the Central Bohemian Uplands (České středohoří)	34
Photo gallery of inclusions from different localities in the Central Bohemian Uplands area (České středohoří)	36
Geology of the Giant Mountains Piedmont area (Podkrkonoší) and Bohemian Paradise (Český ráj) Geology of the locality Vestřev	40
Inclusion in pyrope (Bohemian garnet) from the Giant Mountains Piedmont (Podkrkonoší) and Bohemian Paradise	41
Photo gallery of inclusions from the localities in the Giant Mountains Piedmont (Podkrkonoší) and Bohemian Paradise (Český ráj)	42
Giant Mountains Piedmont (Podkrkonoší)	42
Bohemian Paradise	51
Geology of Bohemian garnet occurrences in the wider surroundings of Kolín	55
Bohemian garnet in the Kolín area	55
Inclusions in pyrope (Bohemian garnet) from the Kolín area, Kutná hora, Železné hory (Iron mountains) and Čáslav area	56
Photo gallery of inclusions from individual localities from the Kolín area, Kutná hora area, Iron Mountains (Železné hory) and Čáslav area	58
Kutná hora area	58
Kolín area	62
Iron Mountains area (Železné hory)	74
Čáslav area	76
Imitation of Bohemian garnet	81
Almandine	81
Cuts with a concave base	88
Garnet doublets	89
Composite glass	91
Bibliography	106
