

CONTENTS

Game design research	1
An overview	
<i>Petri Lankoski and Jussi Holopainen</i>	
1. Epistemological underpinnings of game design research	15
<i>Laureline Chiapello</i>	
2. Multidisciplinary game design research	35
Ontologies and other remarks	
<i>Annakaisa Kultima</i>	
3. De-coding games through historical research in art and design	51
<i>Christopher W. Totten</i>	
4. Investigating game design methods and models	75
<i>Joris Dormans and Jussi Holopainen</i>	
5. Games design research through game design practice	97
<i>Paul Coulton and Alan Hook</i>	
6. Game design mise-en-scène practice	117
Intention and means in JEU SERAI	
<i>Emmanuel Guardiola and Stéphane Natkin</i>	
7. Gaps of uncertainty	135
A case for experimentation in serious game design frameworks	
<i>Niels Quinten, Steven Malliet and Karin Coninx</i>	
8. Experimental game design	157
<i>Annika Waern & Jon Back</i>	
9. Going indie	171
Methods for understanding indie production	
<i>Alyea Sandovar</i>	
10. Critical practices in game design	199
<i>Jess Marcotte and Rilla Khaled</i>	
 <i>About the Authors</i>	 219
<i>About the ETC Press</i>	223
