

Table of Contents

Acknowledgments	vii
About the Authors	ix
Preface	xi
Importance of Polymers	xi
Formulation: Choosing an Application-Specific Polymer	xi
Additives as Possible Hazards: Extractable and Leachable Compounds ..	xii
Importance of Analysis	xii
Analytical Protocols, Historical	xiii
Purpose	xiii
How to Use this Handbook	xv
Chapter 1 Overview of Polymers, Additives, and Processing	1
Introduction	1
Classes of Polymeric Compounds	2
Compounding Objectives	2
Thermoplastic Compounding	3
Crosslinked Elastomer Compounding	6
Thermoplastic Elastomer Compounding	8
Compounding Overview	9
Introduction	9
Methods of Compounding: Thermoplastic Polymers	9
Methods of Compounding: Crosslinked Elastomers	13
Chapter 2 Extraction and Analysis	19
Introduction	19
Extraction Methods	19
Analytical Methods	22
System Maintenance	25
References	26
Chapter 3 Crosslinking Compounds/Accelerators	27
Chapter 4 Stabilizers	53
Chapter 5 Antioxidants	73
Chapter 6 Coupling Agents	219
Chapter 7 Flame Retardants	231
Chapter 8 Plasticizers	247
Chapter 9 Other Compounds of Interest	389
Chapter 10 Practical Applications of Investigative Analyses	405
Case Studies: Polymer Additives in Pharmaceutical Packaging	405
Case Study #1: Pre-Filled Syringe Vials	405
Case Study #2: Nasal Pump Delivery System	407
Case Study #3: Dry Powder Inhalation Device	411
Case Studies: Performance and Exposure Issues with Organic Additives ..	415

Case Study #1: Contaminants in Plastic Food Packaging	416
Case Study #2: Peeling Labels	418
Case Study #3: BPA-Free Coffee Cup	421
Case Study #4: Polymers Used in Infant Chew/Teething Toys	423
Case Studies: Polymers for Electrical Equipment Applications	425
Case Study #1: Electrical Insulators	425
Case Study #2: Review of Field-Aged Elastomeric Materials	428
Case Study #3: Performance of Polymeric Seals	430
Case Studies: Questioned Analytical Procedures	432
Case Study 1: Benzene in Blister Packaging Materials	432
Case Study 2: Toxic Material in Medication Container Lining	434
APPENDIX A Chromatograms	439
APPENDIX B Definitions and Abbreviations	607
Subject Index	609
Molecular Weight Index	617
Five Peak Index of Mass Spectra	619
CAS Number Index	635
RTECS Number Index	637
