Preface	ix
<i>Normal and Developmental Aspects of Balance and Gait</i>	
1. Posture and equilibrium Jean Massion, Marjorie H Woollacott	1
2. Neurobiomechanical bases for the control of human locomotion Aftab E Patla	19
3. Development of balance and gait control Marjorie H Woollacott, Christine Assaiante, Bernard Amblard	41
<i>Assessment of Balance and Gait Disorders</i>	
4. Orthopaedic assessment of gait disorders John H Patrick	64
5. Clinical neurological assessment of balance and gait disorders Philip D Thompson, C David Marsden	79
6. Neuro-otological assessment in the patient with balance and gait disorders Adolfo M Bronstein, Michael A Gresty, Peter Rudge	85
7. Vestibulospinal and proprioceptive reflex assessment of balance control John HJ Allum	114
<i>Clinical Disorders of Balance and Gait</i>	
8. Postural imbalance in peripheral and central vestibular disorders Thomas Brandt, Marianne Dieterich	131
9. Cerebellar and spinocerebellar gait disorders Hans-Christoph Diener, Johannes Dichgans	147
10. Basal ganglia gait disorders Peter Brown, Malcom J Steiger	156
11. Spastic gait disorder Volker Dietz	168
12. Drop attacks MS Lee, C David Marsden	177
13. Frontal gait disorders C David Marsden, Philip D Thompson	188
14. Physiologic imbalance and psychogenic disorders of stance and gait Thomas Brandt	194
<i>Rehabilitation of Balance and Gait Disorders</i>	
15. Rehabilitation of balance disorders in the patient with vestibular pathology Anne Shumway-Cook, Fay B Horak, Lucy Yardley, Adolfo M Bronstein	211
16. Neurological rehabilitation of gait and balance disorders Karl-Heinz Mauritz, Stefan Hesse	236

17. **Psychosocial aspects of balance and gait disorders** Lucy Yardley, Richard S Hallam

251

The Problem of Gait and Falls in the Elderly

18. **Balance control in the elderly** Pei-Fang Tang, Marjorie H Woollacott
 19. **Gait disorders and falls in the elderly** James S Frank, David A Winter, Rebecca L Craik
 20. **Medications and falls and fall-related injuries in the elderly** Purushottam B Thapa, Wayne A Ray
 21. **Falls in the elderly: a clinical view** Joanna H Downton

Whilst the advice and information in this book is believed to be true and accurate at the date of going to press, neither the authors nor the publisher can accept any legal responsibility or liability for any errors or omissions that may be made. In particular (but without limiting the generality of the preceding disclaimer) every effort has been made to check the accuracy of the information in this book. It is still possible that errors have occurred. The authors and publisher accept no responsibility for such errors. For these reasons the reader is strongly urged to consult the appropriate printed instructions and to use the appropriate printed instructions in the book.

Normal and Developmental Aspects of Balance and Gait
 1. Posture and equilibrium Jean Massion, Marjorie H Woollacott
 2. Neurobiomechanical bases for the control of human locomotion
 3. Development of balance and gait control Marjorie H Woollacott, Marjorie H Woollacott
 Bernard Amblard

Assessment of Balance and Gait Disorders
 4. Orthopaedic assessment of gait disorders John H Basmajian, Marjorie H Woollacott
 5. Clinical neurological assessment of balance and gait disorders Philip D Thompson, Philip D Thompson
 6. Neuro-otological assessment in the patient with balance and gait disorders
 7. Vestibulospinal and proprioceptive reflex assessment of balance control
 John H Allum

Clinical Disorders of Balance and Gait
 8. Postural imbalance in peripheral and central vestibular disorders Thomas Brandt, Thomas Brandt
 9. Cerebellar and spinocerebellar gait disorders Hans-Christoph Diener, Johannes Dichgans
 10. Basal ganglia gait disorders Peter Brown, Malcolm Steiger
 11. Spastic gait disorder Volker Dietz
 12. Drop attacks MS Lee, C David Marsden
 13. Frontal gait disorders C David Marsden, Philip D Thompson
 14. Physiological imbalance and psychogenic disorders of stance and gait Thomas Brandt, Thomas Brandt

Rehabilitation of Balance and Gait Disorders
 15. Rehabilitation of balance disorders in the patient with vestibular pathology
 Anne Shumway-Cook, Fay B Horak, Lucy Yardley, Adolfo M Bronstein
 16. Neurological rehabilitation of gait and balance disorders Karl-Heinz Mauritz, Stefan Hesse
