	Foreword	ix
	Preface	xi
	Acknowledgments	xiii
	Contributors	xv
1	Managing Mild Hearing Loss	1
	<i>Jane R. Madell</i>	
2	Newborn Follow-up	3
	<i>Christi Barbee and Andrew B. John</i>	
3	Probable Enlarged Vestibular Aqueduct and Hearing Loss in a 6-Year-Old Child	5
	<i>Jessica Sullivan and Homira Osman</i>	
4	Being Mindful of “Mild”	9
	<i>Meredith Spratford</i>	
5	Minimal/Mild Bilateral Hearing Loss	12
	<i>Marlene Bagatto</i>	
6	Management of Mild/Moderate Mixed Hearing Loss in a 2-Year-Old	16
	<i>Josephine Marriage</i>	
7	Behavioral Hearing Evaluation: 2-Year-Old Girl	19
	<i>Jennifer Wilk</i>	
8	“Well-Baby” Burt	21
	<i>Tracey Ambrose, Tommie L. Robinson Jr., and Diego Preciado</i>	
9	Child with Late-Onset Mild to Moderate Hearing Loss	27
	<i>Elizabeth M. Fitzpatrick</i>	
10	Pfeiffer’s Syndrome	31
	<i>Stacey R. Lim</i>	
11	Probable Ménière’s Disease in a 10-Year-Old Child	34
	<i>Erin Schafer</i>	
12	Transient Auditory Neuropathy Spectrum Disorder or Delayed Auditory Maturation in a Well Baby	39
	<i>Andi Seibold</i>	
13	Auditory Neuropathy Spectrum Disorder: Delayed Diagnosis	45
	<i>Shelley Moats</i>	
14	Child with Progressive Hearing Loss	49
	<i>Elizabeth M. Fitzpatrick</i>	
15	School-Aged, Unidentified Minimal/Mild Hearing Loss	53
	<i>Lori A. Pakulski</i>	

16	What Was Missed?	57
	<i>Christi Barbee and Andrew B. John</i>	
17	A Case of Progressive Vestibular Impairment	63
	<i>Kelsey Hatton, Devin McCaslin, and Marc Bennett</i>	
18	Auditory Processing Evaluation: 12-Year-Old Male	67
	<i>Erin C. Schafer and Shelby Landes</i>	
19	Hearing and Vestibular Loss in a 9-Month-Old Child	71
	<i>Kristen Janky</i>	
20	Magnetic Bone Conduction Hearing Implant System	75
	<i>Lisa Vaughan Christensen and Lindi Berry</i>	
21	Startle Epilepsy and Tinnitus Masking	79
	<i>Lisa Vaughan Christensen</i>	
22	Hyperbilirubinemia	81
	<i>Karen Muñoz and Elizabeth Preston</i>	
23	CHARGE Syndrome	84
	<i>Karen Muñoz and Cache Pitt</i>	
24	Enlarged Vestibular Aqueduct with Fluctuating Hearing Loss	88
	<i>Kimberly Auerbach</i>	
25	Complex Audiologic Diagnostic Case	92
	<i>Joan Hewitt</i>	
26	Auditory Processing Evaluation: 8-Year-Old Female	97
	<i>Shelby L. Landes and Erin C. Schafer</i>	
27	Unilateral Auditory Neuropathy Spectrum Disorder/Cochlear Nerve Aplasia	101
	<i>Jane Burton and Meredith Holcomb</i>	
28	Bilateral Microtia/Atresia with Mixed Hearing Loss	104
	<i>Michele DiStefano</i>	
29	Middle Ear Trauma: 4-Year-Old Girl	105
	<i>Lindi Berry and Aubrey Chesner</i>	
30	Decreased Sound Tolerance (Misophonia)	110
	<i>Lori Zitelli and Catherine Palmer</i>	
31	Congenital Profound Hearing Loss, Noonan's Syndrome, and Cochlear Implantation	115
	<i>Neil Sperling and Michelle Kraskin</i>	
32	Cytomegalovirus	119
	<i>Elizabeth Preston</i>	
33	Congenital Ossicular Chain Anomalies and Hearing Loss	122
	<i>Darius Kohan</i>	
34	Auditory Neuropathy Spectrum Disorder	126
	<i>Megan Kuhlmeier</i>	

35	A Complex Audiologic Case Demonstrating Professional Collaboration	128
	<i>Amy McConkey Robbins and Cathryn A. Luckoski</i>	
36	Multidisciplinary Assessment and Management of a Complex Case	137
	<i>Jeffrey Simmons and Catherine Carotta</i>	
37	Sudden-Onset Hearing Loss with Bilateral Enlarged Vestibular Aqueducts	144
	<i>Hilary Gazeley</i>	
38	Living in the Genome Generation: Biparental <i>GJB2</i> Pathogenic Variants Detected by Expanded Carrier Screening—Outcome from Newborn Screening and Management of Child Following Audiologic Testing	147
	<i>Juan Shen, Cui Song, Marie Tan, Margaret A. Kenna, and Cynthia C. Morton</i>	
39	Monitoring Performance for a Child with Hearing Loss	152
	<i>Jane R. Madell</i>	
40	Borderline Cochlear Implant Candidate with EVA	155
	<i>Carol Flexer</i>	
41	Determination of Bimodal/Bilateral Cochlear Implant Candidacy	158
	<i>Jace Wolfe</i>	
42	Considerations for Hearing Technology Intervention for Precipitously Sloping Hearing Loss in Children	163
	<i>Jace Wolfe</i>	
43	Teenager Rejecting Hearing Aids	170
	<i>Jane R. Madell</i>	
44	Facilitating Full-Time Hearing Aid Use in Children	173
	<i>Darcy Stowe, Lindsay Hanna, Elizabeth Musgrave, and Tessa Hixon</i>	
45	Progressive Hearing Loss	181
	<i>Rollen Cooper and Dawn Violetto</i>	
46	Fitting Frequency-Lowering Technology to Children	186
	<i>Danielle Glista, Marianne Hawkins, and Susan Scollie</i>	
47	Removing Reluctance in Remote Microphone Use	191
	<i>Linda Thibodeau and Brett Shonebarger</i>	
48	Poor Performance with a Cochlear Implant: A Case of Overinsertions	195
	<i>Casey Stach and Teresa Zwolan</i>	
49	Personal Roger System Fitting	198
	<i>Amy Lynn Birath</i>	
50	Hypoplastic Cochlear Nerve	202
	<i>Kenneth Bodkin</i>	
51	Complicated Mapping	213
	<i>Rose Wright and Lisa S. Davidson</i>	
52	A Case of Pediatric Hyperacusis	216
	<i>Jenne Tunnell</i>	

53	Cochlear Implantation in a Child with Single-Sided Deafness	227
	<i>Kristi Reed</i>	
54	Unilateral Auditory Neuropathy Spectrum Disorder	230
	<i>Katherine Schaars</i>	
55	Cochlear Implantation for Enlarged Vestibular Aqueduct	235
	<i>Jane Burton and Meredith Holcomb</i>	
56	Does Stimulation Rate Matter?	242
	<i>Bari Pham</i>	
57	Cochlear Implantation for Children with Single-Sided Deafness	246
	<i>David R. Friedmann, Janet Green, Laurel Mahoney, William Shapiro, and J. Thomas Roland, Jr.</i>	
58	Family Not Following Up with Audiological Recommendations	248
	<i>Joni Alberg</i>	
59	Child with Severe Profound Hearing Loss Born to Parents with Deafness	250
	<i>Michael Douglas</i>	
60	Why Is JS Not Making Progress?	253
	<i>Jane R. Madell</i>	
61	Progressive Hearing Loss	255
	<i>Jackie L. Clark</i>	
62	Use of LENA to Explore Classroom Listening Concerns for Student with Auditory Neuropathy Spectrum Disorder	260
	<i>Lori A. Pakulski and Katherine Anderson</i>	
63	Management of Hearing Loss in a Case of Vestibular Aqueduct Syndrome	266
	<i>Patricia Roush</i>	
64	Considerations for Hearing Technology for Minimal to Mild Hearing Loss	273
	<i>Andrea D. Warner-Czyz and Shawna Jackson</i>
