Foreword 13

Introduction 15

Section 1. The time for video consultations has come 19

1 Why practices need to embrace digital 20

2 Video consultations are a type of telehealth 23

3 Telehealth is just healthcare delivered via a different communication medium 26

4 Telehealth requires making changes to the way your business operates 29

5 There's no change necessary to your healthcare knowledge 32

6 You need a transformation project to introduce video consultations 35

7 Principles we follow in the book: hybrid care, minimal disruption, sustainability 38

8 Sharing our experience from helping a diverse set of practices in Australia 40

CHECKLIST: Are you ready to make a difference with video consultations? 45

Section 2. Imagine your future with video consultations 47

9 Start by imagining what the future of your business should look like 49

10 What potential benefits can you achieve from video consultations? 51

11 What do you personally want to achieve? Imagine the future for yourself 53

12 Don't plan in isolation – validate your vision with others 55

13 Where things go wrong: start with only one service and its viability 57

14 Add details to your vision: workflows, people roles, systems, money flows 60

15 Write down your vision and add user stories 62

16 Optimise your vision for patient desirability and business viability 64

CHECKLIST: Do you have a vision of running your business with video consultations? 66

Section 3. Undertaking a transformation project 67

17 Advantages and disadvantages of doing a pilot project first 69

18 Dimensions of change: people, processes, technology and a new service name 72

19 Understanding where your business is at right now 74

20 Who is responsible for the project 78

21 Preparing a project plan and delivery timelines 81

22 What does project success look like and how do you measure it? 86

23 Addressing regulatory and insurance issues 90

24 How to minimise disruption to existing business processes 92

CHECKLIST: Do you have a project plan ready for execution? 94

Section 4. We need to get everybody on board 95

25 Who is involved in running your business now and in the future? 97

26 What gets clinicians excited? 100

27 Including your practice (admin) personnel in defining processes 104

28 Changing job descriptions and introducing a telehealth coordinator role 106

29 Talking to your IT personnel about video consultations 109

30 Preparing training 112

31 How to on-board patients 115

32 How to attract new patients to your service 118

CHECKLIST: Is your project plan sufficient to address people issues? 121

Section 5. Getting technology fit for your workflows 123

33 Assessing your current technology status and workflow support 125

34 Network connectivity, mobile and desktop devices 127

35 How to assess your software choices 131

36 Integrating video consultations with scheduling and medical records software 137

37 What medical devices and tools do you use face-to-face? 141

38 Does your physical space setup need any changes? 143

39 Working through planned workflows using chosen hardware and software 145

40 Adding technology requirements and assessments to your project plan 147

CHECKLIST: Is your project plan sufficient to address technology issues? 148

Section 6. Making video consultations sustainable 149

41 Execute with conviction: confidence, persistence, flexibility 151

42 Building your business reputation beyond the borders of your practice 153

43 The big day – your digital service launch 155

44 Maintaining enthusiasm: collecting and sharing success stories 157

45 Minimising disruption: support and operations 159

46 Embrace new charging models, with and without Medicare 161

47 Stacking up change projects – Kaizen 164

48 Opportunities for growth 166

CHECKLIST: Is your project executed successfully? 168

Conclusion 169
